 <sup>3</sup> In 2016 Intermex was incorporated to Compartamos Banco in order to broaden its service offering with remittances

CLIENTS: JOSÉ DEL CARMEN BETANCOURT ÁVILA (FATHER) AND **MIGUEL VALENTÍN BETANCOURT CASTILLO (SON)** LOAN OFFICER: LILIANA TREJO MANZANILLA BUSINESS: FISHING AND SELLING FISH LENGTH OF SERVICE: 3 YEARS PRODUCT: CRÉDITO COMERCIANTE

His life is linked to the sea, to the wealth of the waters of the Gulf of Mexico in Progreso, Yucatan. He started helping his father when he was only a boy and continuing his experience, 12 years ago both started their own business of octopus catching.

Thanks to their savoir-faire, the business has been growing and since 5 years ago, it is now a cooperative of larger size, fishing grouper, red snapper, rosin pitch, snapper, jack fish, white bream, sea bass, hogfish, octopus, sea cucumber and sardine.

With 9 boats, the cooperative provides employment to 41 people and sells fish to companies who manufacture and export it to the United States, due to its quality. With the loan from Compartamos Banco, he buys the bait, the fishing equipment and the fuel needed to operate.

This business, showcases the success of team work, constituting a source of income for an entire group of families of a community that sees in the sea their present and future.

## ATERNA

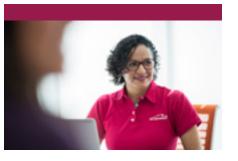

prevention services for the underserved segment. It designs and operates products and services, acting as a link between the insurance sector and the distribution channels. Through their products in Mexico, Peru and Guatemala, it promotes a prevention culture and allows clients to face the contingencies to which they are vulnerable.4

It is the insurance agent specialized in

- Life Insurance
- Health Insurance
- Damage Insurance

clients.

It has coverage in Mexico and its operation is linked to remittance companies in the United States to offer international service.

From 2016, the remittances service is offered through Compartamos Banco, Yastas and third-party correspondents.

## Fiinlab

It is the innovation laboratory of Gentera, it conceives, incubates, accelerates and creates collaboration societies along with the entrepreneurial ecosystem, for financial inclusion with technology as the main tool.

It is the non-profit organization that guides the social responsibility efforts of Gentera and its companies. In addition, it develops its own programs focused on education as the main driver for social inclusion.

It is the banking correspondet administrator that provides access to financial operations, service payments and cellphones airtime to the underserved segment, in a convenient way, particularly where the banking infrastructure is limited or non-existent.

- Financial operations of Compartamos Banco
- Financial Operations of National Savings and Financial Services Bank (BANSEFI, for its acronym in Spanish)
- Water service payments
- Multilevel payments
- Telephone bill payments
- Electricity bill payments
- Cable or Satellite TV bill payments
- Cell phone air time purchases

<sup>4</sup> Aterna is a joint-venture with INTERprotección.

It is the payer of family remittances, leader in providing an efficient, trustworthy and secure service to its

- Payment of international remittances
- Payment of national remittances between branches
- International and national courier and parcel service
- Foreign currency exchange
- Selling cellphone air time

For its purpose, Fiinlab internally develops innovative initiatives and enablers to satisfy the client's requirements. It also creates companies and ventures with start-ups and other external players in order to work in favor of financial inclusion and contributes to the generation and dissemination of an innovation culture promoting financial inclusion in Gentera and the entrepreneur ecosystem.

For a wider reach and with a collaborative focus, the Foundation sets partnerships in order to generate social value through formal education, financial education and the promotion of an entrepreneurial culture.

# Message from our Presidents

It is our pleasure to introduce our Annual and Sustainability Report 2016, in which we highlight the performance of Gentera and its companies, under a transparency approach, reciprocal to the trust given by our clients.

2016 has been a year of changes, of building who we want to be in the future, based on the strategy that we set in motion at the beginning of the year. We are committed with our aspiration, to empower ten million people from the underserved segment in the next ten years, to improve their life through personalized digital financial solutions, generating shared value.

The significance we seek for our operations, our present and future legacy, is based in the generation of shared value: social, economic, and human value, with the involvement of our stakeholders and the appropriate management of resources, in order to keep contributing to the progress of those communities where we have presence.

We want to be close to our clients in the development of their personal and professional projects, generating social value. Financial inclusion is a tool so their aspirations become a reality, a path to which we seek to contribute with credit solutions, savings, insurance, and means of payment, strengthening their knowledge of financial

management and giving them better services as well as protecting their interests.

**Compartamos** is the **leading entity** of financial services for the underserved segment in Latin America, a position reinforced every day through its operation in Mexico, Peru and Guatemala. This year it reached PS 110,543 million of disbursed credits, with an increase of 14.8% compared to last year, and the trust of 3.4 million clients, regarding the credit solutions that we provide.

The management of personal finances and entrepreneurship of the segment we attend, represent certain opportunities that along with financial education and saving solutions can be

The success of our financial solutions, understood as a contribution to the socioeconomic development of the segment we serve, has a strong foundation in the proximity with our client, the personal attention and the generated trust.

improved. At Gentera we bet on credit as an option and not as an obligation, we want the population to have access to financial alternatives that can be both credit and savings. In that regard, we drive our initiatives by making accessible to all our savings product, currently with 595,248 accounts in Mexico at the end of 2016.

The success of our financial solutions, understood as the contribution to the socioeconomic development of the segment we serve, has a strong foundation in the proximity with our clients, the personal attention and the generated trust. The loan officers of Compartamos reach the homes of our clients with the purpose of providing appropriate advice on a case by case basis, our service offices and banking locations are becoming increasingly wider, with 820 points in the three countries where we operate, in addition to the other 30,419 transaction points available for our clients. We also have broaden the possibilities these transaction points offer by incorporating remittances payment services through Intermex and the commercialization of **Aterna** insurance

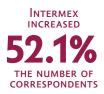

Our correspondent banking network of Yastás is continuously growing with 2,860 business members, by the end of 2016 and an increase of 42.2% in terms of the number of municipalities in Mexico where they are present. This network is increased by **Intermex** correspondents that add the incorporation of remittances services to the Compartamos network, with an increase of 52.1% in the number of correspondents at the end of the year. We build the future from the present, with technology as an ally. Our comprehensive network of channels, and unique ecosystem for the payment of loans and saving transactions, in Compartamos Banco branches and Yastás terminals, continues its expansion with 135 banking locations.

## GENTERA

policies. Aterna, has increased the sales of insurance policies by 15.1% in 2016 through different channels, reaching 17.2 million policies. These as part of the synergies that we have strengthen among our companies, always thinking in the added value and benefit for the client.

At Gentera we believe that digitalization and accelerating technologies, at the service of a clear strategy, are the basis for innovation. In 2016, we gave a disruptor impetus to innovation in the company, developing the strategic framework and putting in operation our innovation laboratory for financial inclusion: Fiinlab. Based on collaboration, our laboratory strengths the relationship of the Group with the entrepreneurial ecosystem for the creation of solutions that contribute to financial inclusion, with technology as a tool.

The commitment of our team makes the difference; we share values and purpose in a large family of more than 21 thousand employees. We want to grow together, thus we designed strong training programs that required, only in Mexico, more than 1 million hours, a **human value** of which we are proud of.

This strength is transferred to the community focusing on education as the seed of development, in a strategy coordinated by **Fundación Gentera**. Through our Social Responsibility Fund, comprised by 63.2 million pesos in 2016, we support the initiatives developed by our companies as well as the performance of our Foundation which works every day in partnership with different civil society organizations. We are proud of our volunteering culture, 16,847employees are part, which equals 79.5% of our labor force participating in this type of activities throughout the year.

In 2017, we expect to maintain a strong grow of our credit portfolio, underpinned in the asset quality. In this way we will continue generating social value through the delivery of finance.

In addition, in line with our strategy, we seek to integrate increasingly more clients to which we can provide appropriate solutions, fulfilling our sense of purpose of working for financial inclusion. We will continue investing in strategic projects that allow a more efficient operation and that reinforce the client service by strengthen the synergies offered by our companies. Keeping profitability as one of our values, the economic value creation will allow us as it has done until now, to keep building an inclusive development.

Our work does not stop, it gains momentum every day thanks to the trust of our clients, who make us evolve and give our best.

# We generate Shared Value

## Philosophy (102-16)

In Gentera our purpose is to work for the financial inclusion of the underserved segment through the creation of social, economic and human value. With a growth track record, we work intensely committed with our actions and the practice of our institutional values, which constitutes our Philosophy.

We generate **shared value** through the creation of:

#### Social Value: We offer inclusion opportunities to the largest number of people in the shortest possible time and we seek to foster the development of communities in Mexico, Peru and Guatemala.

#### Human Value: We trust in the people, in their willingness to grow, to self-realization and to be better.

## Value creation model (102-13)

In Latin America there are restrictions for access to financial services that are related to labor informality, self-employment, limited infrastructure and shortages in the socioeconomic development. However, inclusion is experiencing a growing trend, reflected in the increase of adults with at least one bank account, which went from 51% to 62% between 2011 and 2014, being the use of technology one of the main triggers (Global Findex 2014).

At Gentera we aim to contribute to an inclusive financial sector, creating opportunities for those that have been excluded and strengthening the development of social capital with a sustainable management focus over time. After 26 years

inancial inclusion is understood as the result of the access and use of financial services that require in turn financial education and client protection under a regulatory context and progress towards the maturity of the created scenario<sup>5</sup>.

At Gentera we work a curve towards the transcendence of inclusion, committed to geographic penetration and the delivery of better solutions as well as to greater efficiency in client protection and in the quality of financial education, which are an integral component of our solutions.

<sup>5</sup> Adapted from the Financial Inclusion Report I, National Banking and Securities Commission of Mexico (CNBV, for its acronym in Spanish) (2009).

12

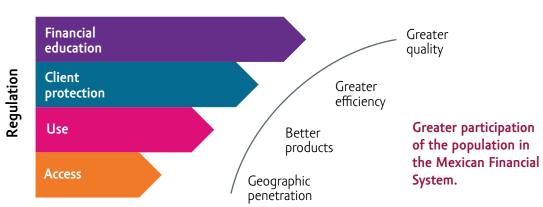

GENTERA

working on this, since 2016 we are involved in a transformation strategy which started with the analysis of our current position, the achievements, challenges and opportunities in the sector.

We have strengthen our vision of the client as the center of all our actions; for this reason we set as an aspiration to empower 10 million people of the underserved segment in the next 10 years, in order to improve their lives through personalized, digital financial solutions, creating shared value.

From different angles we are working in initiatives organized in 5 simultaneous points of actions, in which we have also strengthen the synergies.

Since our origins, in Gentera we have a service vocation and a clear objective, to contribute to the financial inclusion of the underserved segment. To achieve it, we work to offer credit, savings, means of payment, insurance and remittances products and services, always accompanied with the added value of financial education, client protection and the development of an entrepreneurial culture.

We believe in **service and proximity with our client**, as well as in **innovation** as core of our performance in the present and the future we are building for the Group. One cannot go without the other, the client is the focus of our offering, and its development is the purpose of our business endeavors, which we aim to be sustainable to deliver value also to stakeholders, from shareholders to our employees.

In a changing environment, the digitalization and the new technologies constitute the perfect ally to broaden our scope, and therefore the impact on financial inclusion. We believe that the value of the ideas is on the needs that they solve, and we contribute to make them happen.

CLIENT: **MERCEDES RODRÍGUEZ PAREDES** LOAN OFFICER: **LILIANA TREJO MANZANILLA** BUSINESS: **RESTAURANT** LENGTH OF SERVICE: **18 YEARS** PRODUCT: **CRÉDITO INDIVIDUAL** 

Her story is example of persistence and eagerness to move forward. She started the business 40 years ago, with a cardboard open shed, overtime she has been able build her shop.

Focused on the sale of ceviches, fish, broths and seafood cocktails, she delivers to her clients the commitment of good work and home quality cooking prepared with time and dedication.

The success of the business allows her to employ 4 people which increases to 10 in high season and becomes a small family committed with their clients.

Through our operations, we want to create social value that we extend to our providers from a dual perspective. On one hand we aim to contribute to their economic activity and be a source of opportunities, on the other we want to collaborate with the development of our clients. In addition, we seek to contribute to the communities where we operate as responsible corporate citizens, adding to our business activity the implementation of social initiatives that improve their conditions, particularly in the education area, with the guidance provided by Fundación Gentera.

## Leaders in Financial Inclusion (102-7)

Working for financial inclusion is our purpose, our reason to be; we work to strengthen year after year the number of possibilities available to our clients and the number of beneficiaries that can materialize their personal and professional projects.

#### Social Value Creation- Indicators Summary

|  | 2014      | 2015      | 2016      | Change<br>2016-2015 |
|--|-----------|-----------|-----------|---------------------|
| Amount disbursed in the financial transaction (in million pesos) | 83,204    | 96,279    | 110,543   | 14.8%               |
| Number of disbursements  | 8,321,000 | 8,750,615 | 9,211,911 | 5.3%                |

#### Loans

The delivery of loans to finance the personal and professional projects of our customers constitutes one of the fundamental pillars of financial inclusion, along with saving products and the creation of a prevention culture.

Our portfolio of credit products has diversified to address the current needs of the underserved segment. When hiring a credit product our clients obtain a free life insurance, as well as preferential conditions in the remaining insurance products we offer, in order to contribute to a prevention culture.

#### Loans

|   | 0.1%  | Fishing     |

#### Savings

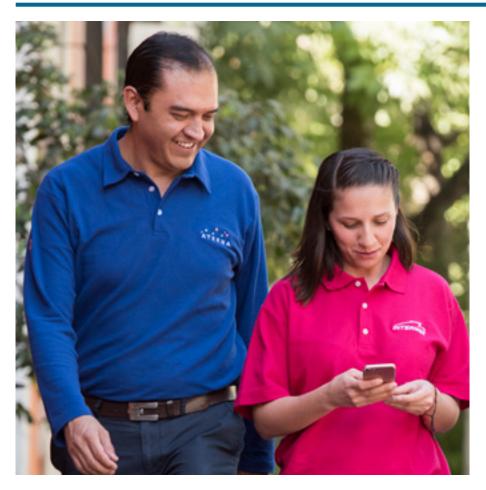

This year Compartamos Banco expanded its integrated ecosystem of loan payments and saving transactions launched in Puebla in 2015. This applies to the group of channels through which our solutions are distributed and operated, including the processes of the Yastás correspondent banking network and the Intermex correspondents.

By the end of 2016, these products were already available in the 135 banking locations of Compartamos Banco in Mexico.

Given the expansion of our savings offer, an increase of 154.7% in the number of saving accounts in respect to 2015 took place.

## Aterna (102-7, FS6, FS7)

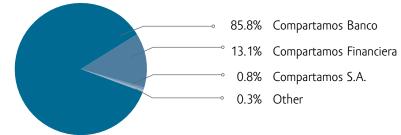

Aterna is the specialized insurance agent of the Group that offers different coverage to the underserved segment.

Aterna has a prominent role in promoting and strengthening the prevention culture, limited in the population segments we serve. It also delivers a timely and appropriate response to the clients when the execution of the policy is required.

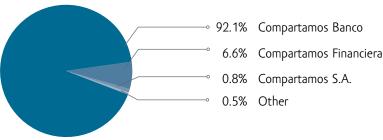

#### **Aterna -Operative Results**

|   | 2014       | 2015       | 2016       |
|---|------------|------------|------------|
| N° of distribution channels                       | 8          | 8          | 7          |
| N° of claims served                               | 7,581      | 9,210      | 13,779     |
| Total brokered premiums (million pesos)           | 495        | 626        | 816        |
| Insured sum paid to beneficiaries (million pesos) | 112        | 141        | 182        |
| Number of policies sold                           | 12,784,953 | 14,899,610 | 17,156,769 |
| Number of active policies                         | 3,883,814  | 4,417,423  | 5,519,220  |

#### Percentage of claims serviced per channel (2016)

#### Percentage of the insured sum paid to beneficiaries per channel (2016)

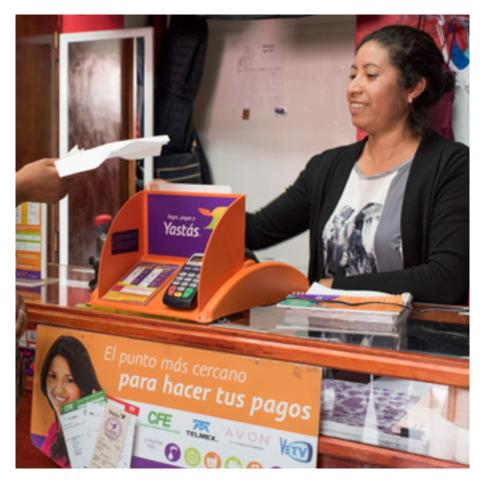

- The progression of voluntary insurance is growing, which additionally implies an increase in the main associated variables.
- In 2016 the number of service claims increased 49.6% in respect to the previous year, which meant a challenge for operational logistics and efficiency of processes, while ensuring the proximity with the client that characterize all the companies of Gentera.
- This is reflected in an increase of 29.1% of the insured sum paid to policy beneficiaries.
- After consolidation in Mexico, in 2016 the growth of Aterna in Peru stood out, particularly the life insurance product.

menu

## Yastás (102-7, 102-10, FS6, FS7, FS13, FS14)

#### Yastás - Operational Results

|  | 2014  | 2015  | 2016  |
|--|-------|-------|-------|
| Number of active correspondents  | 2,745 | 2,613 | 2,860 |
| Active brokers enabled to make financial transactions of Compartamos Banco | 2,000 | 2,222 | 2,719 |
| Active brokers enabled to make savings transactions                        | 0     | 405   | 1,452 |
| Number of municipalities covered   | 492   | 635   | 903   |
| Number of total transactions (millions)                                    | 12.7  | 13.7  | 13.2  |
| Number of financial transactions carried out (million)                     | 0.26  | 2.1   | 5.7   |

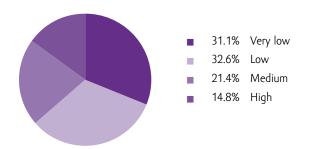

Yastas is key for Gentera's objective of contributing to financial inclusion, given its presence in the last-mile to ease the access to financial transactions and payment of services in a convenient way, through its correspondent banking network, shaped by owners of small shops (convenience, stationary, hardware shops among others), who seek to deliver an added value to their clients.

Through the Yastás points it is possible to make payments for utilities or services. By the end of 2016, there were 23 issuers (basic utilities, Cable or Satellite TV, among others), as well as the purchase of minutes for prepaid cellphones and financial transactions of Compartamos Banco and Bansefi.

- The Yastás network extends throughout Mexico, having increased a 9.5% the number of correspondents in 2016 compared to the previous year, and a 42.2% the number of municipalities in which they have presence.
- Yastás approach as a channel for clients of Compartamos Banco in the last-mile, is gaining strength with an increase of 171.4% in the number of financial transactions carried out in respect to 2015. The 95% of the correspondents are enabled to carry out this type of transactions.
- Yastás reached the second place in credit drawdowns for Compartamos Banco.

Yastás has 14.9% of its correspondent banking network in municipalities with a high or very high degree of marginalization, where its contribution to financial inclusion is highlighted.<sup>8</sup>

#### Presence of correspondents in municipalities according to the degree of marginalization

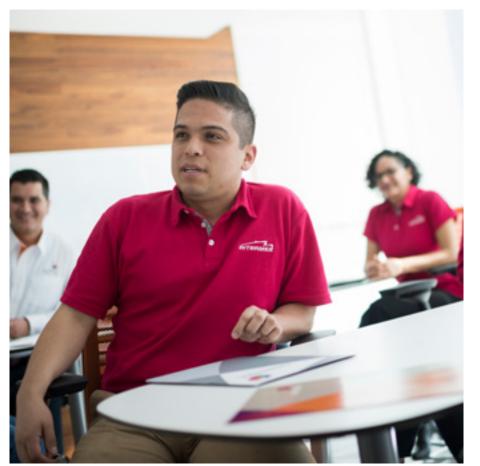

## GENTERA

## **Intermex** (102-7, FS6, FS7, FS13, FS14, 203-1)

Intermex provides remittances payment services through Compartamos Banco branches and through a network of correspondents. Intermex seeks to provide service to our clients adding value from the synergy of products and services offered by the companies of Gentera.

Remittances constitute a key source of finance for many households in Mexico, particularly in rural areas. In 2016, 55% of households that received remittances were located in municipalities with a medium and high degree of marginalization.

- Intermex operational results show an increase of 11.4% in the number of remittances, which show a growth of 32.0% in the amount sent in domestic currency against the decline in the use of dollars.
- The service continues broadening its client base, with an increase of 9.5% in respect of 2015. This is supported by the increase in the number of branches of Compartamos Banco and the Yastás points of payment, as well as the standards of excellence in the service provision found in Gentera companies.
- In addition to Compartamos Banco branches, the group of correspondents increased a 52.1% in respect to 2015, including Yastás points offering the service.

## Fiinlab (102-10, 203-1)

Launched in August 2016, it is the innovation laboratory of Gentera. Its purpose is to foster entrepreneurship and innovation by creating solutions for financial inclusion, through sustainable models enabled by disruptive technology.

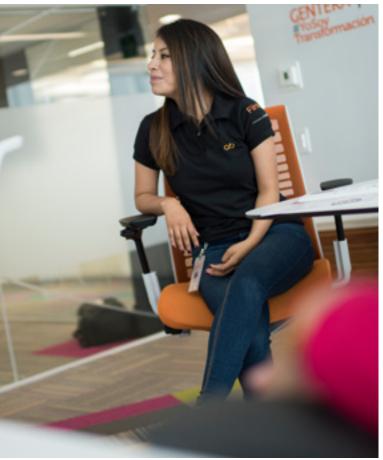

#### Intermex - Operational Results

|   | 2015      | 2016     |
|---|-----------|----------|
| Number of cash remittances (million)          | 3.95      | 4.4      |
| Remittances paid in millions of Mexican pesos | 3.87      | 4.3      |
| Remittances paid in USD                       | 0.08      | 0.1      |
| Remittances amount <sup>9</sup> (million)     |           |          |
| Amount paid in Mexican pesos                  | 16,194.10 | 21,372.2 |
| Amount paid in USD (million)                  | 20.8      | 17.7     |
| Number of users or clients7                   | 576,114   | 630,762  |
| Number of states of Mexico with branches      | 13        | 13       |

As a promoter of innovation, during the first months Fiinlab's efforts were focused on defining the vision and innovation strategy for Gentera, followed by designing their work methodology as a company of the Group. In this implementation stage, the goal of at least five relevant financial solutions by the end of 2016 was set. As a result, eight internal development projects by team members emerged. In addition, Fiinlab started to establish alliances with start-ups of the entrepreneurial ecosystem.

coordination of working groups.

Fiinlab was mentioned as one of the most important spaces for fintech acceleration in the Mexican ecosystem (Global Fintech Hub Federation, 2016).

## Financial Education (FSI, FSI6)

#### Clients

In addition to the information we provide to our clients with the product hired, we develop specific financial education initiatives.

Speaking of Compartamos, as part of the credit methodology, loan officers are required to explain to the client the product characteristics such as payment frequency and interest rates, information that is also included in the contract.

In Compartamos Banco we have a financial education program called "Effective Ideas" which includes talks and materials targeted to improve the management of our clients businesses, their household budget and the responsible use of financial products and services. Through this program we aim to contribute to the creation of a prevention culture and to avoid over indebtedness. This program is taught in the two first cycles of both loans group and individual.

#### Financial Education Program for Clients- "Effective Ideas"

| Clients             | Topics   |
|---------------------|--|
| Crédito Mujer       | Budget and petty cash expense credit and prevention culture. |
| Crédito Comerciante | Budget and petty cash expense prevention culture.            |
| Crédito Individual  | Payment capacity, credit history                             |
|                     |  |

At Gentera we see financial education as an attribute of our financial solutions. For that reason, we have developed and therefore supported different programs for our clients, employees and communities where we have presence.

ses, savings goal, formal savings, responsible use of

es, responsible use of credit, credit bureau and

y, cash management, insurance.

As for insurance, in addition to the marketing material given to the loan officers of Compartamos Banco in charge of the commercialization of products, there were distributed close to 10,000 brochures aiming to better inform clients about the advantages of the prevention culture.

At Compartamos Banco we seek to expand financial education in 2016 beyond our promoters activities, through the implementation of a digital strategy. To that effect, we launched the series "Pocket Stories", comprised of 10 animated learning clips placed on Compartamos Banco website which recount the experience of an entrepreneur family with more than 59,600 views.

Furthermore, a proactive dissemination of financial education material was carried out in the offices of Compartamos Banco through videos about the importance of savings and the use of electronic means of payment, as well as sending text messages to clients. Moreover, through our social media profiles, we share financial education advice.

Additionally, at Compartamos Financiera, we developed 8 workshops, providing training to more than 1,600 clients on the use of SMEs Credit.

With all this, we have strengthened the complementarity between financial education and the information we provide to clients about our products.

Our efforts of creating social value through education and knowledge development extend beyond the scope of finance. In addition to the performance of Fundación Gentera which focuses on the community, during the past three years we added the Incluso Program, targeted to the children of ourclients. Through the development of a digital educational program for vocational orientation and based on mobile devices we seek to contribute to strengthen the social and emotional competencies required for their future. This experience through an app was disseminated in 50 service offices of Compartamos Banco and taken also to schools which allowed us to plant the seed about new educational methods as well as gaining significant knowledge as a company in regards to the use of technology to get closer to our clients and their families. After sometime the program ended in 2016, and we now focus our efforts in other initiatives to continue contributing to value creation.

#### Employees (404-2, FS4)

Our teams represent the pillar for client proximity. For that reason they have been trained on the characteristics of our portfolio. In the previous year it stands out the training in insurance due to the emphasis that we have put in its distribution. We also seek to deliver our employees the tools for managing their economy contributing to the balance and development of their households and projects.

The training provided combines classroom and on-line training throughout the different stages of development of each employee. Within the introduction we provide the course Healthy Finances in which 3,400 new employees of Support Services, Compartamos Banco, Yastás and Intermex, were certified.

In addition, we offer training during their professional development in Gentera. This year we implemented the course Debt Healer in which 94% of employees of Compartamos Banco, Yastás and Intermex were certified. We also carried out a retirement savings workshop and an on-line certification on financial culture.

#### Community (102-12, 203-2)

To have empowered partners in relation to finance and to trigger a savings culture, responsible management of credit and prevention are some of the objectives we have been working in Gentera and our companies.

In 2016, we developed the Children's Savings Day, with activities in 882 schools in 15 cities of Mexico, reaching out 65,000 students. In addition, we participated in the National Week of Financial Education organized by the National Commission for the Protection and Advocacy of Financial Services Users (CONDUSEF), which reached the ninth edition. Furthermore, we continued with the pilot activities launched the previous year in the framework of Compartamos with the Community Days, extending their scope and adding initiatives such as the Financial Lottery.

Through Fundación Gentera and the agreements it has with different organizations, we broaden the group of initiatives and their scope.

#### Partnerships

meni

We trained 3,400 new employees in financial literacy.

**TEACHERS AND PARENTS** 

## **Client protection**

At Gentera we want to contribute to the economic and social development of our clients with an approach that extends beyond the delivery of products and services. For that reason, we seek to deliver clear and relevant information on the characteristics of our products, to empower clients in the decision making process and to contribute to a culture of prevention not only through insurance but also through training on practices to avoid over indebtedness. Our financial education initiatives constitute a very clear example of this.

Every day we work to strengthen the trust of our clients, with transparency in the products and services, advice and also ensuring the protection of their personal data.

#### Information about the products and services (416-1, 417-1, FS1, FS2, FS4, FS15)

Our products are designed considering the needs of the underserved segment, with the aim to deliver relevant solutions, as well as the appropriate information for the decision making. For this, we have included in the financial solutions manual for our loan officers. It references on what to communicate, which we reinforce with training on the characteristics of the portfolio they manage.

At Compartamos Banco, the efforts are targeted towards the creation of innovative, simple, clients and to support the preservation of their quality of life. We achieve this through:

| Analysis of the<br>needs of our<br>clients |  | Development<br>of the<br>product  | >  | Research and<br>development  | > | Marketing and<br>promotion  |
|--|--|---|----|--|---|---|
| Identification of<br>clients segmentation  | por<br>diff<br>acc<br>and<br>in<br>cha | sessment of the<br>tential impacts on<br>ferent levels: client<br>eptance, financial<br>d profitability analysi<br>order to define the<br>aracteristics of the n<br>oduct or re-engineer<br>be made | ew | Based on the results<br>of the market and<br>competition research<br>In this phase it ends<br>design stage | I | Once the client<br>profile is identified,<br>the development of<br>advertisement strategies<br>is carried out |

When acquiring a group product we deliver to our clients the following:

- Agreement with the purpose of the acquired product
- Table of amortization with the group total payment per every collectability
- List of members with their respective loan amount
- Control of payments and savings where the paid amount, saved amount and credit and savings balance is recorded per collectability and per group member
- Payment book with comprehensive information on financial services, as well as advice on security and financial education

Gentera's guidelines to protect the client's interests are particularly present in Compartamos, which commercialize their products and the products of Aterna and Intermex. Client protection continues throughout the different stages of the product and experience which include marketing, commercialization and client service during the validity of the financial solution.

In addition, is important to highlight that we take into account the reality of the environment in which we operate, in order to facilitate the reception and understanding of the product information by our clients. In this respect, Yastás has developed manuals in nahuatl and totonaca -indigenous languages-, with information of the payment methods available in their units, distributed in partnership with agents of the rural areas with indigenous population.

#### Personal data protection (418-1)

At Gentera we work according to the highest data protection standards, reciprocating the trust given by our clients, our stringent operation excellence quidelines and the quality principles, consent, purpose, information, loyalty, legality, reciprocity and responsibility, including our Data Privacy Policy Manual.

In addition to complying with the Federal Law of Personal Data Protection in Possession of Private Entities (LFDPPP)11, we have adopted a system of self-regulation with our own requirements regarding behavior, standards and additional obligations to the ones required by Law, against which Compartamos Banco and Compartamos Servicios were already certified by an external specialist accredited for this purpose.

Compartamos Banco is the first financial entity and the ninth company in Mexico that obtained the certification "Self-regulation on Personal Data Protection", after other companies in the information technology sector.

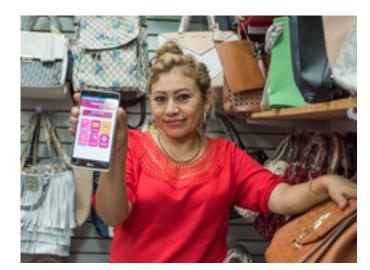

Moreover, we are available to our clients in regards to all enquires and claims they want to submit. Through the Data Privacy Management Office, we handle ARCO's rights requirements which are Access, Rectification, Cancelation and Opposition, having answered 334 requests in 2016.

## Innovation (102-43, 203-1)

Innovation is one of the strategic pillars set for Gentera to move forward in our path to financial inclusion of the underserved segment. We understand it as the performance in the threefold strand of products & services, process and channels, always focused on the client and the bond trust established.

In 2016 in Compartamos Banco expanded the ecosystem of credit payments and saving transactions, in an effort that will continue during 2017 until we reach the number of banking locations that will allow us to consolidate a comprehensive network of client service.

Progress is also extended to Yastás, which continues to increase the variety of transactions that can be carried out through its infrastructure, with this year's progressive incorporation of the remittances services developed by Intermex. Another focus in our work is to enhance the synergies between products and services of the different companies of Gentera, in order to deliver the highest added value to our clients.

In addition, we want to obtain the best technology for our operations. For that reason in Compartamos Banco we invested in three platforms to provide electronic services to our credit and savings clients. We implemented an ATM pilot program with two units in Puebla to assess the benefit they deliver to clients.

The electronic and mobile banking deliver numerous benefits to our clients and that is why we are strengthening them through our own innovation and that of third parties. On the one hand mobile banking is convenient for the user that avoids transportation and finds it available 24-hour. This promptness facilitates the management of the client finances, encouraging saving decisions. But that infrastructure would not be possible without our network of banking locations and Yastás points that handle the diversity of users and circumstances, bringing balance between proximity and technology.

On the other hand, during 2016 the main milestone for innovation in Gentera was the launch of Fiinlab, our laboratory to trigger and strengthen entrepreneurship and innovation in the company and in an ecosystem of collaborative partnerships, always with the purpose of financial inclusion.

## Development of value chain (102-9, 102-10, 203-1, 203-2)

At Gentera we bet on excellence in operations as well as in products and services, an effort of which value chain is part of. Our allies join the contribution made by the suppliers to bring our products and services to the clients, playing together a part in financial inclusion.

Our chain is increasingly robust and diverse, reflecting the social value that we seek to create with our operations. In 2016 in Mexico we had 1,223 providers that had operations with the Acquisitions Department, an 89% more than the previous year. We aim to support talent in our environment, entrepreneurship and the business sector, and 99% of our providers are local.

In the case of Yastás, the service model includes the participation of correspondents, whom make available to the public the transaction terminals in their shops, which in turn, deliver an added value to their business. In 2016, the correspondents (middlemen) network reached 2,860, with presence in 903 municipalities in Mexico<sup>10</sup>. For its part, Intermex adds in total 1,807 of correspondents to the commercialization of its service in the branches of Compartamos Banco.

We seek that our providers are aligned to the philosophy of Gentera. To achieve that, we have a specific Code of Ethics and Conduct, that they commit to comply with and we carry out assessments in that regard, as well as

in relation to the job performance, transparency and other topics linked to sustainability.

We promote a trusting relationship, making an effort to developing it, to achieve a shared growth. This is particularly evident with our Yastás network of correspondents, in our win-win model. Through their small businesses we provide last mile services and facilitate the transactions for our clients, in many cases also theirs, while the correspondents get an added value for their business and the availability of a wider audience.

In 2016 we invested 10.6 in Yastás infrastructure, of which 93% was allocated to transaction points and its associated systems. The network increased in 247 new agents and the group received 52 million pesos for service commissions.

Yastás seeks to empower its correspondents in business management, having carried out 7 workshops of business development throughout four states of Mexico, with 459 attendees.

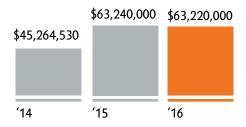

## Commitment with the communities (201-1)

We understand social value creation as an extensive commitment to the communities we operate in, where we provide services, supporting the families and neighbors of our clients and employees.

In Gentera we allocate 2% of the annual net profits to the Social Corporate Responsibility Fund, of which one part is allocated to Fundación Gentera and the remaining to social responsibility initiatives developed by the different companies. Is the Foundation who defines the strategic lines for the development of programs and activities with focus on education both formal education as well as financial education and entrepreneurship culture. In addition, there are other lines of action: the promotion of volunteering, the donation culture and the assistance in contingencies.

#### Corporate Social Responsibility Fund

## Fundación Gentera (201-1)

Is the organization that sets the strategy and coordinates the efforts of Gentera and all its companies in regards to social responsibility -associated to the effects of the provision of financial services- and social investment; the later as a contribution to the development of communities through donations, partnerships and other mechanisms.

Its main focus is education which is viewed as the seed and foundation of social inclusion.

LINES OF ACTION

- Education: formal, financial and entrepreneurship culture
- Volunteering culture
- Donation culture
- Contingencies

The lines of action set by the Foundation are implemented through programs and initiatives developed by their own team, by the social responsibility departments of the different companies or together with the participation of external specialists and organizations, through partnerships.

We aim to propose initiatives that create value, helping with the needs of the environment by designing and implementing them very closely to the communities. This is the case of Compartamos Financiera y Compartamos S.A. which have the strategic support of Fundación Gentera, while all the social responsibility and social investment activities are carried out by their own teams.

The Foundation sets their own budget based on the contribution of Genetera's Corporate Social Responsibility Fund and the donations of employees and other organizations.

#### Economic value allocated

|   | 2014         | 2015         | 2016         |

#### Education

The development of abilities in the community, contributes to the creation of knowledge which triggers social transformations as well as financial inclusion with its associated impacts.

Fundación Gentera works in three lines within education: formal education, financial education and entrepreneurship, through partnerships and donations.

100.00 PEOPLE BENEFITED IN REGAR TO EDUCATION, THROUGH PARTNERSHIPS AND DONATIONS.

#### More than Alianzas y donaciones 2016 - Educación

| Line of Action               | Initiatives   | Beneficiaries  |

| Formal Education             | <ul> <li>Education</li> <li>Basic education</li> <li>Programs to reinforce formal schooling</li> <li>Comprehensive living expenses</li> </ul> | 13,111clients and community<br>1,201 children benefited with<br>school equipment |
| Financial Education          | Financial Education   | 35,900   |
| Training to<br>entrepreneurs | Entrepreneurship courses  | 54,330   |

#### **Donation culture**

At Gentera we were born with a vocation of service, of helping others, and we expect it to be part of all the members of the team. The donation culture is part of this and we work to embed it in our companies.

Every year, we launch the Education call, were we invite employees to contribute to civil society organizations working in the promotion of children, youth and adult education. Fundación Gentera contributes with the same amount donated by the employees, who also can nominate civil society organizations as beneficiaries.

As novelty, Fundación Gentera has launched a program in which the employees that participated in the call would be able to know firsthand the impact of their contributions and meet the beneficiaries.

#### Volunteering

It represents a central pillar of the initiatives within our companies, which reflects our values and allows us to contribute to improving the conditions of our surroundings in a shared effort that strengthens our ties as a team. 8 of every 10 employees have taken part in at least one activity.

#### Volunteering 2016

2016 volunteering activities. ntermex did not take place.

Among the volunteering initiatives developed in Gentera the following stand out:

- Holidays of solidarity, where the employees allocate five of their leave days to build houses in vulnerable communities
- Direction in action and volunteering in the service officess, in which the corporate and branch teams propose causes to participate, allocating work hours and receiving economic support from the Foundation for the development of activities.
- Being an entrepreneur, in which employees raise awareness of entrepreneurial culture and provide training on the development of business plans.

We also carry out the Compartamos (Lets Share) with the Community Days, in which our companies Compartamos Banco, Compartamos Financera and Compartamos S.A. participate given that their operation is carried out with more proximity with the community. Through these days which include volunteering of our employees and the participation of civil society organizations, we work in restoring social spaces, delivering preventive health services and offering cultural events. This year we have also incorporated financial education activities although specific programs in this issue continue to exist in Gentera.

Also in Compartamos, we had set the goal that all the service offices would carry out at least one volunteering activity, and we are proud to say that we have fulfilled it 100%.

#### Contingencies

Our program is ready for activation when a whether contingency occurs, which has to be designated as emergency by the Continuity Commission, led by the Business Continuity Department with the involvement of representatives of other teams and companies of Gentera. Once the program is launched, Fundación Gentera proceeds with the delivery of food provisions packages and/or water filters.

Also, we launched the program "Resilience Brigades", in collaboration with the Committee of Assistance in National Disasters and Emergencies (CADENA A.C. as per its acronym in Spanish), which is designated to train vulnerable communities in risk prevention and assistance in emergencies, as well as to create community brigades for civil protection, which has benefited more than 3,000 people throughout the year.

#### Partnerships (102-12)

In Fundación Gentera as well as in the rest of the Group, we believe in collaboration as a driving platform for social **development**, with focus on education as the trigger of opportunities. We create partnerships with different civil society organizations, in order to support their projects with economic and technical resources so they implement the initiatives in different areas where they operate throughout Mexico, Peru and Guatemala

GENTERA

In 2016 we delivered 2.124 food packages to communities affected by the adverse whether events in Puebla and Guerrero (Mexico).

#### **TOPICS:**

- Education
- Children support
- Women's development
- Entrepreneurship Community empowerment

# Human Value

# At Gentera we continue offering employment and professional development opportunities,

in a difficult environment for the region and the financial sector, as part of a committed team that performs according to a deep corporate culture.

## Team description (102-8, 102-36, 102-37, 102-41, 201-3, 401-1, 401-2, 405-1)

As evidence of this, in 2016, we reached 21,185 employees with growth of 51.3% in our workforce in Guatemala and 31.7% in Peru. These are the markets of most recent incursion and have a smaller workforce in comparison with 81.4% growth of the team in Mexico.

We believe in the richness brought by **gender diversity** in the teams and we facilitate work-life balance. For this, we extend the maternity leave by three additional weeks of the legal requirement or the option of reduced hours during six months, as well as the incorporation to a flexible work team during a year. For fathers, the benefit is of an additional week of the legal requirement or reduced hours during 20 days. These measures, in addition to the inclusive environment that characterizes Gentera, allowed a 49.4% of women presence by the end of the year. The progressive increase in their participation led us to surpassed in 2016 50% of administrative and sales employees.

As part of our commitment to provide better environments and work opportunities, we consider labor stability as key and we support it through the permanent contracting. We contribute to employment creation in our supply chain with the direct participation in our operations of 465 employees of external companies.

At Gentera we have the EDGE certification which recognizes labor equality and delivers The Gender Equality Project (Switzerland). We are also certified according to the Mexican Standard of Labor Equality and Non-discrimination (NMX-R-SCFI 2015).

#### Labor Demographics

At Gentera we guarantee freedom of association having unionized employees in Mexico, who represent 61.4% of our workforce in the country. This also contributes to our efforts of listening and encouraging participation.

Building environments with career and personal development opportunities, as well as the opportunity of a performance with social significance, contribute to the commitment of our employees. In Mexico, our rotation in 2016 was of 31.5% and for the sales force it reached 37.1%. Due to the dynamics of commercial activity, the sales team is one of the teams most exposed, but despite this we have an average of 3 years of tenure.

We set remunerations considering market references and the characteristics of every post. To the fix compensation we add a variable component linked to annual performance results

for corporate and operational support positions, and according to an incentive plan for selling positions, which is monitored on a monthly basis.

regard.

GENTERA

2015 2016 2016 (%) 17,272 17,253 81.4 2,379 3,133 14.8 528 799 3.8 20,179 21.185 100

In addition to the maternity and paternity benefits, we aim to go beyond the law requirements in terms of the Christmas bonus and the number of days of leave, according to the position and internal policies in that

Depending of the company and country we offer life and health insurance in addition to other bonus and benefits. All of this is available for our employees after 6 months of service. For our operations in

Mexico, we have a pension plan aimed at ensuring the availability of income when retiring. The employee contributes with between 1 and 6% of their monthly salary, depending of their length of service in the company and their age, Gentera equals that amount. In 2016, Gentera delivered an average of 42,244.8 pesos per participant, up to a total of 18,842,968.6 million of pesos. In the case of our people in Peru and Guatemala, their social prevention systems have a higher coverage and we seek to balance this situation in Mexico.

## Training and career development (404-1, 404-2, 404-3)

Throughout the year we deliver an average of 88.4 hours of training per employee<sup>13</sup>

At Gentera we believe in people's potential and the transformative power of commitment with a purpose and as a team. We offer our employees individual plans of development, with training as a key component. If we contextualize the figures for Mexico, we provided 1,045,096 training hours throughout the year<sup>12</sup> with growth of 11.1% in respect of the previous year and an investment of 91.6 million pesos. It is particularly knowledge transfer generated within Gentera, which represents one of the most important assets.

Internal training hours per professional category<sup>14</sup>

| Professional category                          | 2016    |
|--|---------|

| Accounts opener                                | 718     |
| Leader+Employees                               | 29,668  |
| Other  | 77,156  |
| TOTAL  | 675,621 |

Employees that interact directly with the client, are trained in features of the products so they can deliver appropriate advice. In addition, we train all our staff in regards to the Ethics Code and Gentera's Philosophy.

It is worth mentioning the Personal Development Program, which focuses on the comprehensive development of our employees that addresses abilities, knowledge, behavior and attitude in the personal, family and social realms, as well as the Serviazgo Program and the team meetings<sup>15</sup>.

We also have a Career acceleration program that contribute with the financing of third level studies for our employees, among them high school students for

whom Gentera becomes an ally in their professional development. In 2016 we delivered 594 scholarships within the framework of this program, besides other supports we offer in Gentera<sup>16</sup>.

When our employees are in a severance process, we offer them an outplacement program, that includes emotional support, advice for management of economic resources and training in basic capacities for the returning to the labor market In this way we aim to be a bridge towards a new employment opportunity.

Moreover, training accompanied with efficiency and productivity in operations, is critical for **development** within Gentera. Annually, we carry out a **performance assessment**, through an exercise that is increasing the scope of positions subject to it. This assessment is developed in four stages throughout the year and it is characterized by communication and trust between employee and leader.

As novelty in 2016, the implementation of the process through the technology platform "DNA" in Mexico and Guatemala, stands out. The Success Factors system, developed for the connectivity within this great team, has been a success in managing the performance of employees and we expect to expand it to Peru in 2017, beyond the pilot currently in development.

#### Performance Assessment

| Professional category  | N     | ° assessed employees |
|------------------------|-------|----------------------|
|                        | 2015  | 2016                 |
| President              | 2     | 2                    |
| Executive Director/CEO | 12    | 12                   |
| Director               | 41    | 38                   |
| Deputy Director        | 112   | 128                  |
| Manager                | 410   | 438                  |
| Employees              | 1,588 | 3,618                |
| TOTAL                  | 2,165 | 4,236                |

From the results obtained in the performance assessment, along with experience and competencies, when covering positions we favor internal talent, with a more exhaustive assessment at more senior levels.

In addition, in 2016 we launched the exercise of Talent Detection for those employees that want to upgrade to manager or higher positions. It is a process comprised by the following five phases:

<sup>13</sup> It considers the operational (internal) and external training.

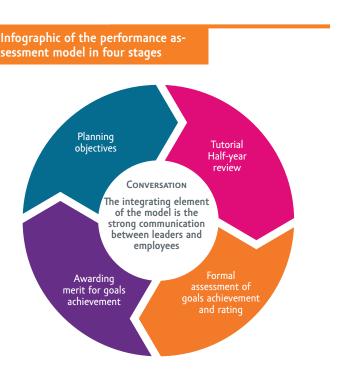

<sup>14</sup> It considers the operational training (internal)

<sup>15</sup> The Serviazgo Program and the team meetings are described respectively in the sub-chapters of "Philosophy and Serviazgo and "Labor environment".

<sup>16</sup> Scholarships for programs: Career acceleration, development programs, technical, English academy and in house training.

**1.** Self-assessment in core competencies **2.** Assessment from immediate superior in such competencies and issuance of rating 3. Rating confirmation by third party employees delivered (calibration)

4. Succession tables, where the position/potential destination and the time horizons are identified 5. Development Plan design, which includes identified gaps in competencies.

<sup>&</sup>lt;sup>12</sup> It considers operational as well as Philosophy and Serviazgo

training of Compartamos Servicios, Compartamos Banco, Aterna and Yastás.

## Work environment (102-43)

Given the results achieved in 2016, we are proud to continue as one of the best companies to work for Mexico and Latin America, according to diverse rankings produced by Great Place to Work Institute.

Under an approach of continuous improvement we work in the promotion and practice of an organizational culture within Gentera. Annually we measure progress through the survey Great Place to Work (GPTW) which we enhanced with additional questions to the standard structure, given the importance we give it as a tool.

In accordance to the results in 2016, we are proud to continue to be one of the best companies to work for in Mexico and Latin America, according to diverse rankings produced by the Great Place to Work Institute.

**Gentera** obtained the 1° position of Great Place to Work Institute in Mexico, in the category of "The Best Company to Work for" with more than 5,000 employees, with a special recognition in the fairness category.

**Gentera** was recognized for the third consecutive year by Great Place to Work Institute Mexico as the "Best Company to Work for in Mexico" within the Banking, Insurance and Finance sectors in the category of more than 1,000 employees.

Gentera obtained the 3rd place of the Great Place to Work Institute Mexico, in the category of the "Best Companies to Work for in Mexico: Gender equality" with more than 1,000 employees.

**Compartamos S.A.** Obtained the 8° place of the Great Place to Work Institute in the category "the Best Companies to Work for in Guatemala".

**Compartamos S.A.** Obtained the 5° place of the Great Place to Work Institute in the category "the Best Companies to Work for in the Caribbean and Central America", from 100 to 1,000 employees. Throughout the year, with technology as an ally, we finished implementing a management software for greater efficiency in processes and connectivity among the teams in a Group who is growing every day. Now, all employees can be connected through a mobile application that will strengthen the promotion of the culture that characterizes Gentera and its companies and after its implementation in Mexico it will be extended to Peru and Guatemala.

We understand that the following steps shall combine technology with the human factor, linking remote connectivity with in-person team leaders meetings that we carry out annually, as well as for the employees of Support Services, Yastás, Aterna and Intermex. In Compartamos Banco, we carry out regional meetings with the sales teams.

## Philosophy and Serviazgo® (102-43)

Our philosophy, which is a great differentiator that brings together our way of thinking and acting, with the final purpose of financial inclusion, is based on the practice of our institutional values. This constitutes our Philosophy, which we aim to reinforce in every employee with the Model FISEP based on the being integrality with its physical, intellectual, social & family, spiritual and professional dimensions. We take into account these strands of a person in their development within Gentera.

Values: Person, Service, Responsibility, Passion, Profitability and Teamwork.

We understand leadership in terms of commitment to service, of being available to those who contribute daily to the creation of shared value of Gentera and its companies, and we call it "Serviazgo". Throughout our teams we develop annually a training program in Serviazgo for those professionals with teams in their charge.

To measure the practice of our values every year we carry out the Philosophy survey, which was incorporated in 2016 to the framework of the GPTW environment. With the participation of 17,460 employees, we obtained 88% of practice of Philosophy, a proportion very similar to the previous year.

# **Economic Value**

## Relevant Financial Data (204-1)

At Gentera we **create value** hand in hand with stakeholders, for them and with their participation, with the objective of financial inclusion. Our operation generates a positive impact through the delivery of financing opportunities, the contribution to the socioeconomic development of the communities and employment creation, among other aspects. We aim that this contribution grows in time, with an **economic management that underpins our permanence, through efficiency and profitability.** 

In the framework of our transformation strategy, we are shaping the company we want to be in the future, based on our track record and objectives.

We believe in **long-term shared value creation**, through our portfolio of companies and solutions, immersed in innovation.

Under a proactive risk management, we bring together financial health prevention and social value creation, protecting the interests of our shareholders and financiers which include commercial, development and debt market banking. Is worth to highlight that we do not receive support or financing by governments.

We work according to our annual business plan, implementing the set budget and monitoring its management. In this regard, we have worked to maximize our experience in group and individual loans, promoting insurance and saving options and empowering innovation as a differential of Gentera. Under a continuous improvement approach, we continue to implement initiatives for the operational efficiency both of business processes and support processes, strengthening the team's capacities.

The trust of our clients and the performance of our employees delivered, in 2016 a credit portfolio of **33,508 million pesos**, which represents an increase of 17.6% in respect to the previous year.

Despite the macroeconomic context that could affect the payment capacity of our clients, our management of the credit portfolio's asset quality helped to maintain the **delinguency rate at 4.22%**.

The financial management of our asset portfolio results in a **ROA of 8.6%** and the management of our equity in a **ROE of 22.8%**.

Gentera's stability is reflected in the net annual profit of 3,410 million pesos which equates to 2.08 per share.

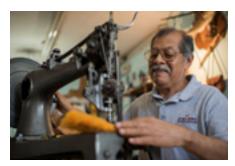

CLIENT: GERMÁN ESCOBEDO LOERA LOAN OFFICER: ALEJANDRO ANTONIO SERRATO RAMÍREZ BUSINESS: SADDLERY (MANUFACTURE AND SALE OF SADDLES) LENGTH OF SERVICE: 10 YEARS PRODUCT: CRÉDITO INDIVIDUAL

In charge of a business of manufacture and sale of saddles in Monterrey, Nuevo León. It is a clear example of how talent and quality along with determination open borders. Currently they export their products to Canada, United States, Spain and Italy.

He has transmitted to his son his passion for working the leather, shaping valued products that have the seal of the family, a legacy forged with dedication and commitment.

The loan allows him to invest in raw materials and to continue advancing in his business, looking after every detail of the product.

## Economic Value Distribution (102-5, 201-1, 201-4)

We generate economic value under the premise of efficiency and profitability, which is combined with human value and constitutes the strength of our team and the resulting social value of the economic development of our clients and the communities to which they belong.

# Corporate Governance

#### Structure

At Gentera we have a governance system in compliance with legal provisions, which seeks **excellence** taking into account the highest national and international standards, such as the Corporate Best practice Code of the Business Coordinator Board (CCE as per its acronym in Spanish) and the Professional Ethics Code of the Mexican Stock Market Community. The objective of the system is to ensure due diligence in the decision making process.

The 99.7% of our shares are listed in the Mexican Stock Market (BMV as per its acronym in Spanish) and our market capitalization value was 54,472.76 million pesos in 2016. As a public company, Gentera has a **Shareholders Meeting** that approves the Group's accounts and is responsible for appointing and reelecting members of the Board of Directors, proposed by the Appointments and Assessments Commission, who validates that candidates fulfill the legal and organizational requirements.

The **Board of Directors** is comprised of 13 directors of which 8 are independent. The range of age of the members is between 46 and 77 years old, and 15.4% are women.

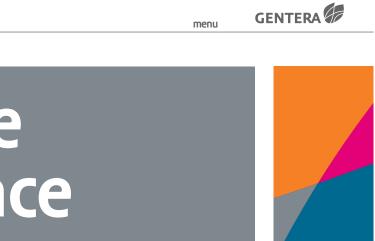

With an indefinite renewable term of office, the independent board members shall proof their experience when they are proposed, as well as demonstrating the competencies and abilities required to fulfill their duties and fiduciary responsibilities, free of conflicts of interest. Independent board members are compensated by their performance, associated board members who act as well as senior management of Gentera, are not.

The Board is chaired by Mr. Carlos Antonio Danel Cendoya who is co-founder of Gentera and has a broad knowledge of the company and the

The Board of Directors is highest government body and is comprised by 13 directors, 8 of which are independent. The Board of Directors is highest government body and is comprised by 13 directors, 8 of which are independent.

sector that extends to the rest of the members, with an average seniority of 9 years in the position. All board members fulfill their loyalty, diligence and informed judgment duties, which is reinforced by continuous training through courses and conferences on relevant topics for the company. In 2016, topics such as the political and economic environment of Mexico and the rest of the world, the fight against corruption and the impact of the USA elections were covered. These, in addition to the support of external advisers and experts.

Moreover, our **senior management team** keeps

informed the different committees and Board; and it is comprised of the company's CEO and corporate department directors of cross-cutting management areas such as culture and people management, finance and external relations, among others.

In addition to management, Gentera's companies have their own

## Ethics (102-16, 102-17, 102-25, 205-1, 205-2, 205-3, 410-1, 412-2, 415-1)

Our **Philosophy** goes beyond a corporate culture: it constitutes a **differential**. underpinned by the values shaping our **Philosophy** and on how our employees put them into practice every day. We shaped the Ethics and Conduct Code so it serves as a support tool informing on the as support tool, communicating

Employees are informed about the Ethics and Conduct Code when they join the company and they are certified on their knowledge, which is an annual requirement. In addition, we carry out other training with reinforced and broader content, which includes conduct norms such as corruption prevention, information management and non-discrimination. That is the case of the Ethical Judgement Workshop, provided to 655 employees this year. We implemented training adapted to the activities in Compartamos Banco, Aterna and Yastás, with the participation of 475 employees.

We have a training version specifically developed for suppliers, because we seek their relationship with Gentera to be based on our Philosophy, by bringing it close to them and by requesting them to sign a letter of commitment for their application. This includes our security suppliers, responsible in turn of communicating our Code to their staff.

The Code in its different versions is assessed on an annual basis if necessary subject to the approval of the Audit Committee.

So non-compliance of the Ethics and Conduct Code events can be reported, we have a set of mechanisms that include an e-mail address, mailbox in our website and a hotline. The reports are analyzed by the Honor Commission who decides the imposition of penalties and its character<sup>17</sup>. We also have a Fraud Detection and Follow-up Unit, who participates in the management of reports of this kind.

Prevention of conflicts of interest and the implementation of anti-corruption practices constitute this Code, which extends also to board members and committee members of Gentera's companies.

Monitoring compliance with the Code which is carried out by the Director of Philosophy and Serviazqo, as well as its active implementation by our employees and suppliers, allow us to emphasize the absence of corruption cases.

At Gentera, we aim to ensure the integrity of our operations thus, we do not make political monetary contributions.

## GENTERA

corporate government structure, established taking into account their legal nature and laws of the country they operate.

Stakeholders concerns are identified through our teams with different mechanisms and with a listening approach. Through management these concerns are communicated to the committees and then to the Board, in a way that the decision making can take place at each management level.

Through the promotion of high standards of conduct and professional behavior, we seek to preserve Gentera's reliability, ensuring compliance with the law, protecting clients' interests, establishing a fair and equitable work environment for our employees, and protecting the trust deposited by the ensemble of stakeholders.

> NEW EMPLOYEES Obtained the Certification on the Ethics and Conduct Code.

OF OUR EMPLOYEES

Got re-certification in the Ethics and Conduct Code.

<sup>17</sup> Except in the cases provided in the Code, for which different reporting paths are proposed in order to quarantee an objective analysis.

## Risk management (102-11, 102-15, 102-29, 102-30, 102-31, FS2)

The diligence in our activities pursuant conduct

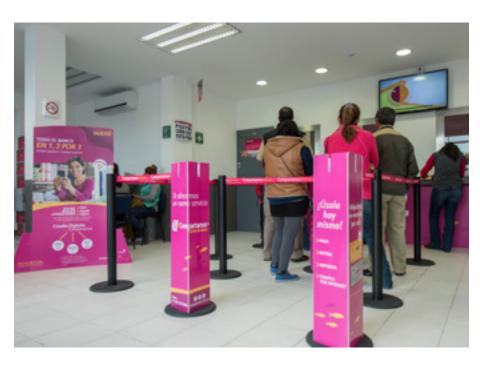

**standards that guarantee integrity,** also extends to risk management, both in risks that we can incur through our performance and in risks associated to external factors. We act proactively in their identification, creating a risk map which is updated regularly prior consultation with primary executives as well as the proposing prevention measures and monitoring their compliance, all this within an internal control procedure which feeds from the close dialogue with our stakeholders.

It is important to mention the role of the **Risks Committee**, both in the definition of internal guidelines and in monitoring their compliance, reporting on a quarterly basis to the Board of Directors, as well as through extraordinary process if required. In this way, the Board is informed and can decide in relation to the general framework and strategy it has defined which includes the exposure and tolerance levels.

We have a **Risk Directorate** at the group level, who is responsible for the design and validation on a case-by-case basis of methodologies of identification, measurement and following-up risks by company. In turn each company is responsible for their implementation and of reporting to management as well as of the comprehensive monitoring in Gentera. The type of activities we carry out both at Gentera level as well as within the different companies, the characteristics of the financial sector and the macroeconomic and social context, determine the type of risks we are exposed to. In this regard the main risks are credit, market, liquidity, operational, technology and reputational risks.

As a company that delivers finance, through Compartamos, the credit risk is relevant, even though the portfolio's delinquency rate continued in 2016 at around 4% in the three countries we operate. In terms of market risk, of significant changes in the value of our assets due to fluctuations in the economic scenario (ej. Interest rates), we are less exposed than other financial groups due to the characteristics of the segment we attend. Although the economic context could led to an increase in the costs of those services denominated in dollars and to raised funding costs, among other circumstances, we have robust assets against the potential liquidity risk. In addition, the Board has powers to approve the required contingency plans. However, we remain attentive and assess the potential implications in order to be able to act proactively, with monthly meetings of the Risk Committees of Compartamos Banco and Compartamos Financiera.

Our transactions can be affected by a combination of human and technology factors, with a risk in respect to its implementation. In 2015, we carried out a in depth analysis of our processes, identifying potential operational risks and prioritizing them in terms of the occurrence and severity variables, in a way that has enabled us to focus our actions, without losing sight of the risk universe. The Audit Committee is in charge, along with the executive teams, of monitoring the operational risks to which Gentera's companies are exposed. We also apply this proactive management to technology risks in the context of banking digitalization, although in Gentera we maintain the proximity to the clientthrough a face-toface service as one of our differentials. Our performance seeks value creation for the different stakeholders, with the purpose of financial inclusion, contributing to the socioeconomic development of the community. With a committed team to which we provide growth opportunities and a strict adherence to the current regulations and the self-regulation that we have set of ourselves as quarantee of excellence, we have brands with strong recognition such as Compartamos. For that reason, face to a reputational risk, we have been working in trust building with a track-record reflecting such efforts. Moreover in order to guarantee that our activities follow the internal regulations and standards we have set, we have strong internal auditing processes, performed according to an annual plan to which we add external assessments.

## GENTERA

# About our report

#### (102-50, 102-51, 102-52, 102-53)

We present our Annual Sustainability Report, which shares the environmental performance of Gentera and its companies in 2016, incorporating, for the first time, the activities from Fiinlab after its launch this year.

Continuing with our previous path, we made the Report based on an internationally referenced methodology, developed by the Global Reporting Initiative (GRI), for the first time considering the GRI Standards in their latest version.

For more information about the application of the GRI Standards, including the determination process for topics about materials, we have a specific report that may be consulted on the internet.

We seek to deliver clear and pertinent information, which shows our performance, next to the results and patterns.

For more information about the determination process for topics about materials, and the conformity with GRI Standards, please consult the specific document that is available on our website.

For more information about the present report, please contact us at:

CLIENTS: DIONISIO CUEVAS MENDOZA LOAN OFFICER: JORGE HERMOSILLO LÓPEZ BUSINESS: MATTRESS MANUFACTURING AND REPARACIÓN. LENGTH OF SERVICE: 1 YEAR 6 MONTH PRODUCT: CRÉDITO INDIVIDUAL

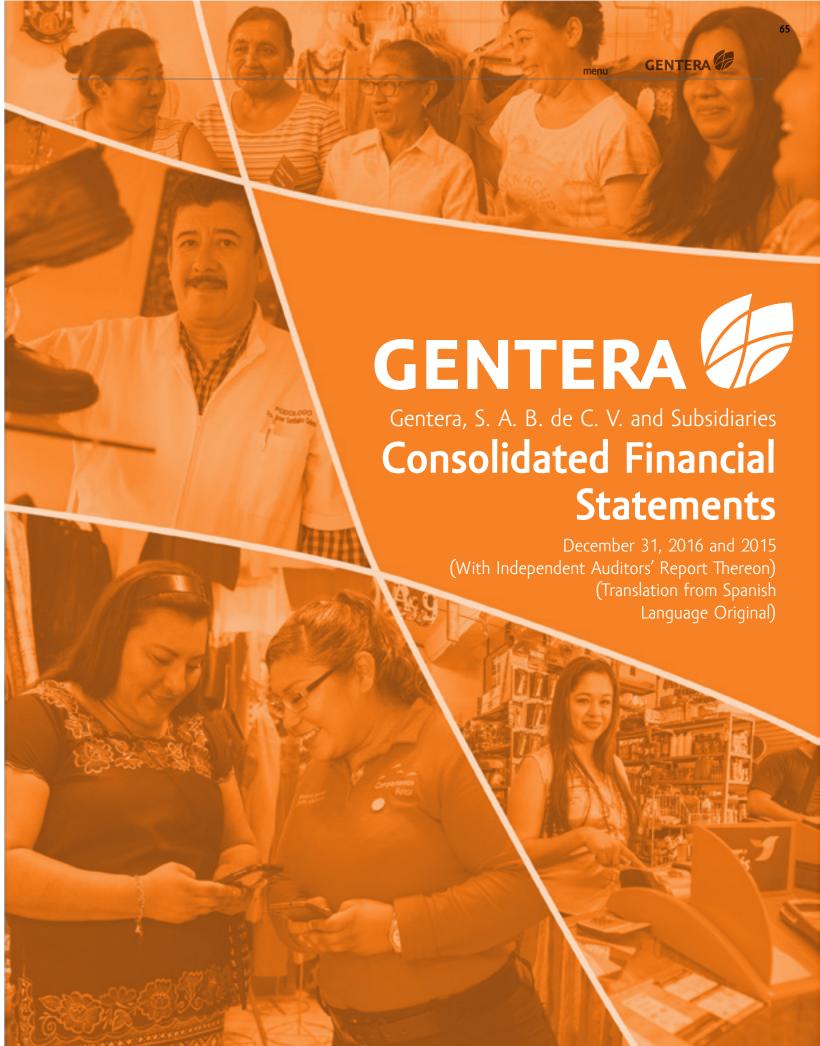

With a decade of experience manufacturing and repairing mattresses, he got into the business thanks to his brother in law. He wanted to improve the processes and the results, and sought to make a difference. It is the example of someone that comes back to open his own business, after living in Texas (USA) for several years.

Today, his company manufactures 16 mattresses a day – something which makes him very proud. He sells to individual clients and furniture stores alike, both of whom recognize Dionisio's dedication and quality product.

## **Independent Auditors' Report** The Board of Directors and Stockholders Gentera, S. A. B. de C. V.:

#### Opinion

We have audited the consolidated financial statements of Gentera, S. A. B. de C. V. and subsidiaries (Gentera), which comprise the consolidated balance sheets as of December 31, 2016 and 2015, and the consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements of Gentera, S. A. B. de C. V. and subsidiaries, have been prepared, in all material respects, in accordance with the accounting criteria for credit institutions in Mexico, set forth by the National Banking and Securities Commission (the Commission).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of Gentera in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Mexico, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of Matter**

During 2016, accounting changes were made as described in note 4 to the consolidated financial statements. Our opinion is not modified in respect of this matter.

#### Key audit matters

LThe key audit matters are those that, according to our professional judgment, have been of the major relevance in our audit of the consolidated financial statements of the current period. These matters have been treated in the context of our audit of the consolidated financial statements as a whole and in the formation of our opinion on these, and we do not express an opinion separately on these matters.

#### Current and deferred income taxes (see notes 3(l) and 16 to the consolidated financial statements)

| deferred income tax assets requires the assessment of<br>factors both current and future that allow to estimate<br>the realization of such assets. of the inputs used, as well as the nature of the<br>items that were part of the calculation, considerin<br>the in force legislation in fiscal matter.<br>In addition, we assessed the reasonableness of<br>the tax profit projections determined by the<br>Administration of Gentera that support the | Key audit matter  | How the key audit matter was treated in our audit   |
|--|---|---|
| tax assets.  | taxes is complex mainly derived of the interpretation<br>of the in force legislation in the matter, so it requires a<br>high degree of professional judgment. The valuation of<br>deferred income tax assets requires the assessment of<br>factors both current and future that allow to estimate | reasonableness of the calculations determined by<br>the Administration for the recognition of current<br>and deferred income taxes, included selective tests<br>of the inputs used, as well as the nature of the<br>items that were part of the calculation, considering<br>the in force legislation in fiscal matter.<br>In addition, we assessed the reasonableness of<br>the tax profit projections determined by the<br>Administration of Gentera that support the<br>probability of materialization of deferred income |

Calculation of labor obligations related to retirement and termination (see notes 3(r) and 15 to the consolidated financial statements)

| Key audit matter  | How  |
|---|--|
| Gentera has a mixed pension plan (defined benefit<br>and defined contribution) for its employees in<br>addition to the obligations that correspond to the<br>retirement and termination. The determination of the<br>liability corresponding to these concepts was made<br>through complex actuarial calculations that requires<br>a high degree of judgment in the selection of the<br>assumptions used to determine the net liabilities<br>for defined benefits of labor obligations related to | Our a<br>throu<br>the ru<br>Admi<br>defin<br>retire<br>calcul<br>In ad |
| retirement and termination.   | corro  |
|   | perso  |
|   | actua  |

Impairment of goodwill (see notes 3(n) and 12 to the consolidated financial statements)

| Key audit matter  | How   |
|---|---|
| Gentera recognized a goodwill arising from the<br>acquisition of two of its subsidiaries. Such goodwill<br>is subject to impairment testing which is performed<br>through the use of valuation techniques that involve<br>a high degree of judgment for the determination<br>of the future cash flows estimated by the<br>Administration. | As pa<br>throu<br>valua<br>the a<br>estim<br>the v<br>as the<br>In ad<br>proje<br>flows |

#### Other Matters

The Administration is responsible for the other information. The other information includes the information included in the annual report for the year ended December 31, 2016, to be presented to the Commission and the Mexican Stock Exchange (the Annual Report), but does not include the consolidated financial statements and our auditors' report on them. The Annual Report is estimated to be available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any kind of assurance conclusion about it.

In relation with our audit of the consolidated financial statements, our responsibility is to read the other information when is available and, in so doing, consider if the other information is materially inconsistent with the consolidated financial statements or with our knowledge obtained during the audit, or if it appears to be materially incorrect.

When we read the Annual Report, if we conclude that there is a material mistake in that other information, we are required to report that fact to those responsible in charge for the government entity.

## GENTERA

#### the key audit matter was treated in our audit

audit procedures included the assessing, ugh the participation of our actuaries, both reasonableness of the assumptions used by the ninistration to determine the net liability for ned benefits of the labor obligations related to rement and termination, as well as the method of ulation used.

ddition, selective items were tested to oborate the suitable incorporation of the sonnel data that were included as a base for the actuarial calculation.

#### the key audit matter was treated in our audit

art of our audit procedures, we evaluated, ugh the participation of our corporate ation specialists, both the reasonableness of assumptions used by the Administration for the nation of the discount rate and determination of value of use of aforementioned goodwill, as well e method of calculation used.

dition, we evaluate the reasonableness of the ections used for estimating the future economic s determined by the Gentera's Administration.

#### Responsibilities of Management and those charged with governance in relation of the consolidated financial statements

Management is responsible for the preparation of the consolidated financial statements in accordance with the accounting criteria set forth by the Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing Gentera's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Gentera or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Gentera's financial reporting process.

#### Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- · Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Gentera's internal control.
- · Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- · Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Gentera's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause Gentera to cease to continue as a going concern.

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within Gentera to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to those charged with governance of the institution a statement that we have fulfilled the applicable requirements of ethics in relation with the independence and that we have communicated to them all the relationships and other matters from which it is possible to hope reasonably that they can affect our independence and, where appropriate, the corresponding safeguards.

Among the matters that have been an object of communication with those charged with governance, we determine those who have been of the major relevance in the audit of the consolidated financial statements of the current period and that are, in consequence, the key audit matters. We describe these matters in our auditor's report unless legal or regulatory provisions prohibit disclose publicly these matters or, in extremely rare circumstances, we determine that a matter should not be communicate in our report because it could be reasonably be expected that the adverse consequences thereof would exceed the public benefits interest of the same one.

KPMG CÁRDENAS DOSAL, S.C. Carlos Fernández Galguera Mexico City, February 21, 2017.

Likewise, a funding for \$30 convertible into shares, when certain agreements and financial goals are met, was approved.
- V. At the Extraordinary Shareholders' Meeting held on November 30, 2015, the merger of Compartamos Servicios as merging company with its related party Pagos S. A. de C. V. (formerly Monex Servicios, S. A. de C. V.) was approved.

## (2) Authorization and basis of presentation-

### **Authorization**

On February 21, 2017, the following officers approved the issuance of the accompanying consolidated financial statements and their related notes.

### Carlos Labarthe Costas

Patricio Diez de Bonilla García Vallejo Oscar Luis Ibarra Burgos Marco Antonio Guadarrama Villalobos

The shareholders of Gentera are empowered to modify the consolidated financial statements after its issuance. The accompanying 2016 consolidated financial statements were authorized for issuance by the Board of Directors.

### Basis of preparation

### a) Statement of compliance

On March 16, 2011, the Commission issued the "Resolution that modifies the general regulations applicable to securities issuers and other securities market participants", which establishes that securities issuers which, through its subsidiaries, carry out mainly financial activities subject to the supervision of Mexican authorities, are required to prepare and audit its financial statements under the same basis applicable to such subsidiaries, with the purpose of ensuring that the financial information of both entities is comparable. The aforementioned is determined when such activities represent more than 70% of consolidated assets, liabilities or total revenues at the prior year-end. Consequently, since the Bank comprises 72% and 87% of the consolidated assets and revenues, respectively, as of and for the year ended December 31, 2016 (75% and 84% respectively, in 2015), the accompanying consolidated financial statements have been prepared in conformity with the accounting criteria established by the Commission throughout the accounting criteria for credit institutions in Mexico.

The accounting criteria referred to in the prior paragraph, points out that the Commission will issue particular rules for specialized transactions and in the absence of specific accounting criteria from the Commission for credit institutions and in a broader context the Mexican Financial Reporting Standards (Mexican FRS) supplementary use of Mexican FRS A-8 will be followed and only in the event that the International Financial Reporting Standards (IFRS) referred to by Mexican FRS A-8 do not provide guidance to the accounting treatment, another set of established accounting standards may be used in the following order: generally accepted accounting principles in the United States of America ("US GAAP") or any other formal and recognized accounting criteria, that do not contravene the criteria of the Commission.

### b) Use of estimates and judgments

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the recorded amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of income and expenses during the reporting period. The most significant captions subject to these types of estimates and assumptions include valuation of financial instruments, allowance for loan losses, book value for furniture and equipment, valuation allowance for other accounts receivable, intangible assets, realization of deferred income tax asset, and liabilities relating to employee benefits. Actual results may differ from these estimates and assumptions.

#### meni

Chief Executive Officer Chief Financial Officer General Internal Auditor Controller

### c) Functional and reporting currency

The financial statements of the subsidiaries have been translated prior to consolidation, to the accounting criteria set forth by the Commission, to present financial information in accordance with such criteria.

The financial statements of the foreign subsidiaries have been translated into Mexican pesos (reporting currency) considering that their recording and functional currency are the same, resulting in the use of the following exchange rates: a) month-end for monetary and non-monetary assets and liabilities (\$6.1440 Mexican pesos per sol and \$2.7411 Mexican pesos per quetzal as of December 31, 2016), b) historical for stockholder's equity and c) weighted average of the period (\$6.0411 Mexican pesos per sol and \$2.7334 Mexican pesos per quetzal) for revenues costs and expenses, translation effects are presented as part of stockholders' equity. The exchanged rates used in 2015 were a) month-end for monetary and non-monetary assets and liabilities (\$5.0567 Mexican pesos per sol and \$2.2599 Mexican pesos per quetzal), b) historical for stockholder's equity and c) weighted average of the period (\$5.0494 Mexican pesos per sol and \$2.2430 Mexican pesos per quetzal) for revenues, costs and expenses, presenting translation effects as part of stockholders' equity.

For purposes of disclosure in the notes to the consolidated financial statements, pesos or "\$" refers to millions of Mexican pesos, and when reference is made to dollars, it means dollars of the United States of America.

### d) Recognition of assets and liabilities for financial instruments

The consolidated financial statements of Gentera recognize assets and liabilities arising from investment securities and repurchase/resell agreements on the trade date, regardless of the settlement date.

### (3) Summary of significant accounting policies-

In the next page is a summary of the most significant accounting criteria followed during the preparation of the consolidated financial statements, which have been applied on a consistent basis for the years presented.

#### (a) Recognition of the effects of inflation-

The accompanying consolidated financial statements include the recognition of inflation effects in the financial information through December 31, 2007, based on the measurement factor derived from the value of the Investment Unit (UDI – Spanish abbreviation) which is an index, whose value is determined by Banco de México (the Central Bank) derived from inflation, given that beginning in 2008, in accordance with the Mexican FRS B-10 "Effects of Inflation", Gentera and Subsidiaries operates on a non-inflationary economic environment (accumulated inflation in the prior three-year period less than 26%).

The percentage of accumulated inflation in the prior three-year period, yearly inflation and the value of UDI at each of the year end are shown as follows:

|             |           | Inflation |            |  |  |
|-------------|-----------|-----------|------------|--|--|
| December 31 | UDI       | Yearly    | Cumulative |  |  |
| 2016        | \$ 5.5629 | 3.38%     | 9.97%      |  |  |
| 2015        | 5.3812    | 2.10%     | 10.39%     |  |  |
| 2014        | 5.2703    | 4.18%     | 12.38%     |  |  |

#### Basis of consolidation-**(b)**

The accompanying consolidated financial statements as of and for the years ended December 31, 2016 and 2015, include the balances of Gentera and its subsidiaries mentioned below. All significant balances and transactions between Gentera and the subsidiaries have been eliminated upon consolidation.

| Entity                 | Equity | Functional currency |
|------------------------|--------|---------------------|
| Bank                   | 99.98% | Mexican pesos       |
| Compartamos Guatemala  | 99.99% | Quetzales           |
| Compartamos Financiera | 99.99% | Soles               |
| Red Yastás             | 99.99% | Mexican pesos       |
| Compartamos Servicios  | 99.99% | Mexican pesos       |
| Controladora AT*       | 50.00% | Mexican pesos       |
| Intermex**             | 99.99% | Mexican pesos       |

\* Controladora AT is consolidated because Gentera has control on the financial policies and operating decisions of the subsidiary. \*\* Intermex is consolidated beginning April 15, 2015, due to in such date the purchase process was concluded.

#### (c) Cash and cash equivalents-

This caption comprises cash, bank accounts in local and foreign banks, documented bank loans with original maturities of up to three days ("Call Money"), and deposits with the Central Bank, which are recognized at face value, and cash and cash equivalents in foreign currency are valued at the exchange rate issued by the Central Bank at the date of presentation of the consolidated financial statements. Interest earned from cash and cash equivalents are recognized in the consolidated income statement on an accrual basis.

The restricted cash and cash equivalents include Call Money, deposit auctions with the Central Bank and the Deposit of Monetary Regulation with the Central Bank in accordance with the Law, in order to regulate the money market liquidity, such deposit bears interest at interbank funding rate.

The foreign exchange currencies acquired and agreed to be settled at later date to the purchase/sale transaction are recognized as restricted cash (foreign currency to be received), while foreign currency sold is recorded as cash outflow (currency to be delivered). The rights and obligations arising from the foreign exchange sales and purchases are recorded in the captions "Other accounts receivable" and "Sundry creditors and other accounts payable", respectively.

Call Money operations, the saving fund of Gentera's employees and guarantee deposits with financial institutions in Peru are recognized as restricted cash.

#### (d) Investment securities-

Investment securities consist of equity instruments, government and banking securities, listed and unlisted, which are classified in accordance with the intention of use that Gentera assigns at the date of their acquisition as described below:

### Trading securities-

Trading securities which are held for operation in the market are recorded at fair value using current prices obtained from specialists in the supply and price calculation to value securities portfolios, authorized by the Commission, known as "price vendors", and in case of unlisted securities, market prices of financial instruments with similar characteristics are used as reference, which use prices calculated based on formal and widely accepted valuation techniques. The fair value is the amount at which interested parties are willing to exchange for the financial instrument, in an uninfluenced transaction. Valuation effects of this category are directly recognized in the consolidated income statement of the year under the caption "Financial intermediation result".

Expenses incurred in the acquisition of trading securities are recognized in the income of the year. Interest income is recognized in the consolidated income statement as accrued.

As of December 31, 2016 and 2015, there are no investments in securities classified for trading purposes. Likewise for the year ended as of December 31, 2015, there were no transactions of repurchase/resell for trading securities.

### Available-for-sale securities-

Available-for-sale securities are composed of equity instruments, whose intention is not obtain profits derived from the differences in prices resulting from trading transactions, and therefore represent a residual category, that is, they are acquired with a different intention from trading or held-to-maturity securities.

At the moment of acquisition, these securities are recorded at fair value plus acquisition costs for the transaction, which represents the cost of acquisition for Gentera and are subsequently valued at the same way as trading securities; the valuation effect is recognized in stockholders' equity under "Unrealized gain or loss from valuation of available-for-sale securities", net of deferred taxes, which is cancelled to recognize in income the difference between the net value of realization and acquisition cost at the time of the sale.

The yield on debt securities is recorded in accordance with the effective interest method as appropriate according to the nature of the instrument; such income is recognized as realized in the consolidated income statement under "Interest income".

The cash dividends of the stock securities, are recognized in the income of the year in the same period in which the right to receive the payment is generated.

### Securities impairment-

A security is impaired and therefore a loss is incurred from this impairment when there is objective evidence of the impairment as a result of one or more events that occurred after the initial recognition of the security, which had an impact in the estimated cash flows and could be determined on a trust-worthy basis, recognizing a loss in the consolidated results for the year.

### Repurchase/resell agreements-

The repurchase/resell agreements that do not comply with the terms of the criteria C-1 "Recognition and derecognition of financial assets", are treated as collateralized financing transactions, which reflects the economic substance of those transactions regardless of whether it is a "cash oriented" or "securityoriented" repurchase/resell agreements.

Gentera acting as a seller on resell agreements recognizes cash received or a debit to a settlement account, as well as a payable account valued at the price agreed at origination, which represents the obligation to repay the cash to the buyer reclassifying the financial assets given as collateral to present them as restricted. While Gentera acting as a buyer on resell agreements recognizes the out flow of cash and cash equivalents or a credit to a settlement account, booking an account receivable for the agreed price, which represents the right to recover the cash given and recognizes the collateral received in memorandum accounts.

Throughout the life of the repurchase/resell agreements the account payable or receivable is presented in the consolidated balance sheet as debtors or creditors on repurchase/resell agreements as appropriate and is valued at amortized cost by recognizing the interest from the repurchase/resell agreements on the years' income as accrued according to the effective interest method.

Interest accrued on repurchase/resell agreements transactions are presented under the caption "Interest income" or "Interest expense" in the consolidated statement of income whichever is applicable. The difference, if any, generated by selling or using the collateral in lieu of payment will be presented in the caption "Financial intermediation result".

#### **(f) Derivatives-**

Transactions with derivative financial instruments comprise those for trading purposes. Irrespective of their purpose, derivatives are recognized at fair value.

The valuation effect of the derivatives for trading purposes is shown in the consolidated balance sheet and consolidated statement of income under "Derivatives", in the assets or liabilities, accordingly, and "Financial intermediation income", respectively.

As of December 31, 2015, Intermex has agreed five derivative financial instruments of exchange rate "Forwards", with maturity in February and July, 2016. For the years ended on December 31, 2016 and 2015, the loss from derivatives valuation amounts to \$12 and \$7, respectively. As of December 31, 2016, Intermex has no position in derivative financial instruments.

#### Loan portfolio-(q)

Represents the outstanding balances of the amounts granted to borrowers (including financed insurances), plus uncollected interest earned. Outstanding loan and interest balances are classified as past due according to the following criteria:

Consumer and mortgage loans - 90 or more days past due.

Residential mortgages - When the outstanding loan balance present installments not fully collected for 90 or more due days.

GENTERA

**Commercial loans with one principal amortization and interest payment –** 30 days or more after due date.

Consumer loans are granted based on an analysis of the customer's application and the consultations made at the credit information bureaus. In some cases, as required, an analysis is conducted to the borrower's financial position, the economic feasibility of the investment projects and other general characteristics established in the Credit Institutions Law, Gentera's manuals and internal policies.

Loans are controlled by periodic visits to the client by Gentera personnel, and by daily monitoring of the payments through the system, where the relevant personnel can follow-up on late payments.

Loans are collected weekly, biweekly or monthly, when clients make loan payments in the form of deposits in accounts contracted by Gentera with other multiple banking institutions solely for that purpose, as well as correspondents to conduct this type of operations.

Evaluation on the credit risk of each client is handled by verifying their credit history with Gentera, and checking clients' credit ratings with the credit bureau.

Gentera's policy for avoiding risk concentration is based mainly on setting maximum amount limits on loans by borrower.

Interests are recognized in income as they accrue. However, the accumulation of interests is suspended when a loan is transferred to past due loan portfolio and are recorded in memorandum accounts. When such interests are collected, these are recognized as income. Reserves are created for the total balance of non-collected accrued ordinary interest, related to the loans transferred to past due loans, at the moment of transfer.

Past due loans are transferred to current loans when the outstanding balances of past-due loans (principal and interest, among others) are totally settled.

Commissions on late payment of loans are recognized in the consolidated income statement when the delay occurs.

As of December 31, 2016 and 2015, Gentera had mainly a short-term consumer loan portfolio (note 9).

In the event that Gentera sold loan portfolio previously written-off, the internal policy corresponding to such process, provides that participants be unrelated parties having as purpose obtaining the best possible market price. In addition economic and reputational assessment of each participant is performed to make the best decision. During the years ended on December 31, 2016 and 2015, Gentera did not carry out sales of loan portfolio.

#### Allowance for loan losses-(h)

An allowance for loan losses is maintained which, in management's opinion, is sufficient to cover for credit risks associated with the loan portfolio, as well as other credit risks.

Allowances for loan losses are based on analytical studies of the portfolio in accordance with the "General dispositions applicable to credit institutions" issued by the Commission, which include those mentioned in the next page.

### Commercial loan portfolio -

Allowances for loan losses for commercial loan portfolio are based on the individual assessment of the credit risk and classification of the costumers in accordance with the "General dispositions applicable to credit institutions" (the Dispositions) issued by the Commission.

The loan portfolio with companies and individuals with business activity, with annual income or net sales less than 14 million UDIS is rated by methodology described in Annex 21 of Dispositions. Such methodology is based on the expected loss, which considers the probability of default, loss given default and exposure at default.

Allowances for loan losses made at December 31, 2016 and 2015 were determined in conformity with the degree of risk and the corresponding percentage ranges of allowance as shown below:

| Degree of risk | Percentage ranges of allowance |
|----------------|--------------------------------|
| A-1            | 0.000 to 0.9                   |
| A-2            | 0.901 to 1.5                   |
| B-1            | 1.501 to 2.0                   |
| B-2            | 2.001 to 2.5                   |
| В-3            | 2.501 to 5.0                   |
| C-1            | 5.001 to 10.0                  |
| C-2            | 10.001 to 15.5                 |
| D              | 15.501 to 45.0                 |
| E              | Greater than 45.0              |

### Consumer loan portfolio -

The calculation of the allowance for loan losses for consumer loans is made in conformity with the current dispositions issued by the Commission, which model of expected loss establishes that the allowance for loan losses is based on the probability of default, loss given default and exposure at default, considering for the calculation of the allowance the figures at the last day of each month. This methodology considers variables such as: i) outstanding amount, ii) payment made, iii) past-due days, iv) total term, v) remaining term, vi) the original loan amount, vii) the original value of the property, viii) loan balance and ix) the type of loan.

Additionally, when non-revolving consumer loans have collaterals, the covered and exposed parts must be segregated, considering an assignment in the severity of the loss of 10% to the covered part if related to cash collateral and /or liquid collateral and in case of mortgage collaterals a severity of the loss of 60% to the covered part may be assigned.

The allowance for loans losses for non-revolving consumer loan portfolio as of December 31, 2016 and 2015, is determined by the degree of risk assigned to the loan, as shown below:

| Degree of risk | Percentage ranges of allowance |
|----------------|--------------------------------|
| A-1            | 0.00 to 2.0                    |
| A-2            | 2.01 to 3.0                    |
| B-1            | 3.01 to 4.0                    |
| B-2            | 4.01 to 5.0                    |
| В-3            | 5.01 to 6.0                    |
| C-1            | 6.01 to 8.0                    |
| C-2            | 8.01 to 15.0                   |
| D              | 15.01 to 35.0                  |
| Е              | 35.01 to 100.0                 |

### Mortgage loan portfolio -

The allowance for loan losses for residential mortgages is determined using the corresponding balances at the last day of each month. Furthermore, factors such as: i) outstanding amount, ii) payment made, iii) value of property, iv) loan balance, v) past-due days, vi) loan denomination and vii) integration of the file. The total amount of reserve for each credit assessed is the result of multiplying the probability of default for the loss given default and exposure at default.

Degree of risk and percentages of allowance for loan losses at December 31, 2016 and 2015 are as shown below:

| Degree of risk | Percentage ranges of allowance |
|----------------|--------------------------------|
| A-1            | 0.000 to 0.50                  |
| A-2            | 0.501 to 0.75                  |
| B-1            | 0.751 to 1.00                  |
| B-2            | 1.001 to 1.50                  |
| B-3            | 1.501 to 2.00                  |
| C-1            | 2.001 to 5.00                  |
| C-2            | 5.001 to 10.00                 |
| D              | 10.001 to 40.00                |
| E              | 40.001 to 100.00               |

**Troubled loans –** Commercial loans with a high probability of not being collected. As of December 31, 2016 and 2015, Gentera has troubled loans for \$18 and \$10, respectively, which come from Compartamos Financiera. These loans have been fully reserved.

**Write-offs** – The Bank has the policy that within the first days of each month, it will write-off consumer loan portfolio pending to be collected at 180 days after being considered past-due until the last day of the month immediately preceding, given that during that period and once carried out all recovery efforts, its practical impossibility of recovery is determined. Such write-offs are conducted by cancelling the outstanding balance of the loan against the allowance for loan losses. In the event that the loan balance to be written-off exceeds its corresponding allowance, prior to the write off, such allowance is increased up to the amount of the difference. In the case of commercial loans and residential mortgages the policy of write-off fits the moment once its recovery is determined to be impractical.

Recoveries related to written off loans or loans eliminated from the consolidated balance sheet are recognized in income of the year under the caption of "Other operating income (expenses), net".

The grading of the loan portfolio was conducted as of December 31, 2016 and 2015, and management considers that the allowances resulting from such grading are sufficient to absorb the portfolio's loan loss risks.

### (i) Other accounts receivable-

This caption represents, among others, receivables from employees, accounts receivable from correspondents, recoverable income taxes and items directly related to the loan portfolio, such as legal expenses, which beginning in 2015 an allowance for doubtful receivables is determined based on the same percentage of risk assigned to the associated loan.

For the other receivables, including accounts receivable from correspondents, related to identified debtors with maturity exceeding 90 calendar days, a reserve is created for the total unpaid balance (60 days if balances are unidentified), except for those related to recoverable tax balances and clearing accounts.

Management considers that the reserve for doubtful accounts is sufficient to absorb losses in accordance with Gentera's policies.

### (j) Property, furniture and equipment-

Property, furniture and equipment, including acquisitions from capitalized leases, are stated as follows: i) acquisitions conducted from January 1, 2008 at their historical cost, and ii) acquisitions made up to December 31, 2007 at their restated values, determined applying factors derived from the UDI, to their acquisition costs up to December 31, 2007.

Depreciation is calculated using the straight-line method, based on the estimated assets' useful life determined by Gentera management.

The leases are capitalized if the contract terms substantially transferred all inherent risks and benefits of ownership of the leased asset. The capitalized value is the value of the leased asset or the present value of minimum lease payments, whichever is less at lease inception. In the case of capital lease agreements, the interest rate used for calculating the present value of minimum payments is implicit in the related agreement. If interest rate is not available, the incremental rate as established on Mexican FRS D-5 "Leases" is used.

The related liability with the lessor is included in the consolidated balance sheet as an obligation for capitalized lease.

The financial costs of the financing granted by the lessor to acquire the leased assets are recognized in the consolidated income statement as accrued. Lease payments are allocated between finance charges and reduction of the lease obligation in order to achieve a constant interest rate on the remaining balance of the liability. Assets held under capitalized leases are included within furniture and equipment and computer equipment captions, and its depreciation is calculated according to the term of the lease.

### (k) Investment in associated-

Investment in associated companies, which Gentera owns less than 50% stake in the capital stock and has no control, are accounted for using the equity method based on financial statements of the associate as of and for the years ended December 31, 2016 and 2015. At December 31, 2016 and 2015, the participation of 43.16% (in both years), in the capital stock in the associate Finestrella amounts to \$44 and \$121.

The equity investment in the associate for the year ended December 31, 2016 and 2015 is a loss of \$77 and \$52, respectively. During 2015, Compartamos Financiera acquired an investment in the associated company "Pagos Digitales Peruanos, S. A.", with a participation of 2.45%, whose balance as at December 31, 2016 and 2015, amounts to \$3 in both years.

### () Income tax (IT) and employee statutory profit sharing (ESPS)-

The current IT and ESPS are determined according to current tax legislation (note 16).

Deferred IT and ESPS are recognized using the assets and liabilities method, which compares their accounting and tax values. Deferred IT and ESPS (assets and liabilities) are recognized for future tax consequences attributable to temporary differences between the value reflected in the consolidated financial statements of existing assets and liabilities and their respective tax bases, as well as for operating loss carryforwards and other recoverable tax credit.

Deferred IT and ESPS (assets and liabilities) are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered. The effect of changes in tax rates on deferred IT and ESPS are recognized in results of the period in which they were enacted.

The current and deferred IT and ESPS are presented and classified to the results of the period, except for those originated from a transaction that was recognized in the caption of "Other Comprehensive Income" or directly in Stockholders' equity.

Deferred asset for ESPS is reserved, given that Gentera has the policy to reward its employees up to a month of salary, even when there is no resulting payment base for ESPS according to the current tax legislation.

### (m) Other assets, deferred charges and intangibles-

This caption is mainly comprised of guarantee deposits, insurance and expenses paid in advance, intangibles, goodwill and expenses for debt issuance. Amortization is accounted for using the straight-line method during the life of each transaction.

The expenses paid in advance as of December 31, 2016 and 2015, are not subject to impairment losses or reversals of impairment losses, since these still have the capacity to generate economic future benefits.

### (n) Impairment of long-lived assets-

Gentera periodically assesses the net carrying amount of property, furniture and equipment and intangibles assets, to determine whether there is an indication that the carrying amount exceeds the recoverable amount. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to future net revenues reasonably expected to be generated by the asset. If the net carrying amount of the asset exceeds the recoverable amount, Gentera records the necessary provisions. When Gentera has the intention to sell such assets, these are reported in the consolidated balance sheet at the lower of net carrying amount or realizable value. Long-lived assets, both tangible and intangible, are subject to impairment testing, in the case of assets with an indefinite life, impairment testing is performed annually and assets with a definite life are only subject to impairment testing when there are signs of impairment.

### (o) Deposit funding-

Liabilities arising from deposit funding including demand deposits, time deposits and debt securities issued are recorded at placement cost, plus interest expense, determined using the straight-line method as accrued.

Those securities issued at a price different from the face value, shall recognize a deferred charge or credit for the difference between the face value of the security and the amount of cash received, which will be recognized in the consolidated income statement as an interest income or expense as accrued, taking into account the maturity of the security.

Issuance expenses are initially recognized as deferred charges and amortized against results for the period, according to the term of the debt issuance from which they derived.

### (p) Bank and other loans-

Bank and other loans comprise loans from banks and financing provided by development banking institutions and development funds specialized in financing economic, productive or development activities. The bank and other loans are recorded at the value of the contractual obligation; interest is recognized on accrual basis in the consolidated income statement.

### q) Provisions-

Provisions for liabilities represent present obligations arising from past events, likely to require the use of economic resources to settle the obligation in the short term. These provisions have been recorded under Management's best estimate.

### r) Employee benefits-

The benefits granted by Gentera to its employees are described as follows:

### Short-term direct benefits-

Short-term direct benefits are recognized in income of the period in which the services rendered are accrued. A liability is recognized for the amount expected to be paid if Gentera has a legal or assumed obligation to pay this amount as a result of the past services provided and the obligation can be reasonably estimated.

### Long-term direct benefits-

Gentera's net obligation in relation to the direct long-term benefits and which Gentea is expected to pay at least twelve months after the date of the most recent consolidated balance sheet presented, is the amount of future benefits that the employees have obtained in exchange for their service in the current and previous periods. This benefit is discounted to its present value. Remeasurements are recognized in income in the period in which they are accrued.

### Termination benefits-

A liability is recognized for termination benefits along with a cost or expense when Gentera has no realistic alternative other than to make the corresponding payments or when the offer of these benefits cannot be withdrawn or when conditions that require the recognition of restructuring costs are met, whichever occurs first. If benefits are not expected to be settled wholly within twelve after the date of the most recent consolidated balance sheet presented, then they are discounted.

### Post-employment benefits-

Gentera has implemented a pension plan, which consists of a mixed scheme in which the benefit is derived from two components that are a defined benefit plan and a defined contribution plan. The pension plan covers the permanent employees. Likewise the benefits are based on 10 and 65 years of service considering for its determination the daily integrated salary.

The defined benefit plan is funded entirely by Gentera, and the defined contribution plan is funded with the contributions from both Gentera and the employees.

The cost of defined benefit plan is determined in accordance with provisions of the FRS D-3 "Employee benefits" and the cost of the defined contribution plan is equivalent to the amount of the contributions that make Gentera to the individual employees bank account.

Gentera has the obligation to pay a compensation in case of unjustified dismissal.

Gentera records a provision to meet obligations for severance and seniority premiums. The recording of the provision is recognized in the results of each year based on actuarial calculations under the projected unit credit method using nominal interest rates and considering projected salaries.

Remeasurements (before actuarial gains and losses), resulting from differences between projected and actual actuarial assumptions at the end of the period, are recognized in the period when incurred under the caption "Remeasurements for employee defined benefits" within stockholders' equity.

#### Share-based payment-(s)

Since the year 2015, Gentera established a share-based payment compensation program for its employees; as part of a package of remuneration in addition to salary and other benefits, payable in a period of 4 years (payments of 25% annually until cover 100%). The award of the shares is conditional upon performance and permanence in Gentera recognizing the expense and obligation of payment when these conditions are fulfilled.

The estimated amount of the obligation is determined on the fair value of equity instruments granted, taking into consideration the timing and conditions on which the equity instruments are awarded. The plan provides that the subsidiaries of Gentera acquire independently in the market, the shares of the capital of Gentera. As of December 31, 2016 and 2015, the liability for this concept amounts to \$50 and \$34, respectively, which are recorded in the consolidated year's results under the caption of "Administrative and promotional expenses".

#### Stockholders' equity-**(t)**

Capital stock, statutory reserves and prior years' results are stated as follows: i) movements made beginning January 1, 2008 at their historical cost, and ii) movements made prior to January 1, 2008, at their restated values determined by applying factors derived from UDIS to their historical values through December 31, 2007.

#### Repurchase of shares-(u)

The own shares acquired are shown as a decrease in the fund for the repurchase of own shares, included in the consolidated financial statements under the statutory reserves. Dividends received are recognized by decreasing their cost.

With respect to the sale of repurchased shares, the amount obtained in excess or deficit of their restated cost is recognized as additional paid-in capital.

#### (v) Cumulative translation adjustment-

Represent the difference arising from translating foreign operations from the recording and functional currency, which are the same, to the reporting currency.

### (w) Comprehensive income-

Comprehensive income comprises the net income, cumulative translation adjustment of subsidiaries and unrealized gain from valuation of available-for-sale securities, as well as, items required by specific accounting standards to be included in the stockholders' equity, such items do not constitute capital contributions, reductions or distributions.

#### (x) Revenue recognition-

Interest earned from cash and cash equivalents, investments in securities and repurchase/resell agreements are recognized in the consolidated income statement as accrued, as per the effective interest method; while equity instruments are recognized at the time the right to receive payment is generated, against the consolidated results for the year.

Loan portfolio interest is recognized as accrued, except for those related to past-due portfolio, which are recognized in income when collected. Commissions are recognized when earned under the caption "Commissions and fee expense" in the consolidated income statement.

Amortization of premiums for the issuance of debt securities is also considered as income.

Income from sales of furniture and equipment is recognized in income when all of the following requirements are met: a) the risks and benefits of the goods have been transferred to the buyer and no significant control thereon is retained; b) income, costs incurred or costs to be incurred are determined on a reliable basis, and c) Gentera is likely to receive economic benefits from the sale.

#### **(y)** Interest expense-

This caption comprises interest accrued on financing received to fund the operations of Gentera and the interest accrued from the demand and time deposits received, debt securities issued and bank and other loans.

#### (z) Other operating income (expense)-

This caption includes income and expenses such as recoveries of loan portfolio, financing cost of capital lease, charges for doubtful accounts, write-offs, donations, impairment losses of long-lived assets and result in the sale of furniture and equipment.

### (aa) Earning per share-

This caption represents the result of dividing the profit for the period by the weighted average of current shares during the period. For the years ended on December 31, 2016 and 2015, the earning per share is \$2.08 Mexican pesos and \$1.93 Mexican pesos, respectively.

#### Contributions to the Banks Savings Protection Institute (IPAB Spanish abbreviation)-**(bb)**

Contributions made by multiple banking institutions to the IPAB are made in order to establish a system to protect the banking savings of parties conducting guaranteed operations in the terms and with the restrictions stipulated in the Bank Savings Protection Law, as well as to regulate the financial support granted to multiple banking institutions for the protection of the interests of the savings of the public.

Contributions made for this concept for the years ended December 31, 2016 and 2015, amounted to \$60 and \$52, respectively, which were charged directly to results of the year.

### (cc) Foreign currency transactions-

The accounting records are maintained in both Mexican pesos and foreign currencies, which for consolidated financial statement presentation purposes, currencies other than dollars are translated to the dollar equivalent and subsequent to the national currency as established by the Commission. For the dollar translation into Mexican pesos, the exchange rate determined by the Central Bank for the settlement in Mexico of transactions denominated in foreign currencies is used. Exchange gains and losses are recognized on accrual basis in the consolidated results of the year.

### (dd) Financial intermediation result-

Arises from the difference between the exchange rate used to buy or sell foreign currencies, including the adjustment to the final position, valued at the exchange rate mentioned to in the preceding paragraph, as well as the valuation at fair value of trading securities and derivative instruments.

### (ee) Contingencies-

Liabilities or important losses related to contingencies are recorded when it is probable that a liability has been incurred and the amount of the assessment and/or remediation can be reasonably estimated. When a reasonable estimation cannot be made, qualitative disclosure is provided in the notes to the consolidated financial statements. Contingent income, earnings or assets are not recognized until their realization is virtually certain (note 20).

#### Segment information-(ff)

The accounting criteria prescribed by the Commission establishes that multiple banking institutions must segregate their activities in order to identify the different operating segments, which as minimum include: i) loan operations; ii) treasury and investment banking operations, and iii) operations conducted on behalf of third parties. In addition, due to materiality, additional operating segments and sub-segments can be identified (note 22).

## (4) New accounting standards and reclassifications-

The Mexican Board of Financial Reporting Standards (CINIF - Spanish abbreviation), issued new FRS are listed below:

FRS D-3 "Employee benefits"- Entered into force for the years beginning after January 1, 2016 with retrospective effects and early adoption is allowed as of January 1, 2015, and it leaves without effect the dispositions from the previous FRS D-3. Between the principal changes includes the following:

- Direct benefits The classification of direct short-term benefits was modified and the recognition of deferred • Employee Statutory Profit Sharing (ESPS) was ratified.
- Termination benefits The bases were modified for identifying when payments for the termination of a work relationship actually meet post-employment benefits or when they are termination benefits.
- Plan Asset Ceiling (PA) Identifies a plan asset ceiling and specifies which entity contributed funds do not qualify as such.

- Post-employment benefits Among others, the following were modified: the accounting recognition of multi-employer plans; government plans and plans of entities under common control; the recognition of the net defined benefit liability (asset); the bases for determining the actuarial hypothesis in the discount rate; the recognition of the Service Cost of Past Periods (SCPP) and of the Early Settlement of Obligations (ESO).
- **Remeasurements** In recognizing post-employment benefits, the corridor approach is eliminated in the treatment of the plan's profits and losses (PPL); therefore, they are recognized as accrued and recognized directly in Other Comprehensive Income ("ORI"), requiring their recycling to the period's net profit or loss under certain conditions.
- Recognition in profit or loss of PM, SR and gains or losses from Early Settlement of Obligations (ESO) - In post-employment benefits, the totality of the Service Cost of Past Periods (SCPP) of Plan Modifications (PM), Staff Reductions (SR) and the gains or losses from Early Settlement of Obligations (ESO) are immediately recognized in profit or loss.
- Discount rate Establishes that the discount rate of Defined Benefit Obligations (DBO) is based on investment grade corporate bond rates (deep market) and, in their absence, on government bond rates.
- Termination benefits Requires an analysis as to whether separation payments qualify as termination benefits or are actually post-employment benefits and notes that if the benefit is non-cumulative with no preexisting granting conditions, it is a termination benefit and, therefore, it should be recognized when the event occurs. However, if preexisting conditions are present, either contractually, by law or payment practices, it is deemed a cumulative benefit and should be recognized as a post-employment benefit.

The initial effects of the adoption of the new FRS D-3 amounted to \$160 and \$65, corresponding to the effects generated by the recognition of actuarial gains and losses of obligations, plan assets, reclassification of remeasurement (net of deferred taxes) and past unrecognized services, respectively, which have been determined using a government bond rate to discount flows to present value, these effects were recognized in 2016 under "Remeasurements for employee defined benefits" and "Prior years' results", respectively, within stockholders' equity.

Management did not recognize the initial effects derived from the adoption of this new FRS in a retrospective way for considering them slightly material.

### 2016 FRS Improvements

In December 2015, the CINIF issued the document called "2016 FRS Improvements", which contains precise modifications to some of the existing FRS. These improvements entered into force for the years beginning on January 1, 2016, and did not generate applicable effects in the financial information of Gentera.

### 2017 FRS Improvements

In October 2016, the CINIF issued the document called "2017 FRS Improvements", which contains precise modifications to some current FRS Improvements, these improvements are described below, but did not generate effects in the consolidated financial statements of Gentera.

FRS B-13 "Subsequent events as of the date of the financial statements" FRS B-6 "Statement of financial position" - Modifies the classification requirements of assets, liabilities and stockholders' equity, primarily to establish that it is appropriate to maintain the classification of an item as long term as of the date of the financial statements, in the case of a financial asset or financial liability that: a) was contracted on a long-term collection or payment basis; and b) even when the borrower is in default as of the date of the financial statement, during the subsequent period (between the date of the financial statements and the date on which they are authorized to be issued to third parties) if an agreement is reached to maintain collection or payment on a long-term basis. This revision will be effective for periods starting on or after January 1, 2017, allowing early adoption for periods starting on or after January 1, 2016 and resulting accounting changes should be recognized prospectively.

FRS D-3 "Employee benefits" - Establishes that the interest rate to be used in determining the present value of long-term labor liabilities must be a market rate free of, or with very low credit risk, representing the value of money over time, such as, the government bond market rate or the high-quality corporate bond market rate in absolute terms in a deep market, respectively, and that the chosen rate should be used consistently over time. Additionally, it allows the recognition of remeasurements in Other Comprehensive Income (OCI), requiring them to be subsequently reclassified to net income or loss or else directly to net income or loss as of the date of origin. These revisions will take effect for years beginning on or after January 1, 2017, although early adoption is allowed. Accounting effects arising from changes in the discount rate should be recognized prospectively, while those arising from a change in the option to recognize remeasurements should be recognized retrospectively.

### Reclassifications

The consolidated balance sheet at December 31, 2015, was reclassified for proper comparability with the presentation used at December 31, 2016, as shown below:

|   | Figures as of December 31, 2015 |                              |                   |                         |  |  |

### (5) Foreign currency position-

Central Bank regulations establish the following standards and limits for operations in foreign currencies carried out by the credit institutions:

- The (short or long) position in US dollars must not exceed a maximum of 15% of the Bank's basic 1. capital.
- 2. The foreign currency position must not exceed 2% of net capital, except for the dollar or currencies referred to the dollar, which can reach up to 15% of the basic capital of the Bank.
- Liabilities in foreign currency must not exceed 1.83 times the Bank's basic capital. 3.
- 4. The foreign currency operations investment regulations make it necessary to hold a minimum amount of liquid assets, in accordance with a calculation mechanism established by the Central Bank, based on the maturity of operations in foreign currency.

As of December 31, 2016 and 2015, the Bank had a long position of 20,418,500 dollars and 1,681,162 dollars, respectively, within the limits set forth by Central Bank. The net assets at December 31, 2016 of Compartamos Guatemala and Compartamos Financiera represent a long position of 32,148,470 dollars and 135,603,893 dollars, respectively (long position of 22,542,912 dollars and 80,060,068 dollars, respectively, in 2015).

The net assets at December 31, 2016, corresponding to Intermex and Gentera represents a long position of 632,615 dollars and 779,792 dollars, respectively (long position of 604,092 dollars and 36,249 dollars, respectively, in 2015).

As of December 31, 2016, the exchange rate determined by the Central Bank and used by Gentera to value its assets in foreign currency was \$20.6194 Mexican pesos per dollar (\$17.2487 Mexican pesos per dollar in 2015). On February 21, 2017, issuance date of the consolidated financial statements, the exchange rate was \$20.4489 Mexican pesos per dollar.

## (6) Cash and cash equivalents-

At December 31, 2016 and 2015, cash and cash equivalents consist of the following:

|  | 2016     | 2015  |
|--|----------|-------|
| Cash on hand                                       | \$ 855   | 260   |
| Mexican banks                                      | 878      | 1,224 |
| Foreign banks                                      | 590      | 349   |
| Restricted funds:                                  |          |       |
| Monetary regulation deposit with the Central Bank* | 308      | 308   |
| Bank loans with maturity up to three days*         | 2,237    | 1,150 |
| Deposit auction with the Central Bank*             | 995      |       |
| Other restricted funds                             | 398      | 87    |
|  | \$ 6,261 | 3,378 |

\*Included as part of the caption "Contingent assets" in memorandum accounts.

For the years ended on December 31, 2016 and 2015, interest earned from banks and other restricted funds amounted to \$183 and \$42, respectively.

At December 31, 2016 and 2015, the monetary regulatory deposit with Central Bank has no established term and bears interest at the rate of bank deposit funding. For the years ended December 31, 2016 and 2015, interest earned from monetary regulatory deposit amount to \$13 and \$9, respectively.

At December 31, 2016 and 2015, other restricted funds correspond to guarantee deposits with financial institutions in Peru celebrated by Compartamos Financiera for \$47 and \$75, respectively, and the saving fund of Gentera's employees for \$7 and \$6, respectively. Likewise at December 31, 2016, other restricted funds include national currency promissory notes of Compartamos Servicios, Red Yastás and Controladora AT for amounts of \$120, \$120 and \$104, respectively, with an average term of 3 days, and an average rate of 5.3%.

At December 31, 2016, the average rate of interbank loans maturing in 3 days was 4.10% (2.90% in 2015). For the years ended on December 31, 2016 and 2015, interest earned from call money transactions amounted to \$64 and \$40, respectively. At December 31, 2016, the weighted rate of the deposit auction with the central bank with an average term of 2 days was 4.42%. For the year ended on that date, the interest earned amounted to \$5.

At December 31, 2016 and 2015, Gentera has no coined precious metals.

## (7) Investment securities-

Cash surpluses resulting from Gentera operations are invested in debt instruments, searching for the best available rate with the authorized counterparties.

Investments in securities are subject to different types of risks directly related to the market in which they operate, such as interest rates and credit and market liquidity inherent risks.

Risk management policies, as well as the analysis of the risks which Gentera is exposed to are described in note 23.

At December 31, 2016, investments securities are comprised of 6,656,006 shares corresponding to equity instruments, classified as available-for-sale securities, with a market value of \$222. This caption also includes certificates of deposit with the Central Bank of the Republic of Peru for \$67 and \$25 as of December 31, 2016 and 2015, respectively.

At December 31, 2016 and 2015, the valuation of available-for-sale securities recognized within stockholders' equity, net of deferred tax, represents a profit of \$1 and 18,248 Mexican pesos, respectively.

At December 31, 2016 and 2015, the average rates of investments were 4.41% and 3.73%, respectively. Likewise, for the years ended on December 31, 2016 and 2015, interest income from investments amounted to \$4 and \$2, respectively.

At December 31, 2016 and 2015, there were no transfer in securities between categories and there is no indicators of impairment over the value of the securities.

## (8) Debtors on repurchase/resell agreements-

Gentera carries out transactions of repurchase/resell agreements, acting as buyer. As of December 31, 2016 and 2015, the balance of \$20 and \$136, respectively, relates to Federal Government Development Bonds (BONDESD-spanish abbreviation) in both years.

During the years ended on December 31, 2016 and 2015, the interest income arising from repurchase/ resell agreements transactions in the consolidated income statement amount to \$2 and \$8, respectively.

The terms of transactions of repurchase/resell agreements as of December 31, 2016 and 2015, are 3 and 4 days, respectively, with weighted interest rates of 3.95% and 2.97%, respectively.

## (9) Loan portfolio-

The loan portfolio is comprised mainly of non-revolving consumer loans in Mexican pesos, with an average term of four months with a fixed rate and joint guarantee of the borrowers. Principal and interest are mainly paid on a weekly basis.

As of December 31 2016 and 2015, total loan portfolio (current and past-due loans) are comprised as shown on the next page.

|                         | Principal    | Accrued<br>interest | Total loan<br>portfolio |
|-------------------------|--------------|---------------------|-------------------------|
| 2016                    |              |                     |                         |
| Current loans:          |              |                     |                         |
| Commercial loans:       |              |                     |                         |
| Business and commercial | \$<br>863    | 12                  | 875                     |

|                         | \$<br>19,828 | 518        | 20,346 | 17,167   | 493        | 17,660 |  |

Interest accrued not collected on past-due loans, which by accounting criteria is recorded in memorandum accounts and applied to income until collected, at December 31, 2016 and 2015, amounts to \$184 and \$126, respectively.

For the years ended on December 31, 2016 and 2015, the amount recovered on the previously written-off loan portfolio, net of expenses incurred for their collection, represented a profit of \$50 and \$28, respectively, (note 22).

### Credit losses insurance

On November 7, 2014, the Bank entered into a contract of warranty service with the Special Fund for Technical Assistance and Agricultural Credit Guarantee (Fondo Especial de Asistencia Técnica – "FEGA"), through the Central Bank, the latter in its capacity as Trustee in the schemes of second losses of some products of consumer loan portfolio of the Bank established by contract. At December 31, 2015, the amount of the loan portfolio selected by the Bank for guarantee with the FEGA amounts to \$9,101, and the commission paid for the insurance was \$21, amount that was recognized in the caption "Commissions and fee expense" in the consolidated income statement. The amount from the Bank's insured loan portfolio, if any, would be recovered as maximum under contractual conditions through FEGA coverage ranges between 0.1% and 1.5% of the guaranteed amount. During the year ended on December 31, 2016, the guarantee with FEGA expired.

During the year ended on December 31, 2016, the Bank executed guarantees under FEGA insurance for an amount of \$31, recognizing an income in the caption "Other operating income (expenses), net". During the year ended on December 31, 2015, guarantees under FEGA were no executed.

At December 31, 2016 and 2015, the loan portfolio of the Bank and Compartamos Guatemala is not given as security. The Compartamos Financiera's loan portfolio at December 31, 2016 and 2015, given as security for funding received for its operation amounts to \$787 and \$1,011, respectively.

### Loan management

The authorization of loans as responsibility of the Board of Directors is centralized in committees and empowered officers, who in turn can delegate this authorization to the services office personnel.

For credit management, the general process is defined from the promotion to the recovery of the loan, specifying from each business unit policies, procedures and responsibilities of the officers involved and the tools to be used in each stage of the process.

The loan process is based on an in-depth analysis of loan applications in order to determine the overall risk of the borrower.

During the years ended on December 31, 2016 and 2015, Compartamos Financiera restructured loans for \$20 and \$33, respectively; these restructurings did not include capitalized interest.

### Allowance for loan losses

As of December 31, 2016 and 2015, the rating of the overall loan portfolio and the provisions created based on the actual risk tables for each year, are as follows:

| 2016  | Rated Ioan portfolio |          |             |        |  |  |  |
|-------|----------------------|----------|-------------|--------|--|--|--|

The movements in the allowance for loan losses during the years ended December 31, 2016 and 2015, are as follows:

| Allowance for loan losses at the beginning of the year |  |
|--|--|
| Plus:  |  |
| Increase in the provision for loan losses              |  |
| Less application of reserves due to write-offs:        |  |
| From current loans (by death)                          |  |
| From past-due loans                                    |  |
| Exchange rate fluctuation                              |  |
| Allowance for loan losses at year-end                  |  |
|  |  |

At December 31, 2016 and 2015, the allowance for loan losses recorded by Gentera includes \$36 and \$24, respectively, as a complement to reserve 100% of accrued interest from past-due loans at the end of these years.

# (10) Other accounts receivable-

At December 31, 2016 and 2015, this caption is comprised as follows:

|  | 2016      | 2015  |
|--|-----------|-------|
| Loan portfolio accessories                   | \$<br>175 | 147   |
| Other receivables:                           |           |       |
| Sundry debtors <sup>1</sup>                  | 423       | 281   |
| Debit from transactions with correspondents  | 519       | 495   |
| Debit by intermediation                      | 154       | 104   |
| Income tax recoverable                       | -         | 1,021 |
|  | 1,271     | 2,048 |
| Less:  |           |       |
| Allowance for doubtful accounts <sup>2</sup> | (286)     | (61)  |
|  | \$<br>985 | 1,987 |

1 Includes a related party balance of \$211 in 2016 and \$50 in 2015 (see note 21).

2 For the year ended on December 31, 2016, Gentera created an allowance for \$211, corresponding to the account receivable with its associate, recognizing the effect in the consolidated income for the year, within the caption "Other operating income (expenses), net".

# (11) Property, furniture and equipment-

At December 31, 2016 and 2015, this caption is comprised as follows:

|   | Original cost | Depreciation<br>and<br>amortization<br>annual rate (%) | Accumulated<br>depreciation | Net value |
|---|---------------|--|-----------------------------|-----------|
|   |               |  |                             |           |

1 Impairment corresponding to disuse of certain printing equipment in service offices. \* See explanation on the next page.

The amortization rate of leasehold improvements is in accordance with the term of the lease agreement for each property.

For the year ended December 31, 2016, the charge to the consolidated income statement in the "Administrative and promotional expenses" caption, related to depreciation and amortization amounted to \$192 and \$104, respectively (\$179 and \$90, respectively, in 2015).

### Totally depreciated assets

|                                | Original cost |     |      |
|--------------------------------|---------------|-----|------|
|                                | 2016 2015     |     | 2015 |
| Constructions                  | \$            | 5   | 4    |
| Office furniture and equipment |               | 14  | 11   |
| Transportation equipment       |               | 14  | 8    |
| Computer equipment             |               | 367 | 256  |
| Leasehold improvements         |               | 152 | 101  |
|                                | \$            | 552 | 380  |

The property, furniture and equipment owned by Gentera, does not have any pledge or restriction for its use or disposal.

Gentera as lessee has capitalized leases for transportation equipment, mobile devices and automated teller machines with a term of 3 years and no purchase option. The lease of furniture, computer and transportation equipment was recognized as capitalized because the present value of minimum lease payments exceeds 90% of fair market value of the asset at the beginning of the agreement.

At December 31, 2016 and 2015, assets leased through capitalized leases are comprised as follows:

|                                | 2016    | 2015 |
|--------------------------------|---------|------|
| Office furniture and equipment | \$<br>3 | 7    |
| Computer equipment             | -       | 31   |
| Transportation equipment       | 17      | 16   |
|                                | 20      | 54   |
| Less accumulated depreciation  | 11      | 41   |
|                                | \$<br>9 | 13   |

The payable liability related to capitalized leases is as follows (see note 17):

|                               |                               | 2016                   |                  |                               | 2015                   |                  |
|-------------------------------|-------------------------------|------------------------|------------------|-------------------------------|------------------------|------------------|
|                               | Future<br>minimum<br>payments | Discounted<br>interest | Present<br>value | Future<br>minimum<br>payments | Discounted<br>interest | Present<br>value |
| Less than one year            | \$ 5                          | -                      | 5                | 9                             | -                      | 9                |
| Between one and<br>five years | 6                             | (1)                    | 5                | 6                             | (1)                    | 5                |
|                               | \$ 11                         | (1)                    | 10               | 15                            | (1)                    | 14               |

Interest expense from capitalized leases during the years ended on December 31, 2016, and 2015, was \$1 y \$6, respectively, which is recorded under the caption of "Other operating income (expenses), net" in the consolidated statements of income.

# (12) Other assets, deferred charges and intangibles-

At December 31, 2016 and 2015, this caption is comprised as follows:

| Goodwill (a)                                     |            |
|--|------------|
| Guarantee deposits (b)                           |            |
| Insurance (c)                                    |            |
| Development of the electronic banking system, in | ntangibles |
| Advance payments                                 |            |
|  |            |

Debt issuance costs

### Less:

Accumulated amortization of electronic banking system

- (a) testing.
- (b)
- (c) statement for the years ended on December 31, 2016 and 2015, amounted to \$64 and \$67, respectively.
- (d) development of the new electronic system to book and control the banking operation, which began its utilization in May 2014. The estimated useful life of the intangible asset and software is ten and seven years, respectively. The amortization of intangible assets and software for the years ended as of December, 31, 2016 and 2015, amounted to \$193 and \$125, respectively.

## (13) Deposit funding-

Deposit funding includes deposits on demand, time deposits and debt securities issued in Mexican pesos. As part of the deposit funding, demand deposits for \$225 and \$78, correspond to the Bank and 35 and 19 million of soles correspond to Compartamos Financiera at December 31, 2016 and 2015, respectively (equivalent to \$215 and \$96 at December 31, 2016 and 2015, respectively). At December 31, 2016, time deposits from general public include \$315 from the Bank, as well as 382 and 154 million of soles at December 31, 2016 and 2015, respectively, (equivalent to \$2,347 and \$777, respectively).

|                 | 2016        | 2015  |

It derives from the acquisition of Compartamos Financiera and Intermex which is subject to impairment

Not amortizable, subject to recovery upon expiration of each leasing agreement for the respective service office.

Insurance is amortized according to the duration of each policy. The amount charged to the consolidated income

Investment in intangibles, includes the rent of licenses and acquisition of software of the Bank, for the

The weighted average rates of the different deposits funding products (unaudited information) during the years ended on December 31, 2016 and 2015, are analyzed as follows:

|                 | 2016  | 2015  |
|-----------------|-------|-------|
| Demand deposits | 2.11% | 1.43% |
| Time deposits   | 3.92% | 3.54% |

At December 31, 2015, money market time deposits, correspond to Certificates of Deposit (CEDES-Spanish acronym) in domestic currency, issued by the Bank in the months of April and August of 2015, for an accumulated amount of principal of \$550, also at December 31, 2016 and 2015, comprises 80 and 14 million of soles, issued by Compartamos Financiera in the months of April and August 2016, respectively (equivalent to \$418 and \$74, respectively), with maturities of one year. Interest accrued of CEDES for the years ended on December 31, 2016 and 2015, amounts to \$13 in both years (see note 22).

At December 31, 2016 and 2015, long term un-secured Cebures were issued in domestic currency, under the current issuance program approved by the Commission for an amount of \$9,000 in both years. The current issued Cebures are as follows:

|                     | 2016                  |                   |                  |                      |           |  |

# (14) Bank and other loans-

At December 31, 2016 and 2015, Gentera had contracted the following loans in Mexican pesos and in soles translated into Mexican pesos, as follows:

|  | 2016         | 2015  |
|--|--------------|-------|
| Short term:                              |              |       |
| Loans from development banks             | \$<br>2      | 801   |
| Loans from multiple banking institutions | 1,879        | 1,328 |
| Public trusts loans                      | 18           | 608   |
| Other institutions                       | 630          | 1,123 |
| Total short-term                         | 2,529        | 3,860 |
| Long-term:                               |              |       |
| Loans from development banks             | 2,230        | 1,400 |
| Loans from multiple banking institutions | 100          | 52    |
| Public trusts loans                      | 4,278        | 3,192 |
| Other institutions                       | 1,299        | 1,048 |
| Total long-term                          | 7,907        | 5,692 |
| Total bank and other loans               | \$<br>10,436 | 9,552 |

For the year ended on December 31, 2016, the accrued interest of bank and other loans amounted to \$562 (\$414 in 2015), see note 22.

Credit facilities received by Gentera, at December 31, 2016 and 2015, as well as the unused portion are as follows:

\*The amount of the credit lines not used are recognized in memorandum accounts as part of the caption "Other memorandum accounts".

At December 31, 2016, Gentera had obtained funding from NAFIN and FIRA for \$2,230 and \$4,292, respectively (\$2,200 and \$3,800 in 2015, respectively). This funding was assigned to small entrepreneurs and the amount of accrued interest for the year ended on December 31, 2016, from the loans of NAFIN and FIRA were \$97 and \$184, respectively (\$70 and \$69, in 2015, respectively).

As of December 31, 2016, borrowings accrued interest at average annual interest rates in Mexican pesos of 4.64% (3.87% in 2015), in soles of 6.92 % (7.21 % in 2015) and in quetzals of 7.75% (10.89% in 2015).

Under article 106, section III of the Law of Credit Institutions, the Bank may not pledge debt securities issued or accepted by them or kept in their treasury.

## (15) Employees' benefits-

At December 31, 2016 and 2015, Gentera has a mixed pension plan (defined benefit and defined contribution) that covers its employees and includes: a) defined benefit, which represents the present value of the accrued benefits in accordance with the years of service provided by the employees and that Gentera expects to incur at the time of retirement and b) defined contribution, which represents an incentive of savings to the employees, where Gentera make contributions equivalent to 100% of the contribution paid with a maximum limit of 6%. Gentera's policy to fund the defined benefit plan is to contribute according to the projected credit unit method, while funding the pension plan of defined contribution is according to seniority and age of the employees. The amount charge to results of the years 2016 and 2015 for the defined contribution plan amounted to \$19 and \$10 respectively.

At December 31, 2016 and 2015, the net defined benefit liability and the projected liability net, respectively, recognized in the aforementioned dates, are shown on the next page.

(a) Cash flows

The contributions and benefits paid for the year ended on December 31, 2016, are as follows:

| Termination (until October 2016) |
|----------------------------------|
| Recognition bonus                |
| Defined benefit                  |
| Total                            |

| Contributions to<br>the funds |    | Benefits paid<br>from the funds |
|-------------------------------|----|---------------------------------|
| \$                            | -  | 91                              |
|                               | 3  | -                               |
|                               | 64 | -                               |
| \$                            | 67 | 91                              |

Reconciliation between the present value of the defined benefit obligations (OBD-Spanish abbreviation) **(b)** and the net defined benefits liability (PNBD- Spanish abbreviation) recognized un the consolidated balance sheet, at December 31, 2016, is shown as follows:

|  | -  | Termination | Retirement | Pension plan |
|--|----|-------------|------------|--------------|
| Beginning balance of PNBD  | \$ | (89)        | (29)       | -            |
| Defined benefit cost   |    | (18)        | (10)       | (64)         |
| Plan contributions   |    | -           | -          | 64           |
| Past service not recognized with impairment in retained earnings |    | -           | -          | (66)         |
| Accumulated remeasurement generated                              |    | (153)       | (4)        | (94)         |
| Payments charged to PNBD   |    | 86          | 5          | -            |
| Ending balance of PNBD   |    | (174)       | (38)       | (160)        |
| OBD amount   | \$ | (174)       | (38)       | (292)        |
| Plan assets at fair value  |    | -           | -          | 132          |
| Financial position of the obligation                             |    | (174)       | (38)       | (160)        |

During November and December 2016, Gentera carried out the liquidation of employees, for an amount of \$ 22, reducing the labor obligations liability with respect to the actuarially determined.

**(c)** The cost, obligations and other elements of pension plans, seniority premiums and remuneration at employment relationship ending other than restructuring, mentioned in note 3 (r), were determined based on calculations prepared by independent actuaries at December 31, 2016.

An analysis of the defined benefit cost by type of plan is presented as follows:

|                                    | Tern | nination | Retirement | Pension plan |
|------------------------------------|------|----------|------------|--------------|
| Defined benefit cost:              |      |          |            |              |
| Current service cost               | \$   | 12       | 8          | 50           |
| Net interest                       |      | 6        | 2          | 11           |
| Reclassification of remeasurements |      | -        | -          | 3            |
| Defined benefit cost               | \$   | 18       | 10         | 64           |

#### Main actuarial assumptions (d)

The main actuarial assumptions used, expressed in absolute terms, as well as the discount rates, yield of the plan assets (AP-Spanish abbreviation), salary increases and changes in the indexes or other variables referred, at December 31, 2016, are as follows:

| Age                  | Death (%)<br>Men | Death (%)<br>Women | Disability (%) | Rotation (%) |
|----------------------|------------------|--------------------|----------------|--------------|
| 20                   | 0.00197          | 0.00093            | 0.00076        | 0.60606      |
|                      |                  |                    |                |              |

# (16) Income Tax (IT) and Employee Statutory Profit Sharing (ESPS)-

### (a) IT

According to the current IT Law in Mexico, the IT rate for the fiscal years of 2016 and 2015 was 30%. The ESPS rate for the fiscal years of 2016 and 2015 was 10%. The IT rate in Peru for fiscal years of 2016 and 2015 was 28%.

The tax result differ from the accounting result, mainly in such items that are taxable or deductible differently for accounting and tax purposes, by the recognition of the inflation effects for tax purposes, as well as such items that only affect either the accounting or tax results.

Notwithstanding that Gentera does not consolidate its subsidiaries for tax proposes, following is presented for informative purposes the expense (income) in the consolidated income statement related to current and deferred income taxes for the years ended December 31, 2016 and 2015.

|                        |            | 2016  | 5           | 20         | 15          |

| Provisions                | 280         | 229   |
| Tax losses carryforward   | 1,069       | 1,093 |
| Other                     | (65)        | 26    |
|                           | 4,099       | 3,101 |
| IT rate                   | 30%         | 30%   |
| Deferred IT               | 1,229       | 928   |
| Less:                     |             |       |
| Valuation allowance*      | 189         | 332   |
| Deferred IT asset, net    | \$<br>1,040 | 596   |

\* As of December 31, 2016 and 2015, the valuation allowance corresponds mainly to the tax losses carryforward from Gentera and Yastás.

|    | 2016    | 2015    |
|----|---------|---------|
| \$ | 4,416   | 4,236   |
| \$ | (1,325) | (1,271) |
|    |         |         |
|    | 76      | 42      |
|    | (845)   | (555)   |
|    | 689     | 629     |
|    | -       | 358     |
|    | (88)    | 10      |
|    | (1,493) | (787)   |
|    | 4       | -       |
|    | 192     | (448)   |
| \$ | (1,297) | (1,235) |
|    | 29%     | 29%     |

As of December 31, 2016 and 2015, the deferred tax asset related to the allowance for loan losses which amounts to \$1,745 and \$1,199, respectively, is mainly comprised of the total balance of the Bank's allowance for loan losses to that dates.

As of December 31, 2016 and 2015, a deferred liability relating to cumulative translation effect of subsidiaries was not recognized, given that the Management intends to hold these equity investments.

For the year ended on December 31, 2016, the movement of deferred IT balance represented a debit on the income statement of \$342 (credit to income statement of \$460 in 2015).

As of December 31, 2016 and 2015, Compartamos Servicios recognized a deferred tax asset derived from ESPS, which amounted to \$65 and \$44, respectively, which is fully reserved.

The combined amounts of Capital Contributions Account (Cuenta de Capital de Aportación - CUCA -Spanish abbreviation) and the net tax profit account (Cuenta de Utilidad Fiscal Neta - CUFIN -Spanish abbreviation) of Gentera and subsidiaries as of December 31, 2016 and 2015, amounts to \$1,642 and \$13,797, and \$7,453 and \$16,381, respectively.

### (b) ESPS-

For the years ended December 31, 2016 and 2015, Compartamos Servicios calculated ESPS based on article 9 of the IT Law. The amount of ESPS determined for the years ended on December 31, 2016 and 2015, amounts to \$33 and \$35, respectively, which was recognized under the "Administrative and promotion expenses" caption in the consolidated statement of income. At December 31, 2016 and 2015, Compartamos Financiera recorded a provision of \$19 and \$10, respectively, for ESPS, recognizing this amounts in the aforementioned caption.

### (17) Sundry creditors and other accounts payable-

At December 31, 2016 and 2015, the balance of this caption is comprised as follows:

|   | 2016        | 2015  |
|---|-------------|-------|
| Capitalized lease liabilities (note 11) | \$<br>10    | 14    |
| Social security contributions           | 139         | 41    |
| Other taxes                             | 315         | 382   |
| Labor liabilities (note 15) (*)         | 389         | 131   |
| Sundry provisions                       | 818         | 443   |
| Sundry creditors                        | 817         | 745   |
|   | \$<br>2,488 | 1,756 |

(\*) Includes \$39 and \$13, at December 31, 2016 and 2015, respectively, of labor liability mainly from the subsidiaries abroad.

### Following is the analysis of the most significant provisions for the years ended December 31, 2016 and 2015.

| Other                 | 71        | 36   |
| Total provisions      | \$<br>811 | 443  |

# (18) Institute for the protection of bank saving (IPAB-Spanish abbreviation)-

The Bank Savings Protection Law entered into force on January 20, 1999 as part of the measures adopted by the federal government to deal with the economic crisis arising in late 1994. The law provides for the creation of the IPAB to replace the Bank Savings Protection Fund.

The purpose of the IPAB is to apply a series of preventive measures designed to avoid financial problems, which can affect banks and ensure compliance with bank obligations towards their depositors.

The IPAB manages the Bank Savings Protection System, which is gradually restructured as per the established transition guidelines. The new System for the Protection of Bank Savings, in effect since 2005, comprises, among other changes, the protection of deposits from the general public amounting to the equivalent of 400,000 UDI (approximately \$2.22 and \$2.15 at December 31, 2016 and 2015, respectively), excluding interbank deposits and those payable to its stockholders and upper bank management, among others.

Fees paid to the IPAB during the years ended December 31, 2016 and 2015, amounted to \$60 and \$52, respectively, which were charged directly to the results of the year.

## (19) Stockholders' equity-

### a) Structure of capital stock and movements of stockholders' equity-

Gentera was incorporated with a minimum fixed capital of fifty thousand Mexican pesos and unlimited variable capital.

### 2016 movements-

At the April 20, 2016, Ordinary General Stockholders' Meeting, it was resolved to restitute the fund for the acquisition of own shares for \$140. During 2016, some shares were repurchased for an amount of \$90. Furthermore, an increase of the statutory reserve for \$158 was approved. In the same Stockholders' Meeting, it was decided to declare and pay dividends for \$1,253, equivalent to \$0.77 Mexican pesos per share, which was paid on May 13, 2016 through S. D. Indeval, S. A. de C. V. Instituto para el Depósito de Valores (Institution for the Custody of Securities in Mexico). In addition, the shareholders authorized the cancellation of 6,784,489 common shares without nominal value expression corresponding to the variable capital that Gentera held in treasury.

### 2015 movements-

At the April 24, 2015, Ordinary General Stockholders' Meeting, it was resolved to restitute the fund for the acquisition of own shares for \$185. During 2015, some shares were repurchased for an amount of \$166. Furthermore, an increase of the statutory reserve for \$156 was approved. In the same Stockholders' Meeting, it was decided to declare and pay dividends for \$1,241, equivalent to \$0.76 Mexican pesos per share, which was paid on May 15, 2015 through S. D. Indeval, S. A. de C. V. Instituto para el Depósito de Valores (Institution for the Custody of Securities). In addition, the shareholders was authorized the cancellation of 9,482,809 common shares without nominal value expression corresponding to the variable capital that Gentera held in treasury.

Gentera's subscribed and paid capital at December 31, 2016 and 2015, is comprised as follows:

| 2016     |               |  |    |        |  |  |  |
|----------|---------------|--|----|--------|--|--|--|
| Series   | Shares        | Description  |    | Amount |  |  |  |
| "Unique" | 415'595,676   | Minimum fixed capital with<br>no withdrawal rights | \$ | 1,201  |  |  |  |
|          | 1,216'302,554 | Variable capital                                   |    | 3,563  |  |  |  |
|          | 1,631′898,230 | Capital stock                                      | \$ | 4,764  |  |  |  |

|          | 2015          |  |    |        |  |  |  |  |
|----------|---------------|--|----|--------|--|--|--|--|
| Series   | Shares        | Description  |    | Amount |  |  |  |  |
| "Unique" | 415'595,676   | Minimum fixed capital with<br>no withdrawal rights | \$ | 1,201  |  |  |  |  |
|          | 1,223'087,043 | Variable capital                                   |    | 3,563  |  |  |  |  |
|          | 1,638'682,719 | Capital stock                                      | \$ | 4,764  |  |  |  |  |

### b) Restrictions on stockholders' equity-

The General Corporations Law requires the Company to separate annually 5% of their profits to constitute the statutory reserve until it reaches 20% of the capital stock.

Dividends paid are not subject to IT if they are paid from the net tax profit account (CUFIN -Spanish abbreviation). Any dividends paid in excess of this account will cause IT. The current tax will be payable by Gentera and may be credited against its IT in the same year or the following two years.

Dividends paid to individuals and resident abroad shall be subject to an additional tax of 10% with a definitive character, which shall be retained by the entities to distribute the dividends. The new rule applies only to the distribution of profits that are generated from January 1st 2014.

In the event of a capital reduction, the provisions of the IT Law state any excess of stockholders' equity over capital contributions, to be accounted with the same tax treatment as dividends.

### c) Capitalization requirements (unaudited)-

The Ministry of Finance and Public Credit (SHCP-Spanish acronym) requires banks to have a percentage of capitalization on assets at risk, which are calculated by applying certain percentages depending on assigned risk. As of December 31, 2016 and 2015, the Bank had complied with the percentage.

### Minimum capital stock-

The Bank's subscribed and paid-in minimum capital is equivalent, in Mexican pesos, to the value of ninety million UDIs. The minimum capital stock required for the Bank to operate must be subscribed and paid-in. When the capital stock exceeds the minimum, at least 50% must be paid-in, provided this percentage is not below the established minimum.

In order to comply with minimum capital requirements, the Bank can consider the net capital held, as per the provisions of article 50 of the Law of Credit Institutions. At no time net capital can be less than minimum capital.

### Capitalization-

### Net capital-

The Bank maintains a net capital related to the market, credit and operating risk to which it is exposed, and which is not lower than the sum of the capital requirements for the aforementioned risks, in terms of the Capitalization Requirement Rules for Multiple Banking Institutions issued by the SHCP.

At December 31, 2016 and 2015, the Bank is in compliance with the capitalization rules, which require the Bank to maintain a certain net capital in relation to market and credit risks incurred in its operations, which may not be lower than the total amount from adding up capital requirements for both types of risk.

### Capitalization index of the Bank-

Capitalization rules for financial institutions establish requirements for specific levels of net capital, such as a percentage of assets subject to market, credit or operational risk. The Bank's capitalization Index (ICAP by its acronym in Spanish) as of December 31, 2016 is 27.51% according to the current rules. As of December 31, 2015 is 29.05%.

The ICAP on assets subject to credit risk ("ASRC" by its acronym in Spanish) as of December 31, 2016 and 2015, is 36.76% and 34.77%, respectively.

### Following are the most relevant items of the ICAP at December 31, 2016 and 2015:

|  | 2016         | 2015   |
|--|--------------|--------|
| Assets in market risk                  | \$<br>1,696  | 1,495  |
| Assets in credit risk                  | 26,284       | 23,855 |
| Assets in operational risk             | 7,141        | 3,196  |
| Total risk assets                      | \$<br>35,121 | 28,546 |
| Net capital                            | \$<br>9,661  | 8,293  |
| Ratio on assets subject to credit risk | 36.76%       | 34.77% |
| Ratio on assets subject to total risk  | 27.51%       | 29.05% |

The Bank's net capital requirement derived from its exposure to credit risk must be at a minimum ICAP of 10.5%, which is the result of multiplying the weighted assets for which the standard method was used.

The net capital is determined as follows:

|   | December 31,   |           |  |
|---|----------------|-----------|--|
|   | 2016           | 2015      |  |
| Stockholders' equity <sup>1</sup>                       | \$<br>10,918.0 | 9,321.0   |  |
| Deferred taxes, asset from tax differences              | (1.6)          | (2.0)     |  |
| Deduction of intangibles and deferred expenses or costs | (1,255.4)      | (1,025.8) |  |
| Basic capital   | 9,661.0        | 8,293.2   |  |
| Complementary capital                                   | -              | -         |  |
| Net capital   | \$<br>9,661.0  | 8,293.2   |  |

1 As of December 31, 2016 and 2015, the computation only considers the following capital accounts: i) capital stock, ii) statutory reserves, iii) prior years' results, iv) net income, v) valuation of available-for-sale securities and vi) remeasurements for employees defined benefit . All this in accordance with the modification of the Article 2 Bis, Section I, subsection a) of the General Provisions applicable to Credit Institutions, issued in the Official Gazette on November 28, 2012.

According to Article 220 of the Dispositions applicable to Credit Institutions, issued in the Official Gazette on December 2, 2005 and subsequent amendments, the Bank has as of December 31, 2016 a Fundamental Capital Ratio (CCF by its acronym in Spanish) higher than 0.7 plus the sum of the Systemic Countercyclical Supplement Capital (SCCS by its acronym in Spanish) and the Countercyclical Supplement Capital Ratio (SCCI by its acronym in Spanish), a Ratio of Basic Capital higher than 0.085 for the years of 2016 and 2015, plus the sum of SCCS and SCCI and an ICAP higher than 10.5%, for both years, plus the sum of SCCS and SCCI. Therefore the Bank is classified in the "I" category in accordance with the aforementioned provisions in both years.

The Ratio of Basic Capital 1 and the Ratio of Basic Capital, is determined as follows:

RBC1 = (Basic Capital 1 / Weighted Assets subject to Total Risks) / ICAPM RBC = [(Basic Capital 1 + Basic Capital 2) / Weighted Assets subject to Total Risks] - / ICAPM ICAPM = Ratio of minimum capitalization.

Multiple banking institutions will be notified by the Commission of their rating with respect to their categories, as well as the applicable minimum corrective measures and/or special additional measures.

Special additional corrective measures could be applied by the Commission in addition to minimum corrective measures, which, depending on the category, could include the requirement to issue more detailed reports to the Board of Directors of those institutions and the Commission, and hiring special auditors to deal with specific questions with external auditors authorized by the Commission, to the replacement of officers, directors, statutory auditors, the modification of interest rate policies and the withdrawal of the multiple banking institution's operating authorization.

### Market risk-

The capital required for the position of assets at market risk of the Bank as of December 31, 2016 and 2015 is as follows:

|  | Amount of the<br>positio | •       | Capital requirement |       |  |
|--|--------------------------|---------|---------------------|-------|--|
| ltem   | 2016                     | 2015    | 2016                | 2015  |  |
| Operations at nominal rate in local currency                                 | \$ 1,033.4               | 1,451.1 | 82.7                | 116.1 |  |
| Operations at nominal rate in foreign currency                               | 0.5                      | -       | 0.04                | -     |  |
| Shares and on shares<br>positions  | 30.8                     | -       | 2.5                 | -     |  |
| Positions in foreign currency<br>or with return indexed to<br>exchange rates | 631.7                    | 43.5    | 50.5                | 3.5   |  |
|  | \$ 1,696.4               | 1,494.6 | 135.74              | 119.6 |  |

### Credit risk-

The amount corresponding to weighted assets subject to credit risk and their respective capital requirements of the Bank as of December 31, 2016 and 2015 is shown below per risk group and item:

|                               | Risk-weighted assets |          | Capital ree | quirement |         |
|-------------------------------|----------------------|----------|-------------|-----------|---------|
|                               |                      | 2016     | 2015        | 2016      | 2015    |
| Risk group:                   |                      |          |             |           |         |
| Group III (weighted at 20%)   | \$                   | 345.6    | 234.4       | 27.6      | 18.8    |
| Group III (weighted at 50%)   |                      | 200.1    | -           | 16        | -       |
| Group III (weighted at 100%)  |                      | 250.6    | 7.7         | 20        | 0.6     |
| Group VI (weighted at 100%)   |                      | 23,111.0 | 21,520.3    | 1,848.9   | 1,721.6 |
| Group VII (weighted at 20%)   |                      | 82.8     | -           | 6.6       | -       |
| Group VII (weighted at 115%)  |                      | 295.7    | 178.7       | 23.7      | 14.3    |
| Group VIII (weighted at 150%) |                      | -        | 233.1       | -         | -       |
| Permanent investments         |                      | 1,998.5  | 1,859.8     | 159.9     | 148.8   |
| and other assets              |                      |          |             |           |         |
| Total credit risk             | \$                   | 26,284.3 | 24,034.0    | 2,102.7   | 1,904.1 |

### **Operational risk-**

The capital requirement from its exposure to operational risk for December 2016 is \$571.2, while in 2015 was \$255.7, both equivalent to the corresponding percentage, as established in the Article 2 Bis 112 of the capitalization requirements for multiple banking institutions, of the average of 15% of the requirement for market and credit risks and credit for 2015 and of 30%, in 2016.

Capital requirements are calculated periodically and the sufficiency of the capital is evaluated. At December 31, 2016 and 2015, the Bank has maintained 18 and 20 basis points in average, higher than the current regulatory limit (10.5%) of ICAP.

### Leverage index-

From the year ended on December 31, 2016, the Commission established the rule for calculating the leverage index, which considers the follows:

| Basic capital                                       | \$<br>9,661  |
|---|--------------|
| Accounting assets                                   | \$<br>31,567 |
| Deductions  | \$<br>1,257  |
| Derivatives   | \$<br>-      |
| Repurchase/resell agreements and loan of securities | \$<br>-      |
| Leverage index                                      | 26%          |

### d) Bank's agencies credit rating-

As of December 31, 2016 and 2015 the Bank obtained the following agencies credit rating in both years:

| Agency              | Domestic ranking      | Global ranking |
|---------------------|-----------------------|----------------|
| Fitch Ratings (1)   | 'AA+(mex) / F1+(mex)' | BBB / F2       |
| Standard&Poor´s (2) | 'mxAAA / mxA-1+'      | BBB / A-2'     |

(1) Ratified rating on December 15, 2016. (2) Ratified rating on August 17, 2016.

### (20) Commitments and contingent liabilities-

Gentera has entered into a number of lease agreements for its head office and service offices from which it performs its transactions. The average terms of these agreements range from two to five years. Rent payments to be made over the next five years amount to \$1,304 (\$339 in 2017, \$285 in 2018, \$249 in 2019, \$222 in 2020, and \$209 in 2021).

Compartamos Servicios entered into a lease agreement of a building for the exclusive use of corporate offices, the amount of the rent is in dollars and it was translated into Mexican pesos as of April 1, 2013, date when conditions are met to occupy the building. The term of the agreement is for a period of 126 months, starting on October 1, 2012, and ending on March 31, 2023, paying a total of 44,889,935 dollars to an exchange rate of \$12.62 Mexican pesos per dollar, during the aforementioned period. For the payment of the rent Gentera has a grace period of six months to condition the property for its use beginning on October 1, 2012.

The majority of the lease agreements for the service offices are based on Gentera's templates, containing the following clauses: purpose, intent, duration, rent, guarantee deposit, form of payment, expense, additional obligations, rescission, returning of the building, maintenance and leasehold improvements, privation, non-compliance, contractual penalty, modifications, notices and notifications, assignment, absence of flaws and jurisdiction.

Most of the agreements establish the option of early termination for Gentera, prior notification to the lessor in writing.

For the most part, contract renewals require that the lessor respect the preemptive right established in the legislation, as well as signature of a new lease agreement in the same terms and conditions set forth in the expiring agreement. The lessor is to grant Gentera 60 days prior to expiration of the agreement to conduct the renewal.

Gentera will enjoy a term of 10 business days as from the first working date after the lesser delivers the agreement, in order for the former to decide whether or not to sign the agreement.

Gentera does not sign lease agreements with an option to buy.

All of the lease agreements are guaranteed with cash deposits, which are the equivalent to 1 or 2 months' rent, as the case may be. Under no circumstances does Gentera offer additional guarantees.

Rent agreements are paid on a monthly basis and are updated annually and increases are determined based on the National Consumer Price Index published by Central Bank the previous month prior to signing the agreement supporting said increase.

In most cases, the annual increase is capped to 10% of the rent price paid the prior year, in the event of macroeconomic contingencies, this percentage will be applied.

Rent increases must be supported through an amending agreement, to be signed 30 days prior to the date on which the rent is to be increased.

Gentera's lease agreements do not consider caps on dividend payments and debt contracting.

For the years ended on December 31, 2016 and 2015, lease payments were recorded in the consolidated income statement for \$562 and \$384, respectively.

The Bank is involved in several claims and trials, derived from the normal course of its operations, according to the opinion of its legal counsels and the assessment made by management, there are elements of defense in which exists a probability to obtain a favorable outcome. As part of those claims, up to date stands out the nullity trials and claims brought by the Mexican Internal Revenue Service (SAT-Spanish acronym) for fiscal years 2006, 2007, 2010 and 2011, whose claim comes mainly from the difference in the criteria applied up to 2011 for determining the ESPS; the amounts observed by the SAT, regarding to ESPS are \$74, \$97, \$200, and \$215 for the same years, respectively. In addition, the Bank have other claims filed by the SAT related to fiscal years 2006, 2007 and 2009, whose complaint comes from other concepts related to differences in deductibility criteria applied to the IT, which amount to \$19, \$21 and \$3, respectively.

Compartamos Servicios is involved in several claims and labor trials, derived from the demands of exemployees, whose effects are not expected to have material effect.

## (21) Balances and operations with related parties-

During the normal course of operations, Gentera conducted transactions with related parties.

Related parties are defined as either individuals or entities holding direct or indirect control of 2% or more of the shares representing Gentera's capital and the members of the Board of Directors.

Also considered as related parties are entities, as well as the advisors and officers thereof, in which Gentera has direct or indirect control over 10% or more of their shares.

The total sum of operations with related parties did not exceed 50% of the basic portion of the Bank's net capital, as set out in article 50 of the Law of Credit Institutions.

For the years ended on December 31, 2016 and 2015, Gentera granted to key management personnel, short term direct benefits for \$247 and \$188, respectively.

The main transactions celebrated with related parties for the years ended on December 31, 2016 and 2015, are as follows:

|                                | 2016     | 2015 |
|--------------------------------|----------|------|
| Donations expenses             | \$<br>8  | 8    |
| Income from associate interest | \$<br>23 | 4    |

# (22) Additional segments information-

Gentera has consumer, commercial and mortgage loans, thus its source of income is derived from interest of the loan products offered, in addition to the products of treasury operations, such as interest from investments in securities and repurchase/resell agreements. Liability transactions include demand and time deposits, debt securities issued and bank and other loans, from which interest expenses arise.

Out of the total income earned by the Bank (main subsidiary) for the years ended December 31, 2016 and 2015, 96% and 97% came from its loan operation. Consequently, the resources of deposit funding and bank and other loans obtained during the year were primarily used for the placement of loans, therefore the accrued interest are identified by the credit segment, same trend is reflected in administrative expenses. The remaining operations (approximately 4% and 3% of the operation of the Bank for 2016 and 2015, respectively) are the treasury segment and commissions from insurance operations.

### Financial margin-

For the years ended on December 31, 2016 and 2015, the financial margin is shown as follows:

### Interest income:

Loan portfolio interest Interest on cash and cash equivalents Interest arising from investments in securities Interest from repurchase/resell agreements Placement premium

### Interest expense:

Demand and time deposits Cebures (includes amortization of issuance expenses of \$1 and \$19 in 2016 and 2015, respectively) Bank and other loans Foreign exchange losses

### Interests and commissions per type of loan-

Interests and commissions per type of loan, for the years ended on December 31, 2016 and 2015, are comprised as follows:

|                         | 2016 |                  |    | 2015    |          |  |
|-------------------------|------|------------------|----|---------|----------|--|
|                         |      | Current Past-due |    | Current | Past-due |  |
| Interest income         |      |                  |    |         |          |  |
| Commercial loans:       |      |                  |    |         |          |  |
| Business and commercial | \$   | 213              | -  | 145     | -        |  |
| Consumer loans          |      | 19,598           | 10 | 17,007  | 5        |  |
| Residential mortgages   |      | 7                | -  | 10      | -        |  |
|                         | \$   | 19,818           | 10 | 17,162  | 5        |  |

|   | 2016         | 2015   |
|---|--------------|--------|
|   |              |        |
|   | \$<br>19,828 | 17,167 |
|   | 183          | 91     |

## (23) Comprehensive risk management (CRM) from the Bank, main subsidiary (unaudited)-

The Bank recognizes that the essence of its business is to assume risks in seeking potential financial and social returns. Consequently, CRM is a core component of the business' strategy for identifying, measuring, overseeing and controlling the different types of risks faced during the normal course of operations.

The Bank's CRM is considered to be an on-going process involving all levels of management. The structure for the Bank's CRM is based on the following guidelines:

- a. Commitment by Top Management and the Board of Directors to properly manage risks encountered.
- b. Ongoing supervision of CRM policies and procedures.
- c. Clear segregation of duties to ensure independence and objectivity in risk management.
- d. Formal cooperation between the CRM structure and the business units.
- e. Clear determination of responsibilities pertaining to CRM.

f. On-going supervision of the Internal Control and Audit area, to ensure proper compliance with CRM duties.

The Board of Directors has set up a Risk Committee to ensure that operations are conducted in line with the objectives, policies and procedures for CRM, as well as with the exposure limits approved by said committee. This committee meets at least once a month and works in accordance with the quidelines set out in the General dispositions applicable to credit institutions.

The Risk Committee is aided by the Comprehensive Risk Management Unit (CRMU) for identification, measurement, oversight and disclosure of risks as per the General Provisions Applicable to Credit Institutions in effect and applicable best practices.

CRMU is mainly based on the determination of a structure of global and specific limits, and on applying of risk methodology authorized by the Board of Directors.

### Credit risk-

Credit risk management considers: identification, guantification, establishing of limits, risk policies and risk monitoring, potential losses due to borrower or counterparty default in operations with financial instruments.

The Bank's loan portfolio at December 31, 2016 and 2015 is made up in 100% of loans made to individuals for a specific purpose (consumer portfolio) in Mexican pesos. The consumer portfolio is sufficiently diversified to represent no concentration risk and there is a scarce value of individual positions. In accordance with the criteria set forth in paragraph 70 of "International convergence of capital measurements and capital standards" Basel II, the Bank's loan portfolio can be classified as retail portfolio.

As of December 31, 2016 and 2015, the portfolio is comprised for 3.4 and 3.3 million loans, respectively, as well the average outstanding balance in this dates has remained at approximately \$6,983 and \$6,556 Mexican pesos, respectively at an average term of five and four months, respectively.

The maximum authorized amount for a loan is \$200,000 Mexican pesos in 2016 and \$150,000 Mexican pesos in 2015, as a result of which, the maximum financing limits established in the provisions for one individual or group of individuals representing a common risk were complied with no exceptions. In addition, no operations were conducted with customers considered an individual or group of individuals who, comprising one or more liability operations payable by the Bank, exceeded 100% of the basic capital.

Analyses of quality of the loan portfolio and credit risk rating thereof are conducted at least monthly. Loans are rated as per the methodology mentioned in note 3(h).

Rating-based distribution of the loan portfolio, that could be interpreted as the risk profile of the Bank's loan portfolio, shows its greatest concentration in rating A-1, current loan portfolio.

For comparative and sensitivity purposes, following is a table which considers the modification of the Article 129 of the General Provisions Applicable to Credit Institutions.

### **Consumer loans**

|        | Distribution of the loan portfolio by rating (data in percentages to the total loan portfolio) |         |         |         |  |  |  |
|--------|--|---------|---------|---------|--|--|--|
|        | 20   | 16      | 20      | 15      |  |  |  |
| Rating | Balance  | Average | Balance | Average |  |  |  |

| Total  | 100.0  | 100.0   | 100.0   | 100.0   |  |  |  |

### Expected loss and loss given default weighted for exposition

Total exposure

Expected loss (exposure weighted) (%) Loss given default (exposure weighted) (%)

The measurement methodology used in calculating expected and unexpected losses arising from the portfolio's credit risk is a Credit Risk+ model, which generates a thousand scenarios for each loan pertaining to the portfolio considered. The risk exposure which includes the model is the loan portfolio that has shown no default at the date of the analysis, defining default as an event in which a loan has not been paid adequate and timely.

The expected loss is calculated, multiplying the exposure of the operation by the pobability of default by the borrower, using the aforementioned rating model for assigning of probability of default, mentioned above.

| 2016 |        | 2015   | Variation<br>(%) |
|------|--------|--------|------------------|
| \$   | 25,063 | 22,850 | 9.68             |
| \$   | 9.13   | 7.08   | 28.95            |
|      | 75.34  | 75.34  | -                |

### Commercial loan portfolio

| Consumer loan portfolio:       |              |         |         |         |  |  |  |
| Total exposure                 | \$<br>25,063 | 25,113  | 22,165  | 20,229  |  |  |  |
| Expected loss                  | 1,164        | 1,567   | 332     | 269     |  |  |  |
| Unexpected loss at 95%         | 1,672        | 1,575   | 335     | 271     |  |  |  |
|                                | =====        | =====   | =====   | =====   |  |  |  |
| Expected loss/total exposure   | 6.64%        | 6.24%   | 1.5%    | 1.3%    |  |  |  |
| Unexpected loss/total exposure | 6.67%        | 6.27%   | 1.5%    | 1.3%    |  |  |  |

The expected loss pertaining to the portfolio under consideration as of December 31, 2016 represents 6.64% of the overall balance exposed to default. The Bank has set up loan loss reserves totaling \$1,695, equivalent to 6.76% of the balance of the overall portfolio. As of December 31, 2015, the expected loss was of 1.5% and the allowance amounted to \$1,175; 5.14% with respect to the balance of the overall portfolio at such date. The loan portfolio is rated in accordance with the rules for rating the loan portfolio issued by the SHCP and the methodology established by the Commission. The Bank only sets up allowance for loan losses in addition to those created as a result of the portfolio rating process, in compliance with Title Two, Chapter I, Section Four of Article 39 of the General Provisions Applicable to Credit Institutions. As of December 31, 2016 and 2015, no additional allowance for loan losses were required (note 9).

Expected and unexpected losses are calculated on a monthly basis under different scenarios (sensitivity analyses), including stress scenarios. The results of the analysis are presented to the areas involved in portfolio risk management, to the Chief Executive Officer's Office and to the Risk Committee.

At December 31, 2016, income from loan operations amounted to \$17,301, representing 99.3% of the Bank's total income, compared to the same item at December 31, 2015, the variation in income, in percentage terms is 9.4%.

### Income from loan operations

|                                 | 2016         | 2015   | Variation (%) |
|---------------------------------|--------------|--------|---------------|
| Loan income                     | \$<br>17,301 | 15,805 | 9.4%          |
| Total income                    | \$<br>17,420 | 16,305 | 6.8%          |
| Income from loan operations (%) | 99           | 97     | 2.1%          |

With respect to credit risk management for operations with financial instruments or counterparty risk, the credit risk exposure in operations with financial instruments, and the expected and unexpected loss thereof, are calculated on a daily basis. Such allowance is part of the daily report on market risk. As of December 31, 2016, the position in financial instruments subject to counterparty risk totals \$2,238; 100% in Call Money operations. The expected loss pertaining to counterparty risk is 1.36% of the overall exposure. In comparison, as of December 31, 2015, the Bank's position in financial instruments subject to counterparty risk totaled \$1,150; 100% in call money operations with an expected loss from counterparty risk of 0.5%, with respect to the overall exposure.

The methodology for managing credit risk in financial operations consists of an economic capital type model which generates an allocation of capital that must be available to cover the losses.

Probability of default: This information is obtained from the next sources: 1) Standard & Poors, rating granted to financial institutions based on their rating scale known as CAVAL over the long term; 2) Moody's, as with S&P, according to the rating granted over the long-term; 3) Fitch, is the third source for learning the rating granted by this agency, 4) HR Ratings and VERUM (these authorized rating agencies, according to the Appendix 1-B of the General Provisions for Banks), and 5) in the event the Bank has no rating from any of the three agencies, an average rating is assigned according to its group. The above grouping refers to the group to which it pertains in the market (P8, AAA, P12, other). In the event of rating differences, the lowest rating is used.

Following is the exposure to counterparty risk for purchase/sale of securities and interbank loans as of December 31, 2016 and 2015, as well as the maximum exposure to such risk during these years, are as follows:

|                             | Exposure to counterparty risk<br>at December 31, 2016 |                       |                     |                                  |  |  |

| Call Money                  | \$ | 1,150  | 5.8                 | 100%                             |  |  |  |

\* The authorized counterparty risk limit is 8% of the product related to the ASRC of the Bank's latest known net capital. The ASRC product x ICAP of the period was \$6,918.

Due to the nature of its business, it is the Bank's policy not to conduct brokerage operations or to act as issuer of derivative products.

### Market risk-

Market risk management considers, at least, identification, quantification and establishing of limits and monitoring of risks arising from changes in the risk factors affecting the valuation or expected results of asset or liability operations or those giving rise to contingent liabilities.

As of December 31, 2016 and 2015, the Bank's portfolio of financial instruments subject to market risk is comprised solely of Call Money. As a result, the main risk factors that could affect the value of the investment portfolio are interest rates, spreads, and the prices of other financial instruments. It should be mentioned that the Bank's treasury operation is limited to investment of cash surpluses from the credit operation.

The process for risk measurement of risk assumed by the Bank to manage this type of risk is the Value at Risk (VaR), which is calculated on a daily basis. VaR is an estimation of the potential loss in value of a determined period of time given the level of confidence. The method used by the Bank is the historical simulation method.

Parameters used in calculating the VaR.

- Method: Historical simulation
- Confidence level: 99%
- Investment horizon: one day
- Number of observations: 252 days
- Weighting of scenarios: Equally probable

### Following is the quantitative information for market risk as of December 31, 2016:

|                             | Value at Risk, 1 day (VaR) on December 31, 2016 |       |            |            |                                  |  |  |

| Purchase of securities      | \$  | -     | -          | -          | -                    |  |
| Call Money                  | \$  | 1,150 | 0.01       | 0.001      | 32                   |  |
| Derivatives <sup>3</sup>    | \$  | -     | -          | -          | -                    |  |
| Foreign currencies          | \$  | 29    | 0.41       | 1.400      | 1                    |  |
| Equity                      | \$  | -     | -          | -          | -                    |  |

- 1. The authorized risk limit is calculated based on the maximum exposure, at December 31, 2015 with an exposure of \$1,179 corresponds a limit of \$300,000 Mexican pesos.
- 2. The positions subject to market risk referred to are call money operations.
- 3. There are no derivative operations for trade or hedge purposes.

The market VaR is calculated daily, including the main positions, asset and liability, subject to market risk shown in the balance sheet, which is also used for interest rate risk management. The daily average VaR of the Bank in 2016 was \$2,512,396 Mexican pesos, corresponding to 24% of the limit calculated exposure as of December 31, 2016. The daily average VaR held in 2015 was \$237,628 Mexican pesos, corresponding to 79.2% of the last ASRM product x ICAP known as of December 31, 2015.

As part of the market-risk management process, backtesting, sensitivity and stress scenario tests are conducted.

Backtesting is conducted monthly to compare the losses and gains that would have been observed had the same positions been maintained, considering only the change in value due to market movements, against the calculation of the VaR. This allows for evaluating the accuracy of the prediction. To date, testing has been highly effective by more than 97%.

The sensitivity analyses conducted periodically normally considers movements of ±100 base points in rates or risk factors. Whereas to generate stress scenarios, movements of  $\pm 150$  base points are considered in rates or risk factors.

On the next page the sensitivity and stress tests conducted as of December 31, 2016 and 2015, respectively are shown.

|                        |    | Sensitivity analysis as of December 31, 2016 |            |                        |                  |  |  |

### Liquidity risk-

Liquidity risk management includes, at least, identification, measurement and establishment of limits and follow up on risks or potential losses arising from the impossibility or difficulty of renewing liabilities or of contracting others under normal Institution conditions due to early or forced sale of assets at unusual discounts to settle its obligations, or to the fact that a position cannot be promptly sold, acquired or hedged by means of establishing an equivalent contrary position.

The Bank's business model is based on its reputation as a solid institution that always responds to its customers' credit needs. Therefore, liquidity risk management is an essential element for timely prevention of the differences arising from the possible "gap" between its main positions in terms of liquidity risk: expected cash flows (payments on current loans) and projected outflows (current expenses, placement of new loans).

The measurement methodology used in liquidity risk management is:

- Liquidity gap analyses consider the Bank's main assets and liabilities, whether recorded on or off the balance sheet, establishing maturity bands according to the characteristics of the products offered. A limit is established for each bucket.
- Liquidity Value at Risk (liquidity VaR) for measurement of the market's liquidity risk determines the possible inability to liquidate positions in one day and is calculated in the same way as the market VaR with a 10-day horizon.

As of December 31, 2016, the quantitative information for the analysis of liquidity gaps is as follows:

| Analysis of liquidity gaps (accumulated) <sup>1</sup> |         |        |                  |  |  |  |  |
|---|---------|--------|------------------|--|--|--|--|

 $\,\,^{*}$  The authorized risk limit is calculated as a percentage of the total liquid assets plus available lines.

2 The calculation of the accumulated gaps is presented in order to clarify the period, where a gap of liquidity exists

The liquid assets plus available lines as of December 31, 2015 were \$10,606.

Differences in flows (gaps) show excesses (greater asset flows than liability flows) in the first buckets, which is natural for the type of operations handled by the Bank, as 90% of the assets considered correspond to cash flows arising from recovery of loans with an average term of four months and investments at terms below 180 days, while liability flows correspond to financing contracted at the short and medium term maturity date, giving rise to a positive accumulated gap over 360 days, at the end of 2016, of \$16,499. The overall accumulated gap is negative.

At December 31, 2016 the quantitative information for liquidity risk of the Bank, is as follows:

| VaR Liquidity, 10 days                       |    |      |        |       |  |  |
|--|----|------|--------|-------|--|--|
| 2016<br>Value Position (%) Use of limit (%)* |    |      |        |       |  |  |
|  |    |      |        |       |  |  |
| VaR liquidity at 99%                         | \$ | 25.2 | 0.96%  | 75.8% |  |  |
| Money  |    |      |        |       |  |  |
| Purchase of securities                       |    | -    | -      | -     |  |  |
| Call Money                                   |    | 0.28 | 0.01%  | 0.9%  |  |  |
| Foreign currencies                           | \$ | 24.9 | 0.095% | 74.9% |  |  |

\* The authorized risk limit is calculated based on the maximum exposure at December 31, 2016 with an exposure of \$2,604 corresponds a limit of \$33,203,915 Mexican pesos.

menu

The Bank net capital as of December 31, 2016 is \$9,775.

At December 31, 2015 the quantitative information for liquidity risk of the Bank, is as follows:

| VaR Liquidity, 10 days               |    |      |        |        |  |  |
|--------------------------------------|----|------|--------|--------|--|--|
| 2015                                 |    |      |        |        |  |  |
| Value Position (%) Use of limit (%)* |    |      |        |        |  |  |
| VaR liquidity at 99%                 | \$ | 1.34 | 0.115% | 33.42% |  |  |
| Money                                |    |      |        |        |  |  |
| Purchase of securities               |    | -    | -      | -      |  |  |
| Call Money                           |    | 0.04 | 0.004% | 1.28%  |  |  |
| Foreign currencies                   | \$ | 1.30 | 0.111% | 32.14% |  |  |

\* The authorized risk limit is calculated based on the maximum exposure at December 31, 2015 with an exposure of \$1,179 corresponds a limit of 950,000 Mexican pesos.

The Bank net capital as of December 31, 2015 is \$8,293.

The average liquidity VaR for 2016 was 7,944,895 Mexican pesos, equivalent to 24% of the limit calculated at December 31, 2016 (33,203,915 Mexican pesos). Sensitivity and stress tests are also conducted for liquidity risk management. The average liquidity VaR for 2015 was 751,446 Mexican pesos, equivalent to 18% of Institution's net capital as of December 31, 2015 (4,100,000 Mexican pesos).

Diversification of the Bank's sources of financing are assessed periodically, assuming the related risk limits established in Chapter III of the General Provisions Applicable to Credit Institutions on Risk Diversification for conducting Asset and Liability Operations. The diversification is evaluated through the aforementioned liquidity indicators, aforementioned above.

Additionally, in complying with the General Provisions Applicable to Credit Institutions, there is a Liquidity Contingency Plan in place, the purpose of which is to ensure that the Bank will be able to face its daily obligations under any circumstances, including a liquidity crisis; said Plan has been included in the policies and procedures manual for CRMU.

Operational risk (including legal and technological risk).

Operational risk can be defined as the potential loss due to defects or deficiencies in internal controls resulting from errors in processing and storing operations or in the transmission of information, as well as to adverse administrative and legal rulings, fraud or theft, and it includes legal and technological risks.

In the Bank's methodology, management and control of operational risks include the following matters, among others:

The processes that describe each area's duties are identified and documented. The Bank has areas engaged in developing and documenting methods, procedures and processes under the Internal Control Director's Office.

Inherent operational risks and the controls pertaining to the processes that describe the Bank's substantial processes under "Risk and Control Matrixes" are identified and documented. Additionally, the internal audit area has implemented its audit model based on risks.

Consequences for the business arising from materialization of identified risks are assessed and reported to the heads of the areas involved, to the Chief Executive Officer and the Risk Committee. Each area must be aware of and participate in the control and management of own risks.

A historical database is maintained through systematic recording of the different loss events and their effects on the accounting records. Those events are duly identified through classification per business unit within the Bank, and are recorded in the Operational risk system.

A global level of tolerance has been established for operational risks, taking into account the causes, origin and risk factors thereof.

Loss events identified by both the Risk area and the other Institution's areas are recorded, which are responsible for reporting any operating risk event that could arise or that has represented a loss for the Bank, the mentioned above environment of a culture of risk.

Loss events related to operational risks, including technological and legal risks, are recorded systematically, with an association to the corresponding lines of business or business units, as well as to the type of loss. The Bank considers events of fraud or asset damage to be its main exposures.

Business Continuity Plan (BCM) is in process of implementation, which includes a Disaster Recovery Plan (DRP) focusing on technological risks, as well as a Business Contingency Plan (BCP). Special officers are designated to ensure that such plans are duly updated.

### Technological risk-

One important aspect of operational risk management is that pertaining to technological risk, which involves potential loss due to damage or failure from use or reliance on hardware, software, systems, applications, networks and any other means of conveying information in the Bank's supply of services to its customers. There are policies and procedures in place intended to minimize the negative impacts of materialization of technological risks such as: historical filing of all operations and transactions entered into, daily reconciliations, contingency policies in the event of: electrical power failure, communication failure, acts of vandalism, and natural disasters, among others.

Due to the nature and characteristics of the market served by the Bank, there are no channels of distribution for banking operations conducted with customers via the Internet.

### Legal risk-

With respect to legal risk management, the Bank has implemented policies and procedures for minimizing this risk, which include the following matters:

- I. The review and approval of all agreements by the Legal Director's Office to ensure proper instrumentation of agreements and contracts.
- II. Detailed management of powers granted to the Board of Directors, so as to avoid misuse.

III. Procedures for filing and safeguarding agreements and other legal information.

IV. Preparation of reports on the likelihood of issuance of adverse legal or administrative rulings. The reports are prepared at least on a quarterly basis.

At the end of December 2016 and 2015, Tolerance Level which by definition can be understood as the Bank's Operational Risk Exposure, is 0.3% of its annualized income, estimated on a monthly basis. Equivalent to \$52.3 for 2016 and \$160 for 2015, on average. The materialized loss events, associated with the operational risk, during 2016 reached only 0.2% and 0.1% in 2015 as a percentage of annualized income, below the maximum tolerance in both years.

# (24) Recently issued financial reporting and regulatory standards-

On January 6, 2017, the Commission published in the Official Gazette the resolution amending various articles of general provisions applicable to credit institutions, including the change of allowance for loan losses methodology for non-revolving consumer loans and residential mortgages. These provisions shall enter into force since June 1, 2017.

Management is currently in process of evaluating the accounting effects that will generate on their financial statements, derived from the adoption of the new allowance for loan losses methodology for non-revolving consumer loans.

The CINIF has issued the FRS and FRS improvements listed below:

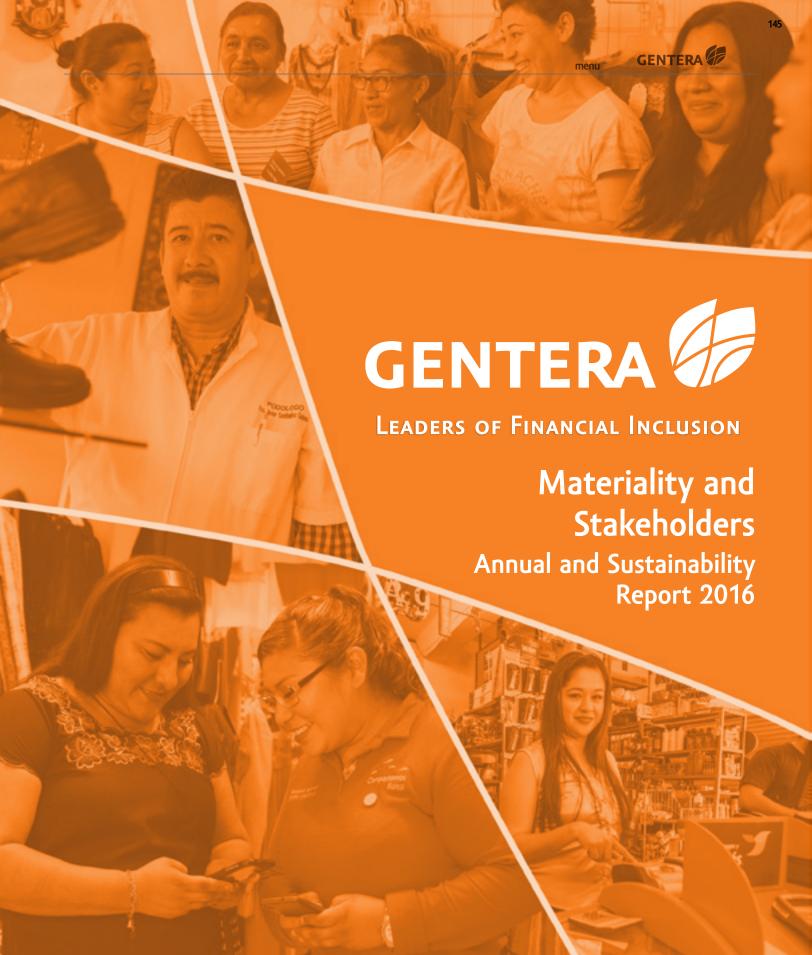

- FRS B-17 "Determination of fair value"
- FRS C-2 "Investment in financial instruments"
- FRS C-3 "Accounts receivable"
- FRS C-9 "Provisions, Contingencies and Commitments"
- FRS C-10 "Derivative financial instruments and hedging relationships"
- FRS C-16 "Impairment of financial instruments receivable"
- FRS C-19 "Financial instruments payable"
- FRS C-20 "Financing instruments receivable"
- FRS D-1 "Revenue from contracts with customers"
- FRS D-2 "Costs from contracts with customers"

### 2017 FRS Improvements

In October 2016, CINIF issued a document called "2017 FRS Improvements" containing precise modifications to some of the existing FRS. The main revisions that bring about accounting changes are the following:

FRS B-13 "Subsequent events as of the date of the financial statements" FRS B-6 "Statement of financial position" FRS C-6 "Property, plant and equipment" FRS C-11 "Stockholders' equity" FRS D-3 "Employee benefits"

Management estimates that the new FRS and the FRS improvements will not have important effects on the Gentera's financial statements, given that they are not applicable or exist specific accounting criteria set forth by the Commission.

Carlos Labarthe Costas Chief Executive Officer Oscar Luis Ibarra Burgos General Internal Auditor

# Relations with stakeholders (102-21, 102-40, 102-42, 102-43, 102-44)

At Gentera, we consider dialogue with stakeholders to be an essential part of our operations; aligned with our goal of creating shared value, and fostering communication through a variety of channels. Beyond the purpose of knowing their expectations and sharing our responses, we seek to strengthen trustworthy relationships, and to push their participation in our different administration and communication processes.

We determine stakeholders through an analysis made with the help of external experts, which consider entities and individuals that could be affected by our operations, and those that could have an impact on us.

Below we share our different stakeholders, the mechanisms we offer, as well as the expectations and interests obtained through them.

| Stakeholders | Main communication channels<br>and mechanisms  | Highlighted expectations<br>and interests   |

# **Contribution to the Sustainable Development Goals**

At Gentera, our purpose is financial inclusion, which is key for socio-economic development of an sub-served seqment, which in this way it can implement its personal and professional projects.

Through credit, we facilitate the access of the sub-served segment, to solutions that improve their quality of life and contribute to strengthen their family and community situation. Moreover, through financial education and delivery of saving solutions, we promote the administration of our clients' and the community's finances. With insurances, we contribute by creating a culture of prevision.

In 2015, the United Nations approved the 2030 Agenda, that focuses on the international community's efforts regarding social, environmental, and economic issues. It established 17 Sustainable Development Goals, that materialize the issues to be resolved through a collective effort between the public administrators, companies, and civil society organizations.

From the start, through the different solutions that we offer, we have worked to resolve some of these challenges. We've helped our clients implement their projects, along with the contributions that they transfer to their communities. With our emphasis in the sub-served segment, and especially on women, we push for gender equality and for the reduction of social inequality.

We mainly contribute to:

**ODS 1:** Ending poverty in all its forms, everywhere.

**ODS 5:** Achieve gender equality and empower all women and girls.

**ODS 10:** Reduce inequality within and among countries.

# General parameters (102-32, 102-48, 102-49, 102-50, 102-51, 102-52, 102-53, 102-54, 102-56)

In Gentera, we share our financial and non-financial development, including information about social issues and corporate government through our Annual and Sustainability Report. From the beginning, we consider the methodology crafted by Global Reporting Initiative (GRI) and its updates. In this sense, the present report has been developed adhered to GRI Standards and its option of essential conformity. Additionally, we consider the supplemental content of the GRI for the financial services sector that is linked to material issues.

The content has been revised and approved by the Executive Directorate for External Relations and Corporate Responsibility, and by the Internal Audit Area, with the purpose of strengthening the monitoring processes and compilation of information after Gentera's growth, and the adaptation of the new GRI Standards. Because of this, and contrary to the preceding report, we have made the decision of to not proceed with an external verification in this case.

In the present integrated report, we offer Gentera's performance, as well as that of the entirety of our companies from 2016, including, for the first time, FiinLab's performance, our innovation laboratory for financial inclusion, as well as this year's creation and official launch.

Throughout this publication, we detail measuring mechanisms and calculation formulas from Employees. We stress that there is no re-expression of data pertaining to what is included in the Annual and Sustainability Report 2015.

# Determination of material issues (102-46, 102-47, 102-49)

For the definition of the content that is to be included in this report, or which topics are to be considered 'material', as well as the internal and external limits, wherever they are relevant, we perform a 4-stage process: identification, prioritization, validation, and revision. This has allowed us to integrate the company's strategic focus from the perspective of our stakeholders, with specific activities from each stage:

### Revision and identification

Gentera's Focus

meni

• Analysis of corporative documents, including our Ethics Code and some of the main policies, etc.

• Interviews with key Gentera executives, as well as from our companies, which planned an wide array of topics.

#### Perspective from • Analysis of Gentera's results, as well as from our companies and subsidiaries, from our stakeholders the interactions maintained with stakeholders, including the work environment survey (Great Place to Work, GPTW) and the main information requirements from the investors.

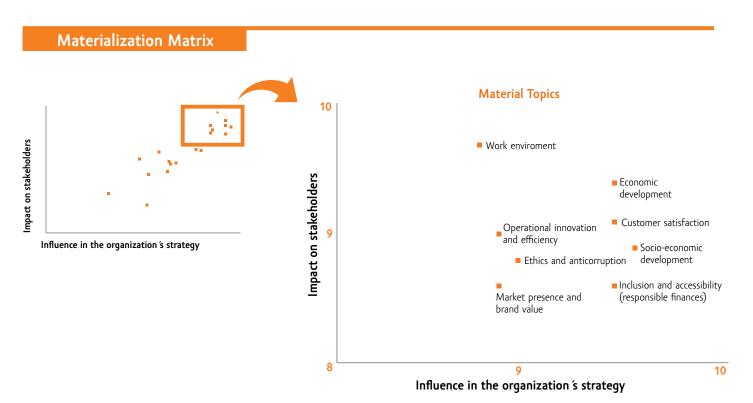

• Moreover, we made an analysis of the main topics from each industry, based on what is indicated in important publications from the Global Reporting Initiative (GRI Section Supplement for Financial Services, Sustainability Topics for Sectors), included in the annual RobecoSAM analysis (Sustainability Yearbook), the materiality from SASB, aspects included in the referenced documents from the PSI initiative from UNEP -FI, and in the Financial Inclusion in Latin America and the Caribbean: Data and Tendencies 2015, from FOMIN<sup>1</sup>

### Prioritization and validation

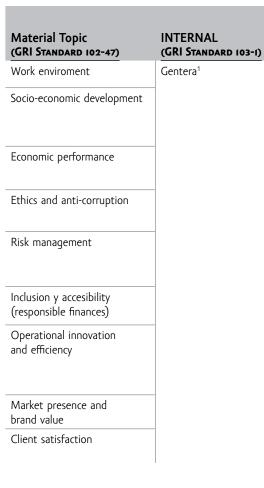

After the generation of the list of potentially relevant issues, we proceeded to the prioritization of these topics, and the determination of 'material' issues, considering the double perspective of the company's strategy, and the focus of the stakeholders. In this case, by:

| Enfoque Gentera                         | • Importance given to the issues by the interviewed executives.  |
|---|--|
| Perspectiva de los<br>grupos de interés | • Direct consultation with our Employees via the realization of a focus group, as well as indirect consultation with our clients through studies of brand perception, interviews with the team in charge of its positioning, and the visit to various branches in the State of Puebla. |

The list of material issues was validated by the Executive Directorate of External Relations and Corporate Responsibility, for its inclusion in the present report, and we present it below:

<sup>1</sup> Sustainability Accounting Standard Board (SASB), Principles for Sustainable Insurance (PSI), The United Nations Environment Programme Finance Initiative (UNEP-FI), Fondo Multilateral de Inversiones (FOMIN).

Aside from the topics deemed to be material, Gentera administers and communicates its greenhouse gases, setting every year's inventory at the disposal of the corresponding stakeholders. The emission report for 2016 could be consulted in the following website:

https://www.gentera.com.mx/wps/portal/gentera/responsabilidad-social/

<sup>1</sup> Due to similarities in client segments and type of businesses from the various subsidiaries (financial and insurance sector), the limit is entirely made up by entities that form Gentera.
