Income Statement

The following financial results analysis is done with consolidated figures.

Interest Income

Interest income reached Ps. 5,137 million in 1Q17, an **11.1% increase** compared with 1Q16, due to the dynamics experienced in the 7.8% portfolio growth in the Mexican subsidiary compared to the growth of more than 37% in the international subsidiaries. The Loan Portfolio of the Mexican subsidiary is not capturing yet the repricing initiative of the credit products that started in this first quarter. The interest income growth rate is consistent with the expectations for the first quarter and should accelerate throughout the year.

Banco Compartamos represents most of GENTERA's current portfolio and interest income, with 74.8% and 83.9%, respectively.

Gentera's three main subsidiaries grant loans with different **average outstanding balance** per client (Ps. 8,541 for Banco Compartamos, Ps. 18,964 for Compartamos Financiera and Ps. 6,147 for Compartamos Guatemala). These variations in ticket size are related to the share of the group lending or individual lending products in their respective portfolio. The **Yield** for GENTERA's portfolio stood at **63.8%**.

Interest expense increased by Ps. 149 million, or **58.9%**, compared with 1Q16. This increase reflects the effect of the reference interest rate adjustment in Mexico, which has increased 325 bps from January 2016 to March 2017 and the adjustment in Peru. The increase in interest expenses is also a consequence of the extra liquidity that Banco Compartamos held during the first 2 months of the year to mitigate the potential volatility of the Mexican Market due to external factors. As a consequence **Net Interest Margin (NIM)** for the first quarter 2017 reached **51.1%**, versus the 56.2% reported in 1Q16.

Provisions for loan losses reached **Ps. 870 million** during the quarter. This amount was Ps. 213 million, or **32.4%** higher compared to 1Q16. This effect is in line with the evolution of the portfolio mix which is integrated with different risk profile products. Provisions are in accordance with CNBV regulations and methodologies, reflecting the level required for each particular product.

NIM after provisions ¹⁾

Net Interest margin after provisions / Average Yielding Assets

NII after provisions rose to **Ps. 3,865 million**, a 4.1% increase compared to **Ps. 3,712 million** in 1Q16.

NIM (Net Interest Margin) after provisions (NII after provisions for losses / average yielding assets) for 1Q17 was 41.7%, compared to 47.7% in 1Q16.

Commissions and fee income during the quarter **increased 4.7%** to Ps. 332 million, compared with 1Q16. This line item mainly reflected: i) late payment fees charged to clients with delinquent loans at Banco Compartamos; ii) fees generated at YASTAS, ATERNA and INTERMEX; and iii) commissions generated at Compartamos Financiera. The following table shows consolidated numbers of the different subsidiaries.

- GENTERA’s subsidiaries jointly totaled **20,837 employees**, an increase of 0.8% compared with 1Q16, mainly due to the following:
 - i) The Mexican operation showed a 2.7% contraction in the number of employees as a result of a better use of the technology in hands of our Loan Officers and improvements in the methodology.
 - ii) Our Peruvian operation grew 12.2% on a year-on-year basis in terms of the number of employees. This additional sales force was required to adequately serve the client base and achieve further market penetration with *Credito Mujer*. - During 1Q17, Gentera had 553 service offices and 145 branches in Mexico, 74 service offices in Peru and 53 in Guatemala for a **total number of 680 Service Offices and 145 Branches**. Together, these service offices and branches (SO & B) represented **Ps. 464 million, or 17.0%** of the operating expenses. The current number of service offices and branches was **6.7% larger** than the 773 service offices and Branches reported in 1Q16.
- **Other strategic initiatives and advisory services, such as:** i) the SAP platform and the ERP; ii) the deposit pilot projects; and, iii) Yastas; among other initiatives jointly represented **Ps. 344 million or 12.6%** of operating expenses during 1Q17.
- **Marketing Campaigns** represented **Ps. 130 million or 4.8%** of operating expenses during the first quarter, including the investment associated with the **loyalty program** which totaled **Ps. 83.2 million** this quarter.

Participation in Net Income from Non-Consolidated Subsidiaries represented a Ps. 5 million loss during the quarter, compared with a Ps. 29 million loss in 1Q16. This line item reflects the contribution of MIMONI, the online lending company in which GENTERA is investing.

Net Income (Ps. million)

This level of liquidity enables us to cover operating expense growth, debt amortizations and expected portfolio growth for the following 30 days. Results of Operations

Net Interest Income after Provisions (NII after provisions)

Interest income reached **Ps. 4,310 million in 1Q17**, **6.2%** higher than 1Q16, and slightly below its Portfolio's growth during this period.

Interest Income (Ps. millions)

The Funding Cost, which includes liabilities and deposits, **stood at 6.51%** in 1Q17 compared to **4.15%** in 1Q16. Interest expenses rose 71.9% to Ps. 294 million, compared to Ps. 171 million in 1Q16. This growth was explained by: i) the increase in the reference interest rate; ii) the 60 days liquidity metric (above the normal 30 days metric) that was active during January and February as a way of mitigating the potential market volatility due to external factors.

As aforementioned, the cost of funds during 1Q17 was relatively stable considering that the Central Bank raised interest rates by 350 bps or more than 100% since December 2015. This was possible given the fact that the Bank continued obtaining better credit spreads from the credit lines used in the past months, and as of today more than 30% of the Company's liabilities are contracted at fixed rate. As a result, Banco Compartamos reported **net interest income of Ps. 4,016 million, 3.3%** higher than in 1Q16.

Provisions for loan losses were Ps. 744 million due to the contribution of *Credito Comerciante*; *Credito Crece y Mejora* and *Credito Individual* products in the portfolio during 1Q17, which accounted for 48.7% of the portfolio.

Net Interest Margin (after provisions)

NII after provisions rose to Ps. 3,272 million, a 1.3% contraction compared with Ps. 3,316 million in 1Q16.

NIM (Net Interest Margin) after provisions (NII after provisions for losses / average yielding assets) for **1Q17 was 48.1%**, compared with 56.0% in 1Q16. The contraction in margins is due to: i) the higher funding cost; ii) the additional liquidity that Banco Compartamos had in 2 months of the quarter; and iii) higher cost of risk. These impacts should be mitigated by the repricing initiative of the credit products that started in this quarter.

1) Net Interest margin after provisions / Average Yielding Assets

Net Operating Income

- **Commissions and fee income** reached Ps. 238 million, a 24.0% increase versus 1Q16. This line item was mainly driven by collection fees and penalties charged to clients with delinquent accounts, representing 42.3% of income, as well as sales commissions for voluntary life insurance policies, which accounted for 52.0%. The remaining 5.7% was related to other concepts and fees.

- **Commissions and fee expenses** totaled Ps. 138 million, a slight increase of 0.7% compared to 1Q16. This line item mainly reflected: i) 35.3% collection and disbursement fee costs; ii) 28.7% for alternative locations to pay and withdraw loans from Banco Compartamos; iii) 10.8% for the free voluntary life insurance coverage included in the *Credito Mujer* product; and iv) 25.2% fees paid to Yastás.
- **Trading gains/losses** stood with a loss of **Ps. 8 million** during the quarter due to FX volatility during these 3 first months of the year.
- **Other income/expenses** reached a **Ps. 27 million** loss. This item reflected non-recurring income or expenses, which for the first quarter were primarily driven by a provision linked to the fees of delinquent accounts, and by FX losses.
- **Operating expenses** for 1Q17 rose only **2.3%** to **Ps. 2,212** when compared to 1Q16, primarily attributable to: i) better levels of productivity ii) new branches; iii) strategic initiatives.

Net Income

Net Income (Ps. millions)

Banco Compartamos reported **net income of Ps. 829 million**, representing a slight contraction of 0.2% versus 1Q16.

Balance Sheet

Cash and other investments increased by **46.8%** to **Ps. 2,573 million**, compared with **Ps. 1,753 million** in 1Q16. This amount represented the funds required by Banco Compartamos to cover operating expenses, debt maturities and loan portfolio growth for the following 30 days (During the first 2 months of 2017, this policy required a prudent approach of 60 days due to the potential volatility in the Mexican market). During 1Q17, cash and other investments represented 9.0% of total assets, while during 1Q16 this line item represented 6.5% of total assets. Cash and other investments are placed in short-term instruments where the counterparty risk is approved by the Board's Risk Committee.

Total Loan Portfolio

Loan Portfolio (Ps. million)

The **loan portfolio from microcredit loans** reached **Ps. 24,214 million**, **7.8%** higher than the **Ps. 22,470 million** reported in 1Q16. This growth explained by the average outstanding balance per client given the larger ticket sizes that clients can take from the different products that Compartamos holds in its portfolio.

The **average outstanding balance per client** in 1Q17 was **Ps. 8,541**, **8.9%** above the Ps. 7,842 reported in 1Q16.

Loan Products & Credit Quality

The loan products offered by Banco Compartamos are distributed under two main categories (*SEE DETAIL ON PAGE 7*):

- Group Lending Methodology:** Merchant Credit (*Credito Comerciante*) and Women Credit (*Credito Mujer*) represented **74.7%** of the total loan portfolio in 1Q17, which combined presented an **NPL of 4.66%** for this 1Q17, compared with 3.19% in 1Q16.
- Individual Lending Methodology:** Improvement Loans (*Crece y Mejora*), Additional Loans (*Crédito Adicional*) and Personal Loans (*Credito Individual*) represented a **25.3%** share of the total loans portfolio in 1Q17, with a consolidated **NPL of 5.64%** in 1Q17, compared with 5.48% one year ago.

During **1Q17** total **NPLs reached 5.14%**, a **deterioration** when compared to 3.78% and 4.49% reported in 1Q16 and 4Q16 respectively.

Banco Compartamos' policy is to write-off loans that are past due after 180 days. During the first quarter, this figure reached Ps. 780 million or 70.3% more than that recorded in 1Q16.

For 1Q17, the coverage ratio (*allowance for loan losses / non-performing loans*) was 133.4% compared with 151.8% in 1Q16. Allowance for loan losses is based on the methodology established by the CNBV, which requires specific reserve coverage for each originated loan: Group Loans with a solidarity figure; and, a different coverage for Individual Loans. It is important to highlight that our methodology follows the rules that apply to 'Personal Credit' category instead of 'Consumer Loans, Not Revolving, Others' category, described previously.

The allowance for loan losses by qualification was distributed as follows:
