Comments from Mr. Enrique Majós, GENTERA's CEO:

More than a year since the pandemic began, GENTERA concluded this first quarter in a solid operational and financial position as demonstrated by our results. Although the sanitary contingency is still present, we remain fully committed to deliver financial opportunities and be a catalyst for renewed economic activity in the different countries where we are present.

GENTERA's subsidiaries in México, Banco Compartamos and ConCrédito, and its operations in Peru and Guatemala recorded a Loan Portfolio of Ps. 39,889 million and reported Ps. 378 million in Net Income, highlighting this as the second consecutive quarter of positive results. This is mostly thanks to strategic decisions made, the trust of our esteemed clients, and the passion and commitment of our team. GENTERA's capital position remains solid at 32.3%, with an ICAP at 33.3% in Banco Compartamos and Capital Ratio at 19.6% in Compartamos Financiera.

ATERNA, GENTERA's insurance broker, concluded the first quarter with more than 7.1 million active insurance policies. YASTAS, its correspondent network manager, recorded approximately 5.8 million transactions achieved through a nationwide network of 5.3 thousand affiliates. Lastly, ConCrédito, our most recent subsidiary, ended the period with a portfolio of 2.3 thousand million pesos, serving over 45 thousand distributors who reach approximately 540 thousand end users.

Finally, technology and digital transformation have become crucial for GENTERA's operations and will be key moving forward. At the same time, we remain committed to a high level of service and will continue putting our clients at the center of our decisions. We are confident that the measures implemented over the past year and the return to normality will allow us to continue obtaining positive results for the rest of 2021 and with larger opportunities going forward, generating shared value for all, boosting our clients' dreams.

The analysis was conducted with consolidated figures and considering Mexican GAAP. The percentage comparisons are calculated for the 1Q21 versus the previous period of 2020 and 4Q20, unless otherwise stated. **For this 1Q21 analysis, the reader must take into consideration the consolidation of ConCrédito in GENTERA's Financial Statements; ConCrédito results are not being consolidated in GENTERA's figures for 1Q20. Income Statement

Interest Income (Ps. millions)

Interest income in 1Q21 was **Ps. 5,149** million, a 5.1% increase compared to 4Q20 as a result of a 5.1% increase in interest income in Banco Compartamos in 1Q21 vs 4Q20, a 56.0% increase in interest income in ConCredito, while considering a slight 0.7% contraction in interest income in Compartamos Peru in the same comparable periods 1Q21 vs 4Q20. The increase observed at GENTERA is mainly due to an acceleration in credit origination in Banco Compartamos and ConCredito's contribution, as well as the fact that for 1Q21 there were minor impacts coming from deferral programs that were active in the previous quarters.

In an **annual comparison** of the interest income line, there was still a 13.7% contraction compared to 1Q20. This variation was a result of: 1) the annual contraction of 13.8% in the Banco Compartamos microcredit loan portfolio in 1Q21 compared to 1Q20; the different benefits granted to Banco Compartamos' clients during the sanitary contingency, which in aggregate generated a 20.2% contraction in the interest income generated in 1Q21 compared to 1Q20; and, 2) the dynamics experienced in our Peruvian subsidiary, Compartamos Financiera, which also granted benefits to its clients in the sanitary contingency, impacting the interest income generated during the 1Q21 with a 19.2% contraction compared to the 1Q20.

Banco Compartamos represented most of GENTERA's current portfolio and interest income, with 54.9% and 69.5%, respectively, compared to 1Q20 when it accounted for 57.1% and 75.1%, in the same order.

Gentera's four main subsidiaries grant loans with different **average outstanding balances** per client (Ps. 9,730 in Banco Compartamos, Ps. 23,924 for Compartamos Financiera, Ps. 7,263 for Compartamos Guatemala and Ps. 50,607 for ConCredito's distributors who reach final users with an average ticket in Ps. 4,287). These variations in ticket size are related to the share of the group lending or individual lending products in their respective portfolio and/or their business model. The **yield** for GENTERA's portfolio (considering Banco Compartamos, Compartamos Peru, ConCredito and Compartamos Guatemala) during 1Q21 stood at **53.5%** as a result of the benefits that have been granted to clients during the public health crisis originated by COVID-19.

GENTERA's interest expense stood at **Ps. 528 million**, a **9.7% decrease** compared to 4Q20 and a **10.5%** increase compared to the figure posted in 1Q20. This movement is mainly explained by the increase in the cash position and, as a consequence, in liabilities required to fund the different initiatives that Banco Compartamos, Compartamos Financiera, ConCredito and Compartamos S.A. have implemented during the health contingency, and also due to the strategy of deciding to have a more solid cash position compared to normal times. Interest expenses performed better compared to the increase in liabilities, which was also supported by the reference interest rate cut environment in Mexico and Peru.

- **The Funding Cost of Banco Compartamos in Mexico**, which includes wholesale funding and deposits, **stood at 5.3%** in 1Q21, compared to 6.9% in 1Q20. Interest expenses in 1Q21 decreased 6.0% compared to 4Q20, and increased 6.2% to Ps. 327 million, compared to Ps. 308 million in 1Q20. At the end of the quarter, **23.6%** of Banco Compartamos liabilities (considering interbank liabilities and long-term debt issuances) were subscribed at a **fixed rate**.
- **Compartamos Financiera in Peru** reduced its Interest Expenses by **7.0%** to Ps. 155 million versus 1Q20, which implies a solid improvement in its cost of funds. This was possible thanks to more favorable terms and conditions in credit lines and debt issuances, as well as the reductions in the reference interest rate in Peru. **Cost of funding stood at 3.7%**, compared to 4.8% in 1Q20.

GENTERA's Net Interest Margin (NIM) for the first quarter of 2021 reached **32.1%**, which is below the 41.7% reached in 1Q20, **but above the 29.0% reached in 4Q20**. The movement was primarily attributed to: 1) Reduction in the size of Banco Compartamos' portfolio and the flexibility in payments; 2) the reduction

in the active interest rate in Mexico, which was a campaign to incentivize clients to keep paying during the sanitary contingency period; 3) the lower contribution of Banco Compartamos in the consolidated portfolio, now accounting for 54.9% at the end of 1Q21 compared to 57.1% in 1Q20; and, 4) the extra liquidity that Banco Compartamos, Compartamos Financiera, ConCrédito and Compartamos Guatemala held during the quarter to mitigate potential COVID-19-related volatility. These dynamics, among others, had the following consequences: 1) a lower interest income was recorded in the period due to the deferral of payments granted to clients in the different subsidiaries and the interest rate discounts, and also due to the new participation that each subsidiary, which has different active interest rates, had in the consolidated portfolio; and, 2) due to the fact that the extra liquidity led to an increase in productive assets, consequently impacting NIM ratio.

Provisions for loan losses reached **Ps. 720 million** during the quarter. This item contracted by Ps. 531 million, or 42.4%, when compared to 1Q20, mainly derived from: 1) Stronger performance of Banco Compartamos' loan portfolio; 2) the prudential decision in **3Q20** of booking **Ps. 1,538 million in provisions** in Mexico and additional provisions in Compartamos Peru in 4Q20. **Cost of Risk** for 1Q21 stood at **7.1%**.

NIM after provisions ¹⁾

1) Net Interest margin after provisions / Average Yielding Assets

NII after provisions stood at **Ps. 3,901 million**, a 3.8% sequential increase compared to the previous quarter, and a 7.9% contraction compared to **Ps. 4,236 million** in 1Q20.

NIM after provisions (NII after provisions for losses / average yielding assets) for 1Q21 stood at **27.1%**, compared to 32.2% in 1Q20 and an improvement compared to 25.2% reached in 4Q20. It is worth highlighting that GENTERA's four financial subsidiaries, Banco Compartamos, Compartamos Financiera, ConCrédito and Compartamos S.A. increased their cash positions to mitigate potential volatility. This additional liquidity impacted the NIM before and after provisions since the average yielding assets increased substantially. GENTERA concluded the first quarter with Ps. 19,812 million in cash and other investments, representing a 40.6% growth compared to 1Q20.

The net effect between commissions charged and commissions paid in 1Q21 totaled **Ps. 192 million**, a decrease of **Ps. 32 million, or 14.3%**, compared to the net effect of Ps. 224 million in 1Q20, which for this 1Q21 is explained as follows:

Commissions and fee income decrease 4.0% compared to 1Q20 and, in 1Q21 **increased by 14.9%** to Ps. 316 million compared to Ps. 275 million in 4Q20 and. This item mainly reflected: 1) insurance fees, which in this quarter had an expansion compared to 4Q20, but still a contraction given the smaller number of insurance policies sold in the period compared to 1Q20; 3) fees generated at Yastás, Aterna and ConCrédito; and, 4) commissions generated at Compartamos Financiera. **The following table shows consolidated numbers for each subsidiary.**

Commissions and fee income (millions of pesos)			
	1Q21	1Q20	4Q20
Banco Compartamos	163	222	169
Compartamos Financiera	97	60	46
Compartamos Guatemala S.A.	4	4	3
ConCrédito	7	-	9
Yastás	14	10	15
Aterna	31	33	33
Total	316	329	275

Commissions and fee expenses increased 18.1% compared to 1Q20 and the during this first quarter contracted by **27.9% compared to 4Q20**, or Ps. 48 million, to **Ps. 124 million**. This movement is explained by smaller fee expenses in Mexico and Peru and is mainly attributable to a contraction in fee expenses linked to insurance products.

Clients in Banco Compartamos, GENTERA's largest subsidiary, have the flexibility to carry out their transactions through different channels. However, it is important to note that a significant amount of Banco Compartamos' disbursements and loan collection operations continued to be performed through GENTERA's channels, representing 69.7% and 29.4%, respectively, at the end of March 2021, very similar figures compared to 69.6% and 29.3% in the previous quarter.

The Commissions and Fee expense item included: i) fees charged by third parties to Banco Compartamos for the use of their networks, as well as ii) fees related to the operation of YASTAS. **The following table shows consolidated numbers for each subsidiary:**

Commissions and fee expense (millions of pesos)			
	1Q21	1Q20	4Q20
Banco Compartamos	68	72	112
Compartamos Financiera	28	15	30
Compartamos Guatemala S.A.	1	1	2
ConCrédito	8	-	8
SAB	-	-	(3)
Yastas	18	16	22
Servicios	1	1	1
Total	124	105	172

Trading gains in 1Q20 were **Ps. 6 million** and are mainly linked to cash position in dollars that the Company holds to cover payments of contracts in that currency.

Other Operating Income/Expenses during 1Q21 represented an income of **Ps. 151 million**. This item reflected income from CrediTienda (ConCredito's online platform used to sell different products) as well as non-recurring income or expenses, including: 1) extraordinary income related to the reversal of provisions; 2) expenses linked to R&D of our innovation lab; and 3) donations, amongst others.

Operating expenses reached **Ps. 3,595 million, a 1.6% increase** versus the Ps. 3,539 million in 1Q20. This slight increase continued in line with the action plan announced at the beginning of the sanitary contingency in which we explained that the Company would have a strong cost control and strict discipline in the management of our different subsidiaries' expenses, primarily at Compartamos Financiera and Banco Compartamos, where operating expenses contracted 22.6% and 2.5%, respectively, on an annual comparison. Is important to bear in mind that with the consolidation of ConCredito and with different initiatives that will occur in the following months, expenses should accelerate in the following quarters. Employees and infrastructure expenses continued representing around 80% to 85% of total operating expenses, as outlined below:

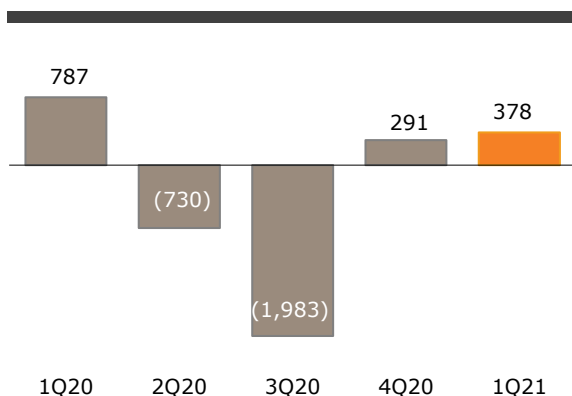

GENTERA's subsidiaries employ a total of **21,916 people**, a 3.3% contraction compared to 1Q20. The contraction is mainly explained by the actual number of employees required to serve the current customer base in an excellent and efficient manner. We are sure that with our esteemed staff and sales team we will keep servicing and attracting more customers in the following quarters. The number of employees in Banco Compartamos experienced a 11.6% contraction, Compartamos Financiera in Peru had a 6.4% contraction, and Compartamos S.A. in Guatemala represented a 13.5% contraction. ConCrédito had a 7.7% contraction in the number of its employees.

- **Salaries and benefits** accounted for approximately **Ps. 2,288 million**, or **63.7%** of total operating expenses.
- During 1Q21, GENTERA had 451 service offices and 160 branches in Banco Compartamos, 92 offices in ConCrédito, 108 service offices in Peru, and 42 in Guatemala for a **total of 693 Service Offices and 160 Branches**. Together, these service offices and branches (SO&B) and the Headquarters office accounted for **Ps. 557 million**, or **15.5%** of operating expenses.

- **Other strategic initiatives and advisory services such as:** 1) investments and depreciation of technology, such as SAP's ERP platform; 2) expenses associated to Yastás and Fiinlab; and, 3) legal fees and advisory services, among others, jointly accounted for **Ps. 637 million, or 17.7%** of operating expenses during 1Q21.
- **Marketing Campaigns** accounted for **Ps. 112.4 million, or 3.1%** of operating expenses, during the first quarter.

Participation in Net Income from Non-Consolidated Subsidiaries stood with Ps. 3 million in losses during the quarter, compared to Ps. 10 million in losses in 4Q20. This item reflects GENTERA's minority contribution in the Companies in which it has been investing.

Net Income (Ps. millions)

For 1Q21, GENTERA presented **Ps. 378 million in Net Income**, compared to Ps. 291 million recorded in 4Q20 and a Net Income of Ps. 787 million in 1Q20. The variations were primarily explained by 1) the dynamics experienced in the portfolio because of the public health crisis.

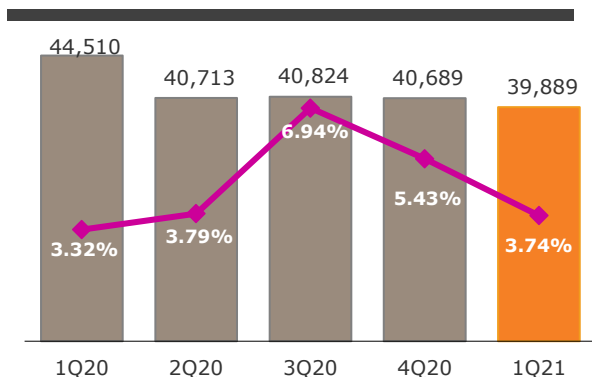

- **Controlling Company participation reported a Net Income of Ps. 319 million.** Earnings per Outstanding Share from controlling company in 1Q21 stood at \$0.20.

The dynamics seen in these first months of the year are encouraging and lead us to believe that we are heading in the right direction.

Balance Sheet

Cash and other investments stood at **Ps. 19,812 million** at the end of 1Q21 and represented a 40.6% increase compared to 1Q20. It is important to note that Banco Compartamos, ConCrédito, Compartamos Financiera and Compartamos S.A. have decided to hold extra liquidity due to the public health crisis and potential market volatility. The strong level of liquidity allows us to cover operating expense growth, debt amortizations and expected portfolio growth, as well as implement different programs and benefits that could be granted to clients to stabilize their payment capacity if there are additional market disruptions. At the end of 1Q21, 60.0% of the cash position corresponded to Banco Compartamos with Ps. 11,889 million held in highly liquid assets, while 23.6%, Ps. 4,675 million, corresponded to Compartamos Financiera, and 5.9%, Ps.1,166 million, corresponded to ConCrédito; the remaining 10.5% corresponded to GENTERA's other subsidiaries.

Total Loan Portfolio (Ps. Millions) & NPL

Total Loan Portfolio reached **Ps. 39,889 million** in 1Q21, a **10.4% contraction** compared to the figure reported in 1Q20, explained by the operational dynamics and impacts generated by COVID-19 in the loan portfolios of GENTERA's different financial subsidiaries. The Loan Portfolio was comprised as follows: 54.9% at Banco Compartamos, 37.3% at Compartamos Financiera in Peru, 5.8% in ConCrédito, and 2.0% at Compartamos in Guatemala.

Credit Quality (Non-Performing Loans / Total Portfolio)

Consolidated non-performing loans, considering the four financial subsidiaries, reached 3.74% in 1Q21, an improvement compared to the 5.43% registered in 4Q20 despite being a slightly larger figure compared to the 3.32% recorded in 1Q20. The NPL level recorded in 1Q21 vs 4Q20 reflected improvements in essentially all of GENTERA's subsidiaries except Compartamos Guatemala due to the impacts generated by COVID-19. Recent trends continued to show improvement in different subsidiaries, mainly in Banco Compartamos and ConCredito, where the visibility of the new portfolio generated in this "new normal" allows us to expect better dynamics in the coming quarters.

According to GENTERA's expectations, considering the dynamics seen in recent months and due to the short nature of most of its loan portfolio, NPLs could move slightly downwards or stay around the same ratio shown in this 1Q21, signaling that most of the impact generated by COVID19 is behind us.

As it was signaled in our previous press release, in December 2020 Banco Compartamos decided to write-off in advance Ps. 1,537 million in loans that were 150 days past due, instead of its normal policy to write-off loans at 180 days behind schedule. With that measure, most of the impacts generated by COVID-19 in Compartamos Mexico's loan portfolio have already been seen.

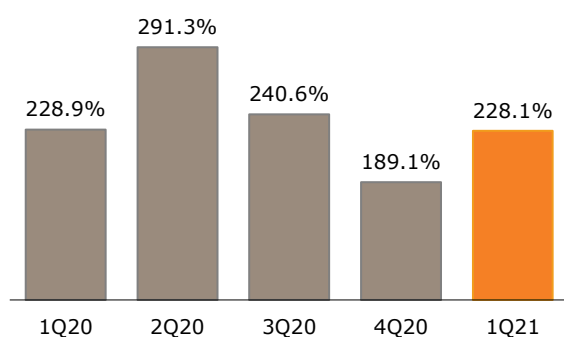

GENTERA recognizes that there are still challenges to face but the knowledge and experience it has acquired in originating and monitoring credits that have been granted during this public health crisis will help it to have much more control in the asset quality of its current and future loan portfolio.

Results of Operations

Interest Income (Ps. millions)

Interest income reached **Ps. 3,576 million in 1Q21, a 5.1% increase compared to 4Q20 and 20.2% contraction** versus 1Q20. This was the result of the 13.8% annual contraction in the microcredit loan portfolio compared to 1Q20 and was also impacted by the different benefits granted to Banco Compartamos' clients during 2020.

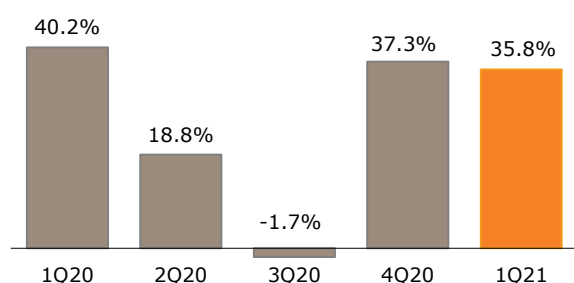

Dynamics seen in 1Q21 are encouraging as they continued to mark solid trends after the inflection point showed in 4Q20.

The Funding Cost, which includes liabilities and deposits from the public, **stood at 5.3% in 1Q21**, compared to **6.9%** in 1Q20. Interest expenses grew 6.2% to reach Ps. 327 million, compared to Ps. 308 million in 1Q20, a slight increase considering the 18.3% growth in liabilities to strengthen the liquidity. This smaller increase in interest expenses is mainly explained by the reduction in the reference interest rate in Mexico compared with the effective reference rate in 1Q20. It is important to highlight that Banco Compartamos will keep extra liquidity and will continue improving its debt maturity profile, prepaying some of its credits that will mature on year 2021 and 2022 and taking them to new maturity dates.

As a result of the aforementioned, Banco Compartamos reported a **Net Interest Income of Ps. 3,249 million, a 6.4% increase** compared to the previous quarter, and 22.1% contraction compared to 1Q20.

Provisions for loan losses stood at **Ps. 276 million**, compared to Ps. 1,028 million in provisions required in 1Q20, and compared to a reversal of Ps. 102 million in 4Q20. The provisions booked were derived from the prudent decision of booking additional provisions in 2020 as a response to the potential impacts generated by COVID-19 in the loan portfolio and the healthy performance that we are seeing in the portfolio. In 1Q21, the performance of asset quality continued in a solid evolution due to the excellent performance of clients in their credit payments.

Net Interest Margin¹ (after provisions)

NII after provisions was Ps. 2,973 million, which represented a smaller figure compared to Ps. 3,157 million shown in 4Q20. Compared to 1Q20, it presented a 5.4% contraction.

NIM (Net Interest Margin) after provisions (NII after provisions for losses / average yielding assets) for **1Q21 was 39.1%**, compared to 36.1% and 53.3% in 4Q20 and 1Q20, respectively. The lower NIM is mainly attributed to the contraction in the interest income generated by a smaller portfolio and a lower yield in Banco Compartamos' portfolio, as well as the higher cash and cash equivalents balance compared to 1Q20. This additional liquidity has also impacted the NIM before and after provisions since the average earning assets have increased substantially.

1) Net Interest margin after provisions / Average Yielding Assets

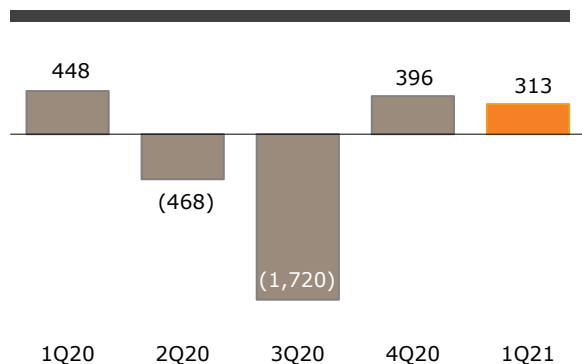

Net Operating Income

- **Commissions and fee income** reached Ps. 163 million, a 28.2% contraction compared to Ps. 227 million in 1Q20, explained by the elimination of penalty fees charged to clients with credit payments past due, and to a lesser extent by the 5.3% contraction in sales commissions from insurances policies. Sales Commissions from insurance policies represented 90.8% of fee income and the remaining 9.2% was related to other concepts and fees.

- **Commissions and fee expenses** totaled Ps. 137 million, an 8.7% contraction when compared to 1Q20. This item includes: 1) collection and disbursement fee costs, accounting for 13.6%; 2) alternative channels to pay and withdraw loans from Banco Compartamos, for 34.8%; 3) free voluntary life insurance coverage included in the *Credito Mujer* product, for 9.9%; and, 4) fees paid to YASTAS and other fees, for 41.7%.
- **Trading Gains** in 1Q21 were **Ps. 6 million** and are linked to cash position in dollars that Banco Compartamos holds to cover its contracts in that currency.
- **Other income/expenses** reached an income of **Ps. 17 million for 1Q21**. This item reflected non-recurring income or expenses, including: 1) other income related to provision write-offs; 2) expenses linked to R&D; and, 3) donations and others.
- **Operating expenses** for 1Q21 decreased **2.5% year-over-year to Ps. 2,601 million**, primarily attributable to tighter expenditure control aligned with our expectation for this first quarter. Operating expenses include items related to: 1) the operation of headquarters, service offices, and branches; 2) wages and employee benefits; and, 3) the execution of strategic initiatives and marketing efforts.

Net Income

Net Income (Ps. millions)

Banco Compartamos reported a **Net Income of Ps. 313 million**, compared to Ps. 396 million in 4Q20 and still below Ps. 448 million in Net Income generated in 1Q20. The net income achieved in this 1Q21 marked the right direction in returning to stronger figures and **marked six consecutive months of positive Net Income**.

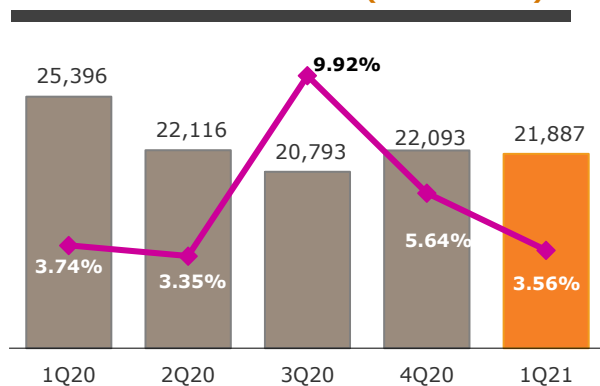

The dynamics seen in this first quarter lead us to believe that 2021 will be a year of solid performance.

Balance Sheet

Cash and other investments grew **38% to Ps. 11,889 million**, compared to **Ps. 8,617 million** in 1Q20, and recorded a 13.4% increase compared to **Ps. 10,486 million** in 4Q20. The amount in this line corresponds to the funding (operational liquidity) required by Banco Compartamos to cover operating expenses, debt maturities, and loan portfolio growth. At the end of 1Q21, it includes more than Ps. 8,100 million in extra liquidity held to mitigate any potential volatility in the markets derived from the current health contingency and to implement different programs and initiatives to support our customers. Cash and other investments are held in short-term instruments, where the counterparty risk is approved by the Board's Risk Committee.

Total Loan Portfolio

Microcredit Loan Portfolio (Ps. millions) & NPL

The microcredit loan portfolio reached **Ps. 21,887 million**, a **0.9% contraction** compared to **Ps. 22,093 million** reported in 4Q20, and 13.8% contraction compared to the portfolio reached at the end of 1Q20. The total portfolio, considering microcredit loans and related party loans at the end of 1Q21, contracted 10.5% compared to Ps. 25,646 million recorded at the end of 1Q20.

Loan Products & Credit Quality

The loan products offered by Banco Compartamos are comprised of two main categories (*Group and Individual Methodologies*):

- Group Lending Methodology:** Merchant Credit (*Credito Comerciante*) and Women Credit (*Credito Mujer*) represented **79.2%** of the total loan portfolio in 1Q21 with a consolidated **NPL of 2.83%** for 1Q21, an improvement compared to **5.43%** in 4Q20 and to **3.54%** in 1Q20.
- Individual Lending Methodology:** Improvement Loans (*Crece y Mejora*), Additional Loans (*Credito Adicional*), and Personal Loans (*Credito Individual*) represented **20.8%** of the total loans portfolio in 1Q21 with a consolidated **NPL of 6.37%** in 1Q21, compared to **6.50%** in 4Q20 and 4.42% in 1Q20.

During **1Q21**, total **NPLs reached 3.56%**, compared to 5.64% reached in 4Q20 and the 3.74% recorded in 1Q20. **Banco Compartamos' policy is to write-off loans that are past due after 180 days.** During the first quarter, write-offs reached Ps. 849 million. Banco Compartamos acknowledges that there are still challenges to face as the sanitary contingency is still present, but as previously indicated the knowledge and experience it has acquired in originating and monitoring credits granted during this public health crisis will bring more control in the asset quality of its current and future loan portfolio, and at the same time a more efficient operation.

For 1Q21, the coverage ratio (allowance for loan losses / non-performing loans) was 206.3%, compared to 223.8% in 1Q20. Allowance for loan losses is calculated using the methodology established by the CNBV, which requires specific reserve coverage for each originated loan: Group Loans with a solidarity figure and another separate coverage for Individual Loans. It is important to highlight that our methodology follows the rules that apply to the 'Microcredit' category.

The allowance for loan losses by credit rating was distributed as follows:
